  - c. Changed "**Line of Credit Limit:** A line of credit limit is defined as a secured or unsecured maximum allowed borrowing amount with a corporate credit union, bank, Federal Home Loan Bank (FHLB), or another borrowing source. Report the total maximum allowed to be borrowed whether or not any amounts have been advanced against that limit. Typically, a line of credit may be borrowed against and paid down at any time without penalty." to "**Line of Credit Limit:** A line of credit limit is defined as a maximum allowed borrowing amount that specifically applies to a revolving loan (Line of Credit) with a corporate credit union, bank, Federal Home Loan Bank (FHLB), or another borrowing source. Typically, a line of credit is an overnight borrowing facility, with no specific maturity date, that may be borrowed against, paid down or called by the lender at any time without penalty. The "Line of Credit Limit" column is NOT total borrowing capacity associated with each borrowing source, rather just the borrowing capacity for this particular type of loan. Report the total maximum allowed to be borrowed under this revolving loan facility whether or not any amounts have been advanced against that limit. The reporting boxes under this column for Central Liquidity Facility and FRB are greyed out because neither of these entities offer a Line of Credit borrowing arrangement."

  - e. Changed "**Outstanding Term and Other Borrowings:** Report the outstanding term and other borrowing amounts for each borrowing source. Such borrowings have a specific final due date on which the credit union must pay back the specific loan amount in full. Such borrowing arrangements may or may not carry penalties for early pre-payment of the loan amount prior to the stated final maturity date." to

- "Outstanding Term and Other Borrowings:** Report the outstanding term and other borrowing amounts for each borrowing source. Such borrowings have a specific final due date on which the credit union must pay back the specific loan amount in full."
- f. Changed "**Assets Pledged to Secure All Outstanding Borrowings:** Report the total unpaid principal balance of assets pledged to secure borrowings, such as pledged loans and/or securities." to "**Assets Pledged to Secure All Outstanding Borrowings:** Report the total unpaid principal balance of assets pledged that is required to secure borrowings, such as loans and/or securities. If the credit union has no outstanding draws against lines of credit or outstanding term and other borrowings, do not report an amount in this column."
- g. Added "Example – A credit union has overnight borrowings of \$1,000,000 against a line of credit borrowing limit of \$2,000,000. The same credit union has a term borrowing arrangement and has borrowed \$5,000,000 against a blanket lien on assets identified in the blanket lien agreement of \$100,000,000. Report \$2,000,000 under the Line of Credit Limit column, \$1,000,000 under the Draws Against Line of Credit column, and \$5,000,000 under the Outstanding Term and Other Borrowings column. Enter the book value amount of pledged assets needed to secure both the \$5,000,000 term borrowings and the \$1,000,000 line of credit borrowed under Assets Pledged to Secure All Outstanding Borrowings column."

## OTHER ASSETS

### 18. FORECLOSED AND REPOSSESSED ASSETS

Report long-lived assets intended for sale and acquired through, or in lieu of, foreclosure or repossession (meaning the credit union has taken possession) in the applicable category (either Commercial, Consumer Real Estate, Consumer Vehicle, or Consumer Other).

#### At Foreclosure

Initially record the assets at fair value (less costs to sell) at the date of foreclosure or repossession. This fair value (less cost to sell) becomes the “cost”, or carrying amount, of the foreclosed or repossessed asset. The amount, if any, by which the recorded amount of the loan exceeds the fair value (less costs to sell) of the asset is a loss, which must be charged off to the allowance *at the time of the foreclosure or repossession*.

#### Subsequent to Foreclosure

Re-value the assets periodically to the lower of carrying amount or fair value (less costs to sell) through a separate valuation account, not the allowance. Changes in the valuation allowance are included in net expenses from foreclosed and repossessed assets.

If a repossessed or foreclosed long-lived asset is not *sold shortly* after it is received, any declines in value after foreclosure and any gain or loss from the sale or disposition of the asset shall *not* be reported as a loan loss or recovery and shall *not* be debited or credited to the ALLL. Adjustments to maintain held for sale foreclosed and repossessed assets at fair value, less costs to sell, should be reported as Miscellaneous Operating Expenses. Any gain or loss upon the disposition of fixed assets should be reported as Gain (Loss) on Disposition of Fixed Assets.

Regardless of the valuation, foreclosed and repossessed property the credit union intends to sell should be transferred to Foreclosed and Repossessed Property and reported on this line.

A Mortgage Servicing Asset is a contract to service loans under which the estimated “benefits of servicing” (revenues from contractually specified servicing fees, late charges, and other ancillary sources including “float”) are expected to more than adequately compensate the servicer for performing the servicing. A servicing contract is either (a) undertaken in conjunction with selling or securitizing the loan being serviced or (b) purchased or assumed separately. Not all servicing contracts result in a servicing asset.

**c. Other Intangible Assets (Account AS0032)**

Report the amount of other intangible assets. Include identifiable intangible assets obtained through a merger or other business combination.

An example of an Other Comprehensive Income item is other comprehensive income amounts related to single-employer defined benefit postretirement plans, such as a pension plan or health care plan.

---

A credit union that sponsors a single-employer defined benefit postretirement plan, such as a pension plan or health care plan, must recognize the funded status of each such plan on its balance sheet (an over-funded plan is recognized as an asset while an under-funded plan is recognized as a liability).

Initially, the postretirement plan amounts recognized on the credit union's balance sheet before applying the standard must be adjusted to recognize gains or losses, prior service costs or credits, and transition assets or obligations that have not yet been included in the net periodic benefit cost of its plans. These adjustment amounts are recognized directly in equity as components of other comprehensive income. Thereafter, a credit union must recognize certain gains and losses and prior service costs or credits that arise during each reporting period as a component of other comprehensive income (OCI).

Postretirement plan amounts carried in OCI are adjusted as they are subsequently recognized in earnings as components of the plan's net periodic benefit cost. Credit unions should consult their independent accountant for further guidance in applying this accounting standard.

---

These examples are not all inclusive. Items required by accounting standards to be reported as direct adjustments to paid-in capital, retained earnings, or other non-income equity accounts are **not** to be included as components of comprehensive income.

---

### *Schedule A, Section 1 – Loans & Leases*

---

Report the interest rate, number, and outstanding balance of loans and leases. If you have early adopted ASC Topic 326 – Financial Instruments, Credit Losses (CECL), report the interest rate, number, and amortized cost of loans and leases. The Number of Loans (Account 025A1) and Amount (Account 025B1) reported on Item 14 must equal the number (Account 025A) and Amount (Account 025B) reported on Page 2, Item 15.

Please complete Schedule A – Sections 2 through 8, if your credit union has any delinquent loans, loan losses, indirect loans, real estate loans, participation loans, commercial loans, member business loans, troubled debt restructured, or purchased credit impaired loans outstanding; or purchased or sold whole loans or parts of loans year-to-date; or if the credit union originated any real estate, commercial, or member business loans during the reporting period.

---

Loans should be reported in Schedule A without regard for the channel (direct or indirect, purchased or participation) used to obtain the loan. It is possible for a single loan to be reported in multiple sections of Schedule A.

---

- **Collateral Codes.** Report loans by collateral code. For example, if a new or used vehicle is secured by real estate (for example a home equity loan), include it with real estate loans. Report loans or groups of loans purchased in whole or in part and the portion of any loan participation that remains on the credit union's balance sheet according to the applicable collateral code.
- **Interest Rates.** Report loan interest rates being offered as of the reporting period for each loan category. Report the actual rate (report 6.5 for 6.5%). If more than one rate applies, report the most common rate in each loan category.
- **For each loan category, report only those loans that have an outstanding balance.** Report the outstanding balance adjusted for any unamortized premium or discount and for any unamortized loan fees or costs. Also, the outstanding balance should subtract any amount previously charged off.

