- 3) Are used as part of the Credit Union's cash-management activities.

Examples of highly liquid investments include Fed Funds sold and certificates of deposit. However, if the asset is a security (as defined by GAAP), it is reported on lines 4, 5, or 6, regardless of whether it has the characteristics of a cash equivalent.

5. Available for Sale Securities

Report the amount of investments subject to Accounting Standards Codification (ASC) 320, formerly SFAS 115, which your credit union has classified as available for sale. This includes available for sale securities designated as a hedged item for hedge accounting purposes hedged by non-trading derivatives. Report these investments at fair value, including mutual funds with readily determinable fair values. Do not report investments in the Government Securities Program or any similar common trust investments on this line. These investments should be reported on line 12 – All Other Investments.

6. Held-to-Maturity Securities

Report the amount of investments that your credit union has the positive intent and ability to hold to maturity. Report these investments at amortized cost. Include all ASC 320 investments that are not classified as either available for sale or trading. Do not report investments that are not subject to ASC 320. STATEMENT OF FINANCIAL CONDITION
(NCUA FORM 5300 - PAGE 2)

LOANS & LEASES

- **Collateral Codes.** Report loans by collateral code. For example, if a new or used vehicle is secured by real estate (e.g., home equity loan), include it with real estate loans. If a member business loan or business purpose loan is secured by real estate, it should be reported as a real estate loan. Report business loans not secured by real estate on the Total All Other Loans/Lines of Credit line. Report the portion of any loan participation or purchase that remains on the credit union's balance sheet according to the applicable collateral code.
- **Interest Rates.** Report loan interest rates being offered as of the reporting period for each loan category. Report the actual rate (i.e., 6.5% = 6.5). If more than one rate applies, report the most common rate in each category.
- **For each loan category, report only those loans which have an outstanding balance.** Loans reported should be shown net of loan origination fees (costs) which shall be recognized over the life of the related loan as an adjustment of yield. Loan fees, certain direct loan origination costs, and purchase premiums and discounts on loans shall be recognized as an adjustment of yield, generally by the interest method, based on the contractual terms of the loan.
- **Loans as hedged items.** If loans are part of a hedge accounting designation, the carrying value of the respective loans should be adjusted in accordance with ASC 815 in accordance with GAAP.
- **Participation Loans.** Report the number of individual loans in each pool—not the number of pools. Exclude purchased participations not qualifying for true sales accounting under GAAP (e.g., participations purchased with substantial recourse), as these loans will still be reflected on the seller's balance sheet. The purchasing credit union should report participations not qualifying for true sales accounting as Other Assets (see instructions below).

15. Unsecured Credit Card Loans

Include the rate, number, and dollar amount of outstanding credit card loans. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 10) of the Liquidity, Commitments and Sources page.

16. All Other Unsecured Loans/Lines of Credit (other than credit cards)

Include the rate, number, and dollar amount of outstanding unsecured loans and lines of credit, other than credit card loans. Typically, this would include signature, comaker, and cosigner loans. Also, report overdrawn share accounts of all types here, regardless of the existence of an overdraft protection program for share draft accounts. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 10) of the Liquidity, Commitments and Sources page.

17. Short-Term, Small Amount Loans (STS) (Federal Credit Unions Only)

Federal Credit Unions will include the rate, number, and dollar amount of all loans granted under this program. Do not include these loans with All Other Unsecured Loans/Lines of Credit. State-Chartered credit unions will report similar loans with All Other Unsecured Loans/Lines of Credit. In September 2010, NCUA amended its general lending rule to enable FCUs to offer short-term, small amount (STS) loans as a viable alternative to predatory payday loans. This amendment permits, but does not require, FCUs to charge a higher interest rate for a STS loan than is permitted under the general lending rule but imposes limitations on the permissible term, amount, and fees associated with a STS loan. According to NCUA Rules and Regulations, Section 701.21(c)(7)(iii), a STS loan is defined as a closed-end loan with the following conditions:

1. The principal of the loan is not less than \$200 or more than \$1,000;
2. The loan has minimum maturity term of one month and a maximum maturity term of six months;
3. The FCU does not make more than three STS loans in any rolling six-month period to any one borrower and makes no more than one STS loan at a time to a borrower;
4. The prohibition against roll-overs does not apply to an extension of the loan term within the maximum loan terms in paragraph (c)(7)(iii)(3) (i.e., 6 months) provided the Federal credit union does not charge any additional fees or extend any new credit;
5. The FCU fully amortizes the loan;
6. The FCU sets a minimum length of membership requirement of at least one month;
7. The FCU charges an application fee to all members applying for a new loan that reflects the actual cost of processing the application, but in no case may the application fee exceed \$20; and
8. The FCU includes in its written lending policies a limit on the aggregate dollar amount of loans made under this section of a maximum of 20% of net worth and implements appropriate underwriting guidelines to minimize risk.

18. Non-Federally Guaranteed Student Loans

Include the rate, number, and dollar amount of non-federally guaranteed, or private, student loans. Report guaranteed student loans, such as Stafford, Perkins, PLUS, and Consolidation loans, granted prior to July 1, 2010 on line 24 below.

