Subject: Marty Tressell Comments on Notice of Proposed Rulemaking (CUSO)
Date: Tuesday, August 23, 2011 7:26:26 PM

WE are invested in one CUSO CU Anytime and current NCUA regulations sufficiently cover all necessary access to this CUSO's financial business as well as credit unions invested in this CUSO.

Given today, President Obama announced the scrapping of hundreds regulations it would appear to me that you at NCUA are going in exactly the opposite Direction!

I read Board Member Hyland's comments about regulations in the last and previous newsletters and yet you continue to generate more and more regulations...use the tools you have now and don't add more rules and regulations to an already over regulated industry.

I fully support the comments by CU Anytime's President, Don Gray and the CUNA Subcommittee response to these proposed regulations!

Less done well is better!

Marty Tressell, President/CEO