---

Loan origination fees or costs are recognized over the life of the related loan as an adjustment of yield. Loan fees, certain direct loan origination costs, and purchase premiums and discounts on loans are recognized as an adjustment of yield, generally by the interest method, based on the contractual terms of the loan.

---

- **Loans as hedged items.** If loans are part of a hedge accounting designation, the carrying value of the respective loans should be adjusted in accordance with ASC Topic 815.
- **Loan purchases.** Report the number of whole or partial loans purchased under § 701.23 (if an FCU) or similar state provisions (if an SCU). Also, report the number of individual loans (whole or partial) in each group of loans purchased under § 701.23 (if an FCU) or similar state provisions (if an SCU). It is not necessary to report the number of groups.
- **Participation Loans.** Report the number of participation loans purchased under § 701.22 (if an FCU) or similar state provisions (if an SCU). Also, report the number of individual loans in each pool of loans purchased under § 701.22 (for FCU) or similar state provisions (if SCU). It is not necessary to report the number of pools.
  - **Do not report** purchased participation loans that do not qualify for true sales accounting under GAAP (for example, participation loans purchased with substantial recourse), as these loans will still be reflected on the seller's balance sheet. The purchasing credit union should report participations not qualifying for true sales accounting as Other Assets.
- **Commercial Loans.** Loans that would be considered commercial loans except for the loan amounts to associated borrowers being under \$50,000 should be reported as a consumer loan by definition and reported according to the underlying collateral.
- **Loan secured by more than one 1- to 4-family residential properties.** A single loan to a borrower or associated borrowers that is secured by more than one 1- to 4-family residential properties and the aggregate net member business loan balance or the outstanding balances plus unfunded commitments less any portion secured by shares in the credit union is equal to or greater than \$50,000, should be reported as a member business loan AND commercial loan except loans to non-members should only be reported as a commercial loan.

### 1. UNSECURED CREDIT CARD LOANS (ACCOUNTS 521, 993, AND 396)

Include the rate, number, and outstanding balance or amortized cost of credit card loans. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

Federal Credit Unions will report the interest rate, and aggregate number and dollar amount of all [PALs I](#) and [PALs II](#) loans granted under [§701.21\(c\)\(7\)\(iii\) and \(iv\)](#) of the NCUA regulations. Do not include these loans with All Other Unsecured Loans/Lines of Credit. State-Chartered credit unions will report similar loans with All Other Unsecured Loans/Lines of Credit.

---

NCUA amended its general lending rule to enable FCUs to offer short-term, small amount loans as a viable alternative to predatory

payday loans. This amendment permits FCUs to charge a higher interest rate for a PALs loan than is permitted under the general lending rule, but imposes limitations on the permissible term, amount, and fees associated with PALs I and II loans.

---

**3. NON-FEDERALLY GUARANTEED STUDENT LOANS (ACCOUNTS 595A, 963A, AND 698A)**

Report the rate, number, and dollar amount of non-federally guaranteed, or private, student loans. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

Typically, this includes signature loans. Include all Small Business Administration Paycheck Protection Program loans reported on lines 16.a.1 and 16.a.2 below. Also, report overdrawn share accounts of all types, other than commercial share accounts that qualify as a commercial loan, regardless of the existence of an overdraft protection program for share draft accounts. Overdrawn commercial share accounts that qualify as a commercial loan are reported in Accounts 526, 900P, and 400P. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

An indirect lease where the credit union is not the lessor is considered a leveraged lease and should be reported in the appropriate loan category.

**8. ALL OTHER SECURED NON-REAL ESTATE LOANS/LINES OF CREDIT (ACCOUNTS 595B, 963C, AND 698C)**

Include the rate, number, and dollar amount of all secured consumer loans secured by anything other than real estate and not reported elsewhere on the Loans & Leases section of the call report. This may include the following:

- fully share-secured loans;
- loans secured by ATVs, RVs, and boats;
- loans financing the disposal of non-real estate credit union property to nonmembers; and,
- secured commercial purpose loans which do not meet the definition of commercial loan per NCUA regulations §723.2 and are not secured by real estate. The common reason a commercial purpose loan would not qualify as a commercial loan is because the loans outstanding to associated borrowers are less than \$50,000.

Unfunded loan commitments must be reported in Schedule C, Section 1.

**9. LOANS/LINES OF CREDIT SECURED BY A FIRST LIEN ON A SINGLE 1- TO 4-FAMILY RESIDENTIAL PROPERTY. (ACCOUNTS 563A, 959A, AND 703A)**

**10. LOANS/LINES OF CREDIT SECURED BY A JUNIOR LIEN ON A SINGLE 1- TO 4-FAMILY RESIDENTIAL PROPERTY. (ACCOUNTS 562A, 960A, AND 386A)**

Residential property means a house, condominium unit, cooperative unit, manufactured home, or the construction thereof, and unimproved land zoned for one-to-four family residential use. Residential property excludes boats or motor

homes, even if used as a primary residence, or timeshare. Report lien position at the time of origination. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page. To be considered 1- to 4-family residential property the property secured by the loan must be considered real property within the jurisdiction of the collateral. - made by a federally insured credit union to a credit union service organization; (Reported on Schedule C Credit Union Service Organization Information)
- secured by a single 1- to 4-family residential property whether or not it is the borrower's primary residence; (Reported elsewhere on the Loans & Leases schedule as secured by a single 1- to 4-family residential property.)
- fully secured by shares in the credit union making the extension of credit or deposits in other financial institutions; (Reported as All Other Secured Non-Real Estate Loans/Lines of Credit on the Loans & Leases schedule)
- secured by a vehicle manufactured for household use; (Reported as new or used vehicle loans on the Loans & Leases schedule)

For number and amount granted or purchased year-to-date, include the total number and amount plus unfunded commitments at the time of purchase or origination. Lines of credit and credit card loans should only be counted as a new loan in the period they are granted or renewed, not each subsequent draw on the

open line of credit. Credit decisions to increase a line of credit should be treated as a new loan for the entire amount, not just the incremental increase.

**a. Payday Alternative Loans (PALs I and II) Granted Year-to-Date (also include amount in item 15) (Federal credit union ONLY) (Accounts 031C and 031D)**

Report the number and dollar amount of [PALs I and PALs II loans](#) granted year-to-date.

### ELIGIBLE LOAN MODIFICATIONS UNDER THE 2020 CARES ACT

Section 4013 of the CARES Act suspended the GAAP standards to eliminate the burden of tracking and reporting [Troubled Debt Restructured](#) (TDR) loans.

For a loan to be modified under § 4013 of the CARES Act, **all these requirements must be true:**

- The loan had to exist prior to December 31, 2019
- The loan could not be more than 30 days past due as of December 31, 2019
- The loan modification request must be made explicitly due to COVID-19 (illness, job loss, temporary shutdowns, etc.)
- The loan modification must have been executed between March 1, 2020, and the earlier of (A) 60 days after the date of termination of the national emergency concerning the COVID-19 outbreak declared by the President on March 13, 2020, under the National Emergencies Act or (B) January 1, 2022.

