NCUA Launches New Business Page on LinkedIn

ALEXANDRIA, Va. (Feb. 12, 2013) – The National Credit Union Administration (NCUA) has launched a new business page on the social network LinkedIn that will provide the credit union industry up-to-the-minute news, job postings and exclusive information on upcoming recruitment events.

The new NCUA LinkedIn business page is available [here](#) and as a link on NCUA’s [home page](#).

Among the many useful features available on the new business page are links to NCUA products—including the monthly NCUA Report newsletter, the FOCUS newsletter from NCUA’s Office of Small Credit Union Initiatives, and the credit union locator app—which users can recommend to their networks.

LinkedIn is the world’s largest professional network on the Internet, with more than 200 million members in more than 200 countries and territories.

NCUA is the independent federal agency created by the U.S. Congress to regulate, charter and supervise federal credit unions. With the backing of the full faith and credit of the U.S. Government, NCUA operates and manages the National Credit Union Share Insurance Fund, insuring the deposits of nearly 94 million account holders in all federal credit unions and the overwhelming majority of state-chartered credit unions.
