Subject: Re:Reminder, Field of Membership Call t

----[From: PACIFIC CREST FEDERAL CU; 1/26/2016 6:50:11 PM]-----
Pacific Crest needs your support for the "Field of Membership Proposal" submitted to National Credit Union Administration that would give millions of Americans more access to financial services from credit unions. The banking community is fighting this proposal and we need credit union members to support this cause. This proposal will make it easier for federal credit unions to expand their field of membership.

We need members to respond either through the email link listed below or by signing the printed letter displayed in the credit union lobby. We need 1,000 signatures by February 5th. Currently, we have only 100 signed letters.

https://www.votervoice.net/CUNA/campaigns/43458/respond

Here is how the proposal can help Pacific Crest:

. Pacific Crest could expand into bordering areas such as Jackson or Deschutes Counties or into neighboring California counties.
. For Rural Districts, the population cap would increase from 250,000 to 1 million people.
. Underserved areas would not require a branch to serve the entire community. The credit union's electronic services could serve those communities.

Again this proposal would make the process easier for Pacific Crest and other credit unions to serve additional members through a simplified Field of Membership approval process. The link is easy to use since the letter is already written. Just fill in your information and just click send.

Thank you for supporting your credit union.