Additionally, § 4013 reporting is applicable for the term of the loan modification. Loan modifications include forbearance, an interest rate modification, and any other similar arrangement that defers or delays the payment of principal or interest. Once the term of a § 4013 eligible loan modification ends, credit unions should no longer report the loan in CV0001 and CV0002.

**Example of a § 4013 Loan Modification:** A credit union member's job site shuts down due to a COVID-19 outbreak and causes a financial hardship for the member. The member contacts the lending credit union and requests some type of forbearance or modification on a loan that existed prior to December 31, 2019 (and was not more than 30 days past due on December 31, 2019). At the credit union's discretion, they grant a § 4013 loan modification for the member. In normal economic times, this type of loan modification would have been reported as a TDR, but due to the CARES Act, these specific § 4013 loan modifications are not reported as TDRs. These § 4013 loan modifications are to be reported in CV0001 and CV0002.

**Types of Loans modified under § 4013 of the CARES Act:** Section 4013 CARES Act, can apply to any of the loans that make up Call Report Account 025B1\* shown below (except for PPP loans – which did not exist prior to 12/31/2019):

#### REPORTING DELINQUENT LOANS

Report the total outstanding loan balance and number of **all** delinquent loans and leases by collateral type on page 7, as applicable. All delinquent loans and leases include loans and leases reported by the credit union and serviced by outside processors (e.g., real estate, student loans, etc.) and loans held on the balance sheet of wholly-owned CUSOs.

- Do not include either:
  - 1) Loans already written down to fair value (where the difference between book value and fair value has been charged-off against the allowance) through a "decision to sell" and/or otherwise transferred to a "loans held for sale" classification; or
  - 2) Any loans for which the credit union has already obtained physical possession of the underlying collateral (automobiles, boats, real estate), regardless of whether formal foreclosure or repossession proceedings have been instituted against the borrower. The credit union should write-down such loans to the fair value of the collateral, less costs to sell. Property the credit union intends to sell should be transferred to "Foreclosed and Repossessed Assets."
- The [past due](#) status of purchased credit impaired loans acquired in business combinations, or otherwise purchased, should be determined in accordance with each loan's contractual repayment terms. However, the dollar amount reported in the appropriate delinquency category on page 7 should reflect the credit union's recorded investment value, as included in the Loans & Leases section of the Statement of Financial Condition.
- The [past due](#) status of troubled debt restructured (TDR) loans will be calculated consistent with loan contract terms, including amendments made to loan terms through a formal restructure. Credit unions may consider a partial payment equivalent to 90 percent or more of the contractual payment as a full payment when computing the past due status on "[consumer credit](#)."

---

Regulatory reporting of TDR loans is as defined in GAAP, and NCUA does not intend through this data collection to change the Financial Accounting Standards Board's (FASB's) definition of TDR in any way.

---

On page 7, include all TDRs that meet the GAAP criteria for TDR reporting, without the application of materiality threshold exclusions based on scoping or reporting policy elections of credit union preparers or their auditors.

#### PURCHASED CREDIT IMPAIRED LOANS (PCILS)

---

Only complete this section if your credit union has NOT adopted ASC Topic 326: Financial Instruments – Credit Losses (CECL)

---

Credit unions purchasing or acquiring loans meeting the [purchased credit impaired loans \(PCILs\)](#)<sup>[1]</sup> criteria must account for these loans in accordance with generally accepted accounting principles (GAAP). The determination of whether acquired loans meet the criteria is made at acquisition and on a loan-by-loan basis. After determining that certain acquired loans individually meet the criteria, the credit union may evaluate whether such loans have common risk characteristics, thus permitting the aggregation of such loans into one or more pools. See GAAP or consult your independent accountant for more information on pooling PCILs.

A credit union should include post-acquisition allowances on PCILs and pools of PCILs in the overall Allowance for Loan and Lease Losses (ALLL) it reports in Schedule A. At each reporting period, if it is probable, based on current information and events, that a credit union will be unable to collect all of the cash flows expected when the PCIL and the pools of PCILs were acquired (plus additional cash flows expected to be collected arising from changes in estimate after acquisition), the PCILs and the pools of PCILs should be considered impaired for purposes of establishing an allowance, as appropriate. Again, refer to GAAP or consult your independent accountant to understand impairment measurement and reporting.

Lines 4 through 7 are a subset of line 3; however, lines 4 through 7 do not need to add up to the amount reported on line 3 and a single loan could be reported on more than one line. ### *Schedule A, Section 8 – Commercial Lending*

---

#### SECTION 8 – COMMERCIAL LENDING

This section primarily includes information concerning commercial loans as defined by NCUA regulations §723.2. The Regulatory Reporting section of this schedule concerns Member Business Loans as defined by NCUA regulations § 723.8.

**Commercial loan** means any loan, line of credit, or letter of credit and any interest a credit union obtains in such loans made by another lender, to individuals, sole proprietorships, partnerships, corporations, or other business enterprises for commercial, industrial, agricultural, or professional purposes, but not for personal expenditure purposes.

Excluded from the commercial loan definition (See § 723.2) are loans:

- Made by a corporate credit union.
- Made by a federally insured credit union to another federally insured credit union.
- Made by a federally insured credit union to a credit union service organization.
- Secured by a single 1- to 4-family residential property (whether or not it is the borrower's primary residence).
  - a. Loan secured by a single 1- to 4-family residential property means a loan that, at origination, is secured wholly or substantially by a lien on a single 1- to 4-family residential property for which the lien is central to the extension of the credit; that is, the borrower would not have been extended credit in the same amount or on terms as favorable without the lien. A loan is wholly or substantially secured by a lien on a single 1- to 4-family residential property if the estimated value of the real estate collateral at origination (after deducting any senior liens held by others) is greater than 50 percent of the principal amount of the loan.
- Fully secured by shares in the credit union making the extension of credit or deposits in other financial institutions.
- Secured by a vehicle manufactured for household use.
  - a. Loan secured by a vehicle manufactured for household use means a loan that, at origination, is secured wholly or substantially by a lien on a new and used passenger car and other vehicle such as a minivan, sport-utility vehicle, pickup truck, and similar light truck or heavy-duty truck generally manufactured for personal, family, or household use and not used as a fleet vehicle or to carry fare-paying passengers, for which the lien is central to the extension of credit. A lien is central to the extension of credit if the borrower would not have been extended credit in the same amount or on terms as favorable without the lien. A loan is wholly or substantially secured by a lien on a vehicle manufactured for household use if the estimated value of the collateral at origination (after deducting

any senior liens held by others) is greater than 50 percent of the principal amount of the loan.

- b. A fleet vehicle is defined as any vehicle that is centrally controlled and necessary for the operation of the business. The vehicle’s use is for the purpose of transporting persons or property for commission or hire, moving material, or used in the delivery of goods and services.
- c. In some circumstances a member may purchase a vehicle primarily for personal use and use it only for a portion of the time to generate rideshare revenue. It is incumbent upon the lending credit union to determine the intended use of a financed vehicle and the borrower’s level of dependence on ride-share revenue to repay the loan. For example, if more than 50 percent of the repayment source will come from rideshare activity and the loan or associated borrower relationship exceeds \$50,000, the vehicle loan should be treated as a commercial loan and underwritten accordingly.
  - Otherwise meeting the definition of commercial loan and which, when the aggregate outstanding balances plus unfunded commitments less portions secured by shares in the credit union to a borrower or associated borrower, are equal to less than \$50,000.

The definition of commercial loan also excludes covered loans issued under the Small Business Administration's Paycheck Protection Program, 15 U.S.C. 636(a)(36).