19. New Vehicle Loans

Include the rate, number, and dollar amount of new vehicle loans, where a new vehicle is pledged as security. Loans secured by ATVs, RVs, and boats should not be reported on this line, but included in Line 24 below.

20. Used Vehicle Loans

Include the rate, number, and dollar amount of used vehicle loans, where a used vehicle is pledged as security. Loans secured by ATVs, RVs, and boats should not be reported on this line, but included in Line 24 below.

21. Total 1st Mortgage Real Estate Loans/Lines of Credit

Include the rate, number, and dollar amount of outstanding loans and lines of credit secured by a first mortgage lien on the property. Include member business loans secured by a first mortgage lien on real estate. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 10) of the Liquidity, Commitments and Sources page.

22. Total Other Real Estate Loans/Lines of Credit

Include the rate, number, and dollar amount of outstanding real property loans and lines of credit secured by an interest on the property other than a first mortgage lien. Typically, this would include home equity and second mortgage loans. Include member business loans secured by a subordinate lien on real estate. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 10) of the Liquidity, Commitments and Sources page.

- If your credit union has any real estate loans outstanding (i.e., if there is an amount reported on lines 21 or 22) or if your credit union has originated any real estate loans during the reporting period, complete the real estate loan section of **Schedule A – Specialized Lending** on pages 13 – 14.
- If your credit union has any business loans outstanding or has originated any member business loans during the reporting period, complete the Business Loans section of **Schedule A – Specialized Lending** on page 15.

23. Leases Receivable

Include the rate, number, and dollar amount of outstanding direct financing leases as defined by GAAP (credit union is lessor). Credit unions that lease personal property such as vehicles to members make direct financing leases.

24. Total All Other Loans/Lines of Credit

Include the rate, number, and dollar amount of outstanding loans not already included in lines 15 - 23. Typically, this would include:

- member business loans and business purpose loans (including agricultural loans) not secured by real estate,
- share secured loans,
- unconditionally US government guaranteed SBA 7(a) (ie., SBA 7(a) Guaranteed Interest Certificate), USDA Business and Industry and FSA Farm Ownership & Operating participation loans purchased in the secondary market, and;
- federally guaranteed student loans granted prior to July 1, 2010,
- loans secured by ATVs, RVs, and boats, and;
- loans financing the disposal of credit union property to nonmembers, etc.

Report unused loan commitments in the Off-Balance Sheet Commitments section (page 10) of the Liquidity, Commitments and Sources page.

25. TOTAL LOANS & LEASES (Sum of lines 15 – 24)

Loans to other credit unions should normally be excluded from Total Loans and reported as an investment.

26. Allowance for Loan & Lease Losses (ALLL)

Report the amount set aside to absorb possible losses on loans and leases (excludes Regular Reserves).

OTHER ASSETS

27. Foreclosed and Repossessed Assets

Report long-lived assets intended for sale and acquired through, or in lieu of, foreclosure or repossession (i.e., the credit union has taken possession) in the applicable category (i.e., Real Estate, Automobiles, or Other). Report the number of loans for each category in the left column and the total amount for each category in the right column.

Initially record the assets at fair value (less costs to sell) at the date of foreclosure or repossession. This fair value (less cost to sell) becomes the “cost” of the foreclosed or repossessed asset. The amount, if any, by which the recorded amount of the loan exceeds the fair value (less costs to sell) of the asset is a loss which must be charged off to the ALLL at the time of the foreclosure or repossession.

After foreclosure or repossession, re-value the assets periodically to the lower of carrying amount or fair value (less costs to sell) through a separate valuation account. Changes in the valuation allowance are included in net expenses from foreclosed and repossessed assets. If a repossessed or foreclosed long-lived asset is not sold shortly after it is received, any declines in value after foreclosure and any gain or loss from the sale or disposition of the asset shall not be reported as a loan loss or recovery and shall not be debited or credited to the ALLL. Rather, adjustments to maintain held for sale foreclosed and repossessed assets at fair value, less costs to sell, should be reported on Page 5, line 29, Miscellaneous Operating Expenses. Any gain or loss upon the disposition of fixed assets should be reported on Page 5, line 16, Gain (Loss) on Disposition of Fixed Assets.

Regardless of the valuation, foreclosed and repossessed property the credit union intends to sell should be transferred to Foreclosed and Repossessed Property and reported on this line.

28. Land and Building

Land and building, less depreciation on building.

29. Other Fixed Assets

All other fixed assets, such as furniture and fixtures and leasehold improvements, less related depreciation. In addition, include *leased assets under capital lease* (credit union is lessee), less accumulated depreciation. In this situation, your credit union is leasing assets and granted a lease from an outside entity.

30. National Credit Union Share Insurance Fund (NCUSIF) Capitalization Deposit

Enter the amount of the National Credit Union Share Insurance Fund deposit.