**Member business loan** (See § 723.8(b)) means any commercial loan as defined in § 723.2, except that the following commercial loans are not member business loans and are not counted toward the aggregate limit on a federally insured credit union's member business loans:

1. Any loan in which a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase the loan in full; and
2. Any non-member commercial loan or non-member participation interest in a commercial loan made by another lender, provided the federally insured credit union acquired the non-member loans and participation interests in compliance with all relevant laws and regulations and it is not, in conjunction with one or more other credit unions, trading member business loans to circumvent the aggregate limit.
3. Any loan that is fully secured by a lien on a single 1- to 4-family dwelling.

The following table relates to commercial or member business loans as those terms are defined above:

Type of Loan	Member Business Loan	Commercial Loan
Loan secured by a single 1- to 4-family residential property (whether or not secured by a member’s primary residence)	No	No

<b>Type of Loan</b>	<b>Member Business Loan</b>	<b>Commercial Loan</b>
Loan secured by more than one 1- to 4-family residential properties	Yes	Yes
Business loan secured by a vehicle manufactured for household use	Yes	No
Business loan secured by a vehicle used in a fleet or to carry fare-paying passengers	Yes	Yes
Business loan with aggregate net member business loan balance less than \$50,000	No	No
Business loan fully secured by shares in the credit union making the extension of credit or deposits in other financial institutions	No	No
Business loan in which a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase the loan in full	No	Yes (Except PPP loans)
Non-member business loan or non-member participation interest in a commercial loan made by another lender	No	Yes

**Commercial Loan Definition Examples**

A member has \$35,000 in commercial purpose loans and the credit union grants this member an additional \$40,000 in a commercial purpose line of credit. This additional loan meets the definition of a commercial loan at origination regardless of whether or not the line is drawn on. However, the credit union should only report this additional loan as a commercial loan on the call report page 16, lines 1 and 2, if it does not have a zero balance at the end of the reporting period.

In this example, the same member subsequently paid down the \$35,000 commercial purpose loan to \$15,000 and has a \$34,000 balance on the business line of credit, making the total outstanding balance \$49,000. The aggregate outstanding balance plus unfunded commitments less any portion secured by shares in the credit union or other financial institutions is still \$55,000. The credit union is still required to list the business line of credit as a commercial loan.

If, in the case above, the member subsequently pays down the \$35,000 commercial purpose loan to \$15,000 and **the credit union reduces the line of credit** to \$34,000. The aggregate outstanding balance plus unfunded commitments less any portion secured by shares in the credit union or other financial institutions is \$49,000. The credit union will not list either of these loans as commercial loans.

If, in the case above, the member subsequently pays down the \$35,000 commercial purpose loan to \$15,000 and makes no change to the \$40,000 business line of credit, but **adds \$6,000 to a secured share account at the credit union**. The aggregate outstanding balance plus unfunded commitments less any portion secured by shares in the credit union or other financial institutions is \$49,000. The credit union will not list either of these loans as commercial loans.

These examples pertain to reporting of commercial loans as defined by §723.2 on lines 1 & 2 of this schedule.

#### 1. COMMERCIAL LOANS

For commercial loans to a member and participations in commercial loans to a member that qualify for true sales accounting, report the total number, outstanding balance, number of loans granted or purchased year-to-date, and amount granted or purchased year-to-date on lines a through k.

- For number of loans, report the number of commercial loans with an outstanding balance greater than zero as of the reporting period.
- For outstanding balance, report the commercial loan amount in each category excluding unfunded commitments.
- For number and amount granted or purchased year-to-date, include the total number and amount plus unfunded commitments at the time of purchase or origination. Lines of credit and credit card loans should only be counted as a new loan in the period they are granted or renewed, not each subsequent draw on the open line of credit. Credit decisions to increase a line of credit should be treated as a new loan for the entire amount, not just the incremental increase.
- For loans held for sale, report the number and amount of loans granted or purchased year-to-date.

##### a. Construction and Development Loans (Accounts 143A3, 143B3, 143C3, and 143D3)

## REGULATORY REPORTING – PART 723 – MEMBER BUSINESS LOANS

### 8. NET MEMBER BUSINESS LOAN BALANCE (NMBLB) (ACCOUNT 400A)

Report the net member business loan balance (NMBLB) as defined in §723.8(e) on this line. The NMBLB is used to determine compliance with statutory limits on the aggregate amount of member business loans that may be held by a federally insured credit union.

A federally insured credit union's NMBLB is determined by calculating the outstanding member business loan balance **plus any unfunded commitments** reduced by any portion of the loan that is:

- secured by shares in the credit union, or by shares or deposits in other financial institutions, or
- insured or guaranteed by any agency of the federal government, a state or any political subdivision of such state, or
- subject to an advance commitment to purchase by any agency of the Federal Government, a state or any political subdivision of such state, or
- sold as a participation interest without recourse and qualifying for true sales accounting under generally accepted accounting principles.

Examples for reporting Business Loans on line 8.

If a member has \$35,000 in business purpose loans and the credit union grants this member another business purpose loan for \$40,000, the credit union should report the additional \$40,000 as a Member Business Loan.

If, in the case above, the member subsequently pays down the loans, making the aggregate total business purpose loans less than \$50,000, the credit union is not required to list any of these loans as Member Business Loans since the new aggregate loan total is now below the \$50,000 threshold in §723.8(c) of NCUA's regulations.

### *Schedule C, Section 1 and Section 2*

---

#### SECTION 1 – UNFUNDED COMMITMENTS

##### 1. UNFUNDED COMMITMENTS FOR COMMERCIAL LOANS (ACCOUNT 814K)

Report the portion of the Commercial Loan Balances from **Schedule A, Section 8 – Commercial Lending** that represent unfunded commitments.

##### 2. UNFUNDED COMMITMENTS FOR ALL REMAINING LOANS (NON-COMMERCIAL LOANS)

###### a. Revolving Open-End Lines Secured by 1- to 4-Family Residential Properties (Account 811D)

Report the unfunded portions of commitments to extend credit under revolving, open-end lines of credit secured by 1- to 4-family residential properties. These lines, commonly known as home equity lines, are typically secured by a junior lien and are usually accessible by check or credit card.

###### b. Credit Card Lines (Account 812C)

Report the unfunded portions of commitments to extend credit to individuals for household, family, and other personal expenditures through credit cards. Credit unions may report unfunded credit card lines as of the end of their members' last monthly billing cycle prior to the report date or as of the report date.

###### c. Unsecured Share Draft Lines of Credit (Account 815C)

Report the amount of unfunded lines of credit available that can be accessed through use of a personal check.

###### d. Unused Overdraft Protection Program (Account 822C)

Report the amount of unused overdraft protection program commitments. Overdraft protection programs are marketed to members as short-term credit facilities and typically provide members with an express overdraft "limit" that applies to their accounts. Unlike share draft lines of credit, overdraft protection programs do not trigger Regulation Z disclosures.

###### e. Other Unfunded Commitments (Account 816B5)

Report the unfunded portions of all other commitments not reported on lines 2a – d.

###### f. Total Unfunded Commitments for Non-Commercial Loans (Account 816T)

This line does not require input and will automatically populate when the Call Report is submitted with the sum of items 2a through 2e.

##### 3. TOTAL UNFUNDED COMMITMENTS FOR ALL LOAN TYPES (ACCOUNT 816A)

This line does not require input and will automatically populate when the Call Report is submitted with the sum of items 1 and 2f.

## SECTION 2 – OFF-BALANCE SHEET EXPOSURES

Credit unions with more than \$500 million in Total Assets must complete this section.

### 1. TOTAL UNCONDITIONALLY CANCELABLE UNFUNDED COMMITMENTS FOR ALL LOAN TYPES (ACCOUNT LQ0013)

Report the total amount of unfunded commitments that are unconditionally cancelable. An unconditionally cancelable commitment means a commitment that a credit union may, at any time, with or without cause, refuse to extend credit under (to the extent permitted under applicable law). The contractual agreement must explicitly state that the credit union can unconditionally refuse to extend credit under the commitment. A provision stating the credit union can cancel the commitment for good cause would be insufficient.

### 2. CONDITIONALLY CANCELABLE UNFUNDED COMMITMENTS

Report the amount of conditionally cancelable commitments (commitments that do not meet the definition of unconditionally cancelable) in the appropriate account:

- a. Commercial Loans (Account LQ0014)
- b. Consumer Loans - Secured and Real Estate (Account LQ0015)
- c. Consumer Loans – Unsecured (Account LQ0016)
- d. Total Conditionally Cancelable Unfunded Commitments (Account LQ0017)

This line does not require input and will automatically populate when the Call Report is submitted with the sum of items 2a through 2c.

### 3. LOANS TRANSFERRED WITH LIMITED RECOURSE OR OTHER SELLER-PROVIDED CREDIT ENHANCEMENTS (NET OF ANY RELATED VALUATION ALLOWANCE)

Report the exposure amount for loans transferred with limited recourse in the appropriate account. The exposure amount is the maximum contractual amount the credit union is exposed to according to the agreement, net of any related valuation allowance.

- a. Commercial Loans (Account LQ0018)
- b. Consumer Loans (Account LQ0019)
- c. Total Loans Transferred with Limited Recourse (LQ0020)

This line does not require input and will automatically populate when the Call Report is submitted with the sum of items 3a through 3b.

### 4. LOANS TRANSFERRED UNDER THE FHLB MPF PROGRAM (ACCOUNT LQ0021)

Report the exposure amount for loans transferred under the Federal Home Loan Bank (FHLB) mortgage partnership finance program, the outstanding loan balance as of the reporting date, net of any related valuation allowance. MPF program means a Federal Home Loan Bank program through which loans are originated by a depository institution that are purchased or funded by the Federal Home Loan Banks, where the depository institution receives fees for managing the credit risk of

the loans. The credit risk must be shared between the depository institution and the Federal Home Loan Banks.

**5. FINANCIAL STANDBY LETTERS OF CREDIT (ACCOUNT LQ0022)**

Report the total potential exposure of the credit union under the contractual agreement.

**6. FORWARD AGREEMENTS THAT ARE NOT DERIVATIVE CONTRACTS (ACCOUNT LQ0023)**

Report the future contractual obligation amount for forward agreements that are not a derivative contract. A forward agreement would mean a legally binding contractual obligation to purchase assets with certain drawdown at a specified future date, not including commitments to make residential mortgage loans or forward foreign exchange contracts.

Typical mortgage lending activities such as forward loan delivery commitments between credit unions and investors are typically derivative contracts, and therefore, would be excluded from the off-balance sheet exposure definition.

Put and call options on mortgage-backed securities are also typically derivatives and would be excluded from the definition of off-balance sheet exposure. A contractual obligation for the future purchase of a “to be announced” (that is, when-issued) mortgage securities contract that does not meet the definition of a derivative contract, however, would be captured by the off-balance sheet exposure definition as it would be considered a forward agreement. In contrast, a contractual obligation for the future sale (rather than purchase) of a “to be announced” mortgage securities contract that does not meet the definition of a derivative contract would not be captured in the off-balance sheet qualifying criterion, as it would not be considered a forward agreement.

**7. SOLD CREDIT PROTECTION**

The exposure amount for sold credit protection through guarantees and credit derivatives would be the total potential exposure of the credit union under the contractual agreement.

**a. Guarantees (Account LQ0024)**

Report the credit union’s total potential exposure amount under guarantee contracts. A guarantee means a financial guarantee, letter of credit, insurance, or similar financial instrument that allows one party to transfer the credit risk of one or more specific exposures to another party

**b. Credit Derivatives (Account LQ0025)**

Report the credit union’s total potential exposure amount under credit derivative contracts. A credit derivative means a financial contract executed under standard industry credit derivative documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure[s]) to another party (the protection provider) for a certain period of time. At this time, FCUs are not permitted to have credit derivatives.

**c. Total Sold Credit Protection (Account LQ0026)**

This line does not require input and will automatically populate when the Call Report is submitted with the sum of items 8a through 8b.

**8. OFF-BALANCE-SHEET SECURITIZATION EXPOSURES (ACCOUNT LQ0027)**

Report the notional amount of the exposure - including any credit enhancements, representations, or warranties that obligate a credit union to protect another party from losses arising from the credit risk of the underlying exposures that arises from a securitization. For example, if an originating credit union provides liquidity or credit support for an issued securitization, the credit union may report an off-balance sheet securitization exposure. The exposure amount of an off-balance sheet securitization exposure would be the notional amount of the exposure.

**9. SECURITIES BORROWING OR LENDING TRANSACTIONS (ACCOUNT LQ0028)**

Report for securities borrowing or lending transactions, the amount of all securities borrowed or lent against collateral or on an uncollateralized basis. Securities borrowing means borrowing a security from a counterparty, either directly or through an agent. Securities lending means lending a security to a counterparty, either directly or through an agent, and accepting collateral in return. Securities borrowing and lending activities are done for a fee and not to pledge as collateral for a loan.

**10. OFF-BALANCE SHEET EXPOSURE OF REPURCHASE TRANSACTIONS (ACCOUNT LQ0029)**

Report the off-balance sheet exposure amount for a repurchase transaction. This equals all of the positions the credit union has sold or bought subject to repurchase or resale, which equals the sum of the current fair values of all such positions.

Repurchase transactions mean either a transaction in which a credit union agrees to sell a security to a counterparty and to repurchase the same or an identical security from that counterparty at a specified future date and at a specified price or a transaction in which an investor agrees to purchase a security from a counterparty and to resell the same or an identical security to that counterparty at a specified future date and at a specified price.

**11. ALL OTHER OFF-BALANCE SHEET EXPOSURES NOT INCLUDED ABOVE, BUT MEET THE DEFINITION OF COMMITMENTS (ACCOUNT LQ0030)**

Report all other off-balance sheet exposures not included above that meet the definition of commitments. A commitment includes any legally binding arrangement that obligates the credit union to extend credit, purchase or sell assets, enter into a borrowing agreement, or enter into a financial transaction.

#### SECTION 3 – CONTINGENT LIABILITIES

##### 1. OTHER CONTINGENT LIABILITIES (ACCOUNT 818A)

Report the aggregate amount of any other outstanding contingent liabilities. This may include post-retirement packages and management contracts.

#### SECTION 4 – BORROWING ARRANGEMENTS

##### 1. BORROWING ARRANGEMENTS

For each borrowing source in lines 1a through 1f report under the following columns:

- **Line of Credit Limit:** A line of credit limit is defined as a maximum allowed borrowing amount that specifically applies to a revolving loan (Line of Credit) with a corporate credit union, bank, Federal Home Loan Bank (FHLB), or another borrowing source. Typically, a line of credit is an overnight borrowing facility, with no specific maturity date, that may be borrowed against, paid down or called by the lender at any time without penalty. The "Line of Credit Limit" column is NOT total borrowing capacity associated with each borrowing source, rather just the borrowing capacity for this particular type of loan. Report the total maximum allowed to be borrowed under this revolving loan facility whether or not any amounts have been advanced against that limit. The reporting boxes under this column for Central Liquidity Facility and FRB are greyed out because neither of these entities offer a Line of Credit borrowing arrangement.
- **Draws Against Line of Credit:** Report the current outstanding principal balance of advances drawn against the line of credit borrowing arrangements for each borrowing source. The reporting boxes under this column for Central Liquidity Facility and FRB are greyed out because neither of these entities offer a Line of Credit borrowing arrangement.
- **Outstanding Term and Other Borrowings:** Report the outstanding term and other borrowing amounts for each borrowing source. Such borrowings have a specific final due date on which the credit union must pay back the specific loan amount in full.
- **Assets Pledged to Secure All Outstanding Borrowings:** Report the total unpaid principal balance of assets pledged that is required to secure borrowings, such as loans and/or securities. If the credit union has no outstanding draws against lines of credit or outstanding term and other borrowings, do not report an amount in this column.

---

Example – A credit union has overnight borrowings of \$1,000,000 against a line of credit borrowing limit of \$2,000,000. The same credit union has a term borrowing arrangement and has borrowed \$5,000,000 against a blanket lien on assets identified in the blanket lien agreement of \$100,000,000. Report \$2,000,000 under the Line of Credit Limit column, \$1,000,000 under the Draws Against Line of Credit column, and \$5,000,000 under the Outstanding Term and Other Borrowings column. Enter the book value amount of pledged assets needed to secure both the \$5,000,000 term borrowings and the \$1,000,000 line of credit borrowed under Assets Pledged to Secure All Outstanding Borrowings column.

Report additional information on the shares and deposits reported above:

**10. ACCOUNTS HELD BY MEMBER PUBLIC UNITS (ACCOUNT 631)**

Please see [§745.1\(c\)](#) of the NCUA's regulations for the definition of Public Unit. **11. ACCOUNTS HELD BY NONMEMBER PUBLIC UNITS (ACCOUNT 632)**

The accounts are insured up to the SMSIA. Public Units are eligible for regular shares, share drafts, and share certificates. **13. DOLLAR AMOUNT OF SHARE CERTIFICATES EQUAL TO OR GREATER THAN \$100,000 (ACCOUNT 638)**

(Excluding brokered share certificates participated out by the broker in shares of less than \$100,000).

Report the total amount of individual share certificates equal to or greater than \$100,000. For example, a member has two share certificate accounts with individual balances of \$80,000 and \$120,000 that add to an aggregate balance of \$200,000. The Federal Reserve has directed the NCUA to have credit unions list only the individual balances equal to or greater than \$100,000. In this example, the credit union would report \$120,000.

Do not include IRA share certificates and brokered share certificates participated out by a broker in shares of less than \$100,000. This information enables the Federal Reserve to construct M2 (the study of total money supply) accurately.

**14. DOLLAR AMOUNT OF IRA/KEOGH ACCOUNTS EQUAL TO OR GREATER THAN \$100,000 (ACCOUNT 639)**

Report the total amount for individual IRA/Keogh Accounts equal to or greater than \$100,000 only. For example, a member has two IRA/ Keogh accounts with individual balances of \$80,000 and \$120,000 that add to an aggregate balance of \$200,000. The Federal Reserve has directed the NCUA to have credit unions report only the individual balances equal to or greater than \$100,000; so, in this case, the credit union would report \$120,000. This information enables the Federal Reserve to construct M2 (the study of total money supply) accurately.

**15. DOLLAR AMOUNT OF SHARE DRAFTS SWEEP TO REGULAR SHARES OR MONEY MARKET ACCOUNTS AS PART OF A SWEEP PROGRAM (ACCOUNT 641)**

Report the dollar amount the credit union actually transferred from transaction accounts to nontransaction accounts to qualify the credit union as having a legitimate sweep program with the Federal Reserve.

**Deposit Account Sweeps Affecting Transaction and Nontransaction**

**Accounts:** Some credit unions have established “retail sweep arrangements” or “retail sweep programs.” In a retail sweep arrangement, a credit union transfers funds between member’s transaction account(s) and that member’s nontransaction account(s) (usually regular share savings account(s)) by means of preauthorized or automatic transfers. The Call Report should reflect the position of the swept funds at the end of the reporting period. **The amount reported should match the reported amount on the Federal Reserve form FR 2900 for the quarter-end day.**

There are two key criteria for retail sweep programs to comply with the [Federal Reserve Regulation D](#) definitions of “transaction account” and “savings deposit:”

1. A depository institution must establish by agreement with its transaction account member two legally separate accounts: a transaction account (such as a share draft account) and a share savings deposit account, including those sometimes called a “money market deposit account;”

2. The swept funds must actually be moved from the member’s transaction account to the member’s share savings deposit account on the official books and records of the credit union as of the close of business on the day(s) on which the depository institution intends to report the funds in question as share savings deposits and not transaction accounts, and vice versa. In addition to actually moving the member’s funds between accounts and reflecting this movement at the account level:
- a) If the credit union’s general ledger is sufficiently disaggregated to distinguish between transaction and savings deposit accounts, the aforementioned movement of funds between the member’s transaction account and share savings deposit account must be reflected on the general ledger.
  - b) If the credit union’s general ledger is not sufficiently disaggregated, the distinction may be reflected in supplemental records or systems, but only if such supplemental records or systems constitute official books and records of the institution and are subject to the same prudent managerial oversight and controls as the general ledger.

If either of these criteria is not met, all swept funds must continue to be reported as transaction accounts, both for purposes of the Call Report and of [FR 2900](#) deposit reports. Both criteria must be met in order to report the nontransaction account component of a retail sweep program as a nonreservable share savings deposit account.

A retail sweep program may not exist solely in records or on systems that do not constitute official books and records of the depository credit union and that are not used for any purpose other than generating its Report of Transaction Accounts, Other Deposits and Vault Cash (FR 2900) for submission to the Federal Reserve.

**16. DOLLAR AMOUNT OF COMMERCIAL SHARE ACCOUNTS (ACCOUNT 643)**

Report the total dollar amount of commercial deposit accounts. Organizations (corporations, partnerships, associations, charities, clubs) and sole proprietorships may open accounts using a Taxpayer Identification Number (TIN), assumed name, trade name, or “Doing Business As” (DBA) name. **Do not include trust accounts.**

**17. NEGATIVE SHARES INCLUDED IN ALL OTHER UNSECURED LOANS/LINES OF CREDIT ON PAGE 6 (ACCOUNT 644)**

Report the dollar amount of share accounts with negative balances included in all other unsecured loans/lines of credit (Account 397).

**SECTION 3 - NCUA INSURED SAVINGS COMPUTATION**

Insured shares and deposits as described in Part 745 of the NCUA regulations, are authorized by state law and issued to members (or nonmembers in the case of low-income designated credit union), other credit unions, or government depositors. Report uninsured shares in this section. Do not include notes payable or other forms of borrowings. Eligible accounts are generally insured up to \$250,000 each.

**1. UNINSURED MEMBER SHARES AND DEPOSITS (ACCOUNT 065A4)**

Report the total amount of uninsured member shares and deposits.

**2. UNINSURED NONMEMBER SHARES AND DEPOSITS (ACCOUNT 067A2)**

Report the total amount of uninsured nonmember shares and deposits.

**3. TOTAL UNINSURED SHARES AND DEPOSITS (ACCOUNT 068A)**

This line does not require input and will automatically populate when the Call Report is submitted with the sum of Accounts 065A4 and 067A2.

**4. TOTAL INSURED SHARES AND DEPOSITS (ACCOUNT 069A)**

This line does not require input and will automatically populate when the Call Report is submitted with the sum of Accounts 018 less Account 068A. The National Credit Union Share Insurance Fund deposit calculation is based on this amount.

**ADDITIONAL SHARE INSURANCE**

**5. DOES YOUR CREDIT UNION MAINTAIN SHARE/DEPOSIT INSURANCE OTHER THAN THE NCUSIF (ACCOUNT 875)**

If your credit union has share and/or deposit insurance coverage in addition to or in lieu of the coverage provided by the National Credit Union Share Insurance Fund, answer this question “yes” and answer items a and b.

- DO NOT include Life Savings and Borrowers’ Protection Insurance.
- DO NOT include Surety Bond Coverage.

**a. Name of the insurance company (Account 876)**

If you answered yes to question 24 above, provide the name of the insuring company.

**b. Dollar amount of shares and/or deposits insured by the company named above (Account 877)**

- B. Transfers that would qualify as remittance transfers under subpart B of Regulation E (12 CFR § 1005.30(e)) but that are excluded from that

definition only because the credit union is not providing those transfers in the normal course of its business.

A "remittance transfer provider" is any person that provides remittance transfers for a consumer in the normal course of its business, regardless of whether the consumer holds an account with such person. See 12 CFR § 1005.30(f) and related commentary for the full definition and examples.

## SECTION 5 – CREDIT UNION SERVICE ORGANIZATION (CUSO)

Report the aggregate total of financial interests the credit union has in all CUSOs, regardless of whether your credit union wholly owns the CUSO, has a "controlling financial interest," has the "ability to exert significant influence" or owns only a smaller portion of the CUSO.

Answer the following questions for each group of CUSOs (aggregate) in which you have a loan or an investment:

### ACCOUNTING ISSUES

- A. If your credit union wholly-owns the CUSO or owns a "controlling financial interest" (assumed at ownership of 50% or more of the voting stock), the CUSO's books and records should be consolidated with your credit union's books and records (as if the two were one entity) for reporting on the Statement of Financial Condition and Statement of Income and Expense of the call report.
- B. If your credit union has "ability to exert significant influence" over operations of the CUSO (assumed at ownership of 20% or more but less than 50% of the voting stock of the CUSO), the credit union's investment in the CUSO should be reflected in its books and records using the equity method of accounting.
- C. **If your credit union owns less than 20% of the voting stock of the CUSO**, the credit union should account for its CUSO investment using the cost method of accounting.

### AGGREGATE OF FINANCIAL INTERESTS THE CREDIT UNION HAS IN CUSOs

#### 1. TOTAL VALUE OF INVESTMENTS IN CUSOs (ACCOUNT 851)

Report the amount that represents the unimpaired value of the credit union's *aggregate CUSO investments* as measured under generally accepted accounting principles on an unconsolidated basis. The amount reported should be measured either under:

- The equity method (ownership of 20% or more voting common stock).

#### 2. TOTAL AMOUNT LOANED TO CUSOs (ACCOUNT 852)

Report the amount of *aggregate outstanding loan balance(s)*, available line(s) of credit from the credit union, and/or guarantee(s) the credit union has made to or on behalf of the applicable CUSOs.

- **Sellers of Prepaid Access:** Any person or organization that receives funds or the value of funds in exchange for an initial loading or subsequent loading of value onto prepaid devices. Different thresholds apply to prepaid access.

Additionally, open loop prepaid access that does not exceed \$1,000 maximum value on any day, or prepaid access solely to employment benefits, incentives, wages or salaries (“payroll”), are also excluded as prepaid programs under 31 CFR 1010.100(ff)(4)(iii), so long as the prepaid access cannot: (1) Be used

internationally; (2) Allow transfers of value from person to person within the arrangement; or (3) Be reloaded from a non-depository source. If any one of these features is part of the arrangement, the program will be covered as a prepaid program under the regulation.

---

The information reported on Schedule E is not publicly available consistent with 5 U.S.C. § 552(b)(8), which specifically exempts from disclosure information “contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions.”

This worksheet provides a means of measuring the net worth ratio on line 13. All credit unions **must** determine their net worth category at the end of each calendar quarter by measuring their net worth ratio. (See NCUA regulations [§702.101](#).)

Information entered on preceding schedules will populate items below in CUOnline, excluding items 6a – 6d and optional items 9, 10, and 11.

List any applicable adjustments, such as additional business combinations with another credit union. This provision does not extend to a credit union that acquires a bank through merger.

If the credit union decides to use one of these Total Assets Elections, it must input this amount in Account 010A, 010B, or 010C, as appropriate, after deducting the amount of Small Business Administration Paycheck Protection Program loans pledged as collateral to the Federal Reserve Board's Paycheck Protection Program Lending Facility. Otherwise, the PCA Net Worth Calculation Worksheet will compute the credit union's net worth ratio and resulting net worth classification using assets from Account NW0010. ### NET WORTH CLASSIFICATION

The credit union's net worth classification will be determined based on the computed net worth ratio. Report the one-time initial adjustment to undivided earnings resulting from the adoption of ASC Topic 326 – Financial Instruments – Credit Losses (CECL). Report the amount every quarter after CECL adoption.

At adoption of ASC Topic 326, credit unions will record the initial adjusting entry to the undivided earnings account. For example, after calculating the required balance in the Allowance for Credit Losses under ASC Topic 326 Credit Union A determines the Allowance will need to increase from the current Allowance for Loans & Lease Losses balance of \$100,000 to an Allowance for Credit Losses on Loans & Leases balance of \$107,000. The initial adjusting entry will be a debit to Undivided Earnings of \$7,000 and a credit to Allowance for Credit Losses on Loans & Leases of \$7,000 and Credit Union A will report \$7,000 in Account NW0002.

After calculating the required balance in the Allowance for Credit Losses under ASC Topic 326, Credit Union B determines that the Allowance will need to decrease from the current Allowance for Loan & Lease Losses balance of \$200,000 to an Allowance for Credit Losses on Loans & Leases balance of \$150,000. The initial adjusting entry will be a debit to Allowance for Credit Losses on Loans & Leases of \$50,000 and a credit to Undivided Earnings of \$50,000 and Credit Union B will report —\$50,000 in Account NW0002.

### ***Schedule H – Complex Credit Union Leverage Ratio Calculation***

Schedule H collects information necessary to determine a complex credit union’s election, eligibility, and qualifying criteria for the complex credit union leverage ratio (CCULR) framework described in §702.104(d).

---

All federally insured credit unions over \$500 million in assets may opt into the CCULR framework if they meet the eligibility and qualifying criteria on this form.

---

Complex credit unions that do not opt into or qualify for the CCULR framework must complete Schedule I for the Risk-Based Capital (RBC) ratio calculation.

**Table 1. CCULR Scenarios for Line Items 1 and 2**

<b>Scenario</b>	<b>Description</b>	<b>Line Item 1 Entry</b>	<b>Line Item 2 Entry</b>
1	If the credit union’s Total Assets in Account 010 are \$500 million or less, no further action is required. Credit union is not required to calculate RBC or CCULR; standard Net Worth Ratio applies.	Blank	Blank
2	If the credit union is eligible and meets the Qualifying Criteria, the credit union may opt into the CCULR framework.	Yes	No
3	If the credit union opted into the CCULR framework under scenario 2 in the previous quarter and continues to be eligible (total assets greater than \$500 million), but fails to meet one of the Qualifying Criteria (lines 4 through 7), the credit union may continue to opt into the CCULR framework under the first quarter of the grace period provision.	Yes	Yes
4	If the credit union opted into the CCULR framework under scenario 3 in the previous quarter and continues to be eligible (total assets greater than \$500 million), but continues to fail to meet one of the Qualifying Criteria (lines 4 through 7), the credit union may continue to opt into the CCULR framework under the second and final quarter of the grace period provision.	Yes	Yes

Scenario	Description	Line Item 1 Entry	Line Item 2 Entry
5	If the credit union opted into the CCULR framework under Scenario 4 in the previous quarter, and continues to be eligible (assets greater than \$500 million), but continues to fail to meet the Qualifying Criteria (lines 4 through 7), the credit union may not continue to opt into the CCULR framework as the grace period provision has expired. The credit union must complete the RBC schedule.	No	Blank
6	If a credit union is eligible and Qualifying Criteria are met but the credit union elects to opt out of the CCULR framework for the current quarter, the credit union must complete the RBC schedule.	No	Blank

### ELECTION

**1. DOES YOUR CREDIT UNION HAVE A CCULR FRAMEWORK ELECTION IN EFFECT AS OF THE QUARTER-END REPORT DATE? (ACCOUNT LR0001)**

If Total Assets in Account 010 are \$500,000,000 or less, no entry is required. Do not complete this schedule. If Total Assets in Account 010 are greater than \$500,000,000, you may opt into the CCULR framework. See the scenarios described in Table 1 for guidance.

Complex credit unions that do not opt into or qualify for the CCULR framework, will select "No", and must complete Schedule I for the RBC ratio calculation.

**2. IF 'YES' TO QUESTION 1, IS YOUR CREDIT UNION CONTINUING TO ELECT THE CCULR FRAMEWORK UNDER THE GRACE PERIOD? (ACCOUNT LR0008)**

If electing the CCULR framework under the grace period, select "Yes". See the scenarios described in Table 1 for guidance.

### ELIGIBILITY

**3. TOTAL ASSETS (CREDIT UNIONS WITH TOTAL ASSETS GREATER THAN \$500,000,000) (ACCOUNT 010)**

This field is auto-populated with the amount reported in Account 010.

### QUALIFYING CRITERIA (SEE INSTRUCTIONS)

**4. CCULR (NET WORTH RATIO) (CREDIT UNIONS WITH A NET WORTH RATIO OF 9% OR GREATER) (ACCOUNT 998)**

This field is auto-populated with the amount reported in Account 998.

If a credit union's CCULR is less than 9% for the current reporting period after initially opting into the CCULR framework and meeting all the qualifications

previously, then the credit union is subject to the provisions of the grace period. See scenarios 3 thru 5 in Table 1. If a credit union's CCULR falls below 7%, it may continue to opt into the CCULR framework within the grace period, but it is not considered to have met the capital ratio requirements to be classified Well Capitalized (see §702.102 [Capital classification](#)) and its capital classification is determined by its net worth ratio. The credit union is also subject to any applicable prompt corrective action requirements for its capital category.

**5. OFF-BALANCE SHEET EXPOSURES (REQUIRES 25% OR LESS OF TOTAL ASSETS) (ACCOUNTS LR0002 AND LR0003)**

The Input account (LR0002), is auto-populated with the aggregate amount of off-balance sheet exposures reported in Accounts LQ0017, LQ0020, LQ0021, LQ0022, LQ0023, LQ0026, LQ0027, AND LQ0028. The Ratio account (LR0003) is auto-calculated as the Input account (LR0002) divided by Total Assets (010).

**6. TRADING ASSETS AND TRADING LIABILITIES ( REQUIRES 5% OR LESS OF TOTAL ASSETS) (ACCOUNTS LR0004 AND LR0005)**

For the Input account (LR0004), report total trading assets and trading liabilities. The Ratio account (LR0005) is auto-calculated as the Input account (LR0004) divided by Total Assets (010).

**7. GOODWILL AND OTHER INTANGIBLE ASSETS (REQUIRES 2% OR LESS OF TOTAL ASSETS) (ACCOUNT LR0006 AND LR0007)**

For the Input account (LR0006), report the sum of goodwill and other intangible assets. Deduct the outstanding balance, maintained in accordance with GAAP, of any goodwill originating from a supervisory merger or combination that was completed on or before December 28, 2015. See definition in §702.2. The Ratio account (LR0007) is auto-calculated as the Input account (LR0006) divided by Total Assets (010).

### ***Schedule I – Risk-Based Capital Ratio Calculation***

---

Schedule I collects the information necessary to compute the risk-based capital ratio, which measures compliance with the NCUA's amended Prompt Corrective Action measures as outlined in NCUA regulations part 702. The risk-based capital measures of this rule apply only to complex federally-insured, natural person credit unions who do not qualify for or opt into the complex credit union leverage ratio (CCULR) framework described in §702.104(d).

Page 24 of Schedule I collects all equity items, additions, and deductions required to compute the risk-based capital numerator outlined in §702.104(b). Subordinated debt, in accordance with §702.407; §208 assistance included in net worth, as defined in §702.2; excluded goodwill and excluded other intangible assets, as defined in §702.2; and identified losses not reflected in the RBC numerator require credit union input. All other items on this schedule are automatically populated from other inputs on the Call Report.

Pages 25 and 26 of Schedule I collect on-balance sheet assets to be included in the risk-based capital denominator as defined by §702.104(c). On-balance sheet amounts in the Totals from Schedules column are automatically populated from other inputs on the Call Report. Credit unions should identify any adjustments between asset categories from the Call Report using the "Adjustments to Totals" column and then must allocate the on-balance sheet asset amounts in the "Totals for Risk-Weighting" column into the appropriate risk-weighting categories and identify any adjustments between asset categories from the Call Report.

Pages 27 and 28 of Schedule I collect reportable off-balance sheet exposures as outlined in §702.104(c)(4). This page also collects derivative exposures as outlined on §702.105. The final risk-based capital ratio is automatically calculated from the inputs and will appear on the bottom of Schedule I, page 28.

All line items in Schedule I are to be reported using the defined exposure amount as outlined in §702.2. For some items, the risk-weighted balance amount can be determined using alternative approaches to value. Footnotes on the Call Report indicate when alternative approaches are available.

As noted in §702.104(c)(1), if a particular asset, derivative contract, or off-balance sheet item has features or characteristics that suggest it could potentially fit into more than one risk weight category, then a credit union shall assign the asset, derivative contract, or off-balance sheet item to the risk weight category that most accurately and appropriately reflects its associated credit risk.

## DEFINITIONS

Term	Definition
Aggregate cash outlay	<p>The aggregate amount of cash paid out by the credit union to acquire an ownership interest in the CUSO. Credit unions required under GAAP to report their investment in a CUSO on the equity basis are not penalized for exceeding their "investment in and loans to" CUSO limit as a result of the CUSO operating profitably and the value of the investment increasing. Unimpaired aggregate cash outlay is the means by which the regulatory limitation is measured.</p> <p><a href="#">Return to instructions</a></p>
Cash on Deposit	<p>Funds on deposit at financial institutions that have no withdrawal restrictions or other provisions preventing funds from being readily accessible for use in operations. <a href="#">Return to instructions</a></p>