31. Intangible Assets

a. Identifiable Intangible Assets

Report the amount of identifiable intangible assets obtained through a merger or other business combination.

b. Goodwill

Report the amount of Goodwill, an asset representing the future economic benefits arising from other assets acquired in a business combination (i.e., merger) that are not individually identified and separately recognized.

c. Total Intangible Assets (Sum of items 31a and b)

32. Other Assets

Report accrued interest on loans and accrued interest on investments separately, as applicable. All other assets include prepaid expenses, accounts receivable, loans to and investments in CUSOs, purchased participations not qualifying for true sales accounting under GAAP (e.g., participations purchased with substantial recourse), and any other assets not previously included. Also, report any private insurance capitalization deposit here. If your asset size is over \$10 million and you report loans and/or investments greater than \$0, then you must include the accrued interest amounts in lines 32a and 32b. If this amount includes loans or investments to CUSOs, you must also complete the new NCUA Profile Form (NCUA Form 4501A) and **Schedule C - CUSO Information** on page 19. Include on Other Assets line 32d all non-trading derivative assets, net exclusive or inclusive of accrued interest. Complete Schedule D – Derivatives Transactions Report.

- **NOTE:** If your credit union wholly owns the CUSO or owns the majority of the CUSO (controlling interest), the CUSO should not be reported as an asset. Rather, the CUSO's books and records should be consolidated with your credit union's books and records in accordance with generally accepted accounting principles. Complete **Schedule C - CUSO Information** on page 17 regardless of the ownership interest.

33. TOTAL ASSETS (Sum of items 1, 2c, 3, 13, 14, 25 less 26, 27d, 28, 29, 30, 31c, and 32e).

34. Loans Granted Year-to-Date

Report the number and dollar amount of loans granted year-to-date. Include all loans of all types granted including real estate loans sold on the secondary market. For the number of loans, count each line of credit as a single loan granted if one or more advances were made on that line year-to-date, even if it is an existing line of credit approved in a previous year. For all other loans, report each new loan or refinanced loan as a loan granted. The dollar amount should include all new advances on lines of credit and all balances which were refinanced. Report the number and the portion (amount) of Participation Loans participated in or retained by the credit union.

34a. Federal Credit Unions – Report the number and amount of short-term, small dollar amount (STS) loans granted year-to-date.

The dollar amount should be the total outstanding loan balances as of the current report date.

3. Borrowing Repurchase Transactions

Report by maturity the amount of all borrowing repurchase transactions.

Special instructions for lines 4 and 5, Subordinated Debt and Subordinated Debt included in Net Worth:

Section 702.2(f)(4) of the NCUA Rules and Regulations permits only qualifying Section 208 assistance with a remaining maturity in excess of 5 years to be reported as Subordinated Debt included in Net Worth. For this reason, if qualifying Section 208 assistance has a maturity greater than 5 years, report 100% on line 5 in the > 3 Years column. If the Section 208 assistance does not qualify for inclusion in net worth (e.g., maturity is less than 5 years), report 100% on line 4, in the appropriate maturity category.

In accordance with Section 701.34(c) of the NCUA Rules and Regulations, the amount of Uninsured Secondary Capital reported as Subordinated Debt included in Net Worth by low-income designated credit unions is dependent upon the remaining maturity. Report these accounts based on the following sliding scale:

Remaining Maturity	Amount to Report on Line 4, Subordinated Debt Percentage of Amount Borrowed	Amount of Uninsured Secondary Capital to Include on Line 5, Subordinated Debt included in Net Worth Percentage of Amount Borrowed
Greater than 5 years	0%	100%
4 to less than 5 years	20%	80%
3 to less than 4 years	40%	60%
2 to less than 3 years	60%	40%
1 to less than 2 years	80%	20%
Less than 1 year remaining maturity	100%	0%

4. Subordinated Debt

Report secondary capital accounts accepted from organizational or institutional investors.

NOTE: In accordance with Section 216(o)(2)(B) of the Federal Credit Union Act (as established by Public Law 105-219, the Credit Union Membership Access Act of 1998), Uninsured Secondary Capital is included in net worth for low-income designated credit unions. Also, report loans to and accounts in the credit union established pursuant to Section 208 of the Federal Credit Union Act, provided such loans and accounts meet the requirements of NCUA Rules and Regulations, Section 702.2(f)(4). *See special instructions above.*

SHARES/DEPOSITS

- **Dividend/Interest Rates:** Report the rate paid on these credit union share accounts as of the last day of the reporting period. Input the actual rate (i.e., 2.5% = 2.5), except in situations where more than one rate applies. In this instance, use the most common rate according to the dollar volume of business. Report the rate even if the share program is no longer offered, as long as the share program has outstanding member deposits as of the reporting date.
- **Overdrawn Accounts:** Transfer all overdrawn share balances from their respective share account to All Other Unsecured Loans/Lines of Credit on page 2, line item 16. Do not report negative share balances in this section.
- **Deposit Account Sweeps Affecting Transaction and Non-Transaction Accounts:** In an effort to reduce their reserve requirements, some credit unions have established sweep arrangements that involve transfers of member deposits between two sub-accounts. In a typical arrangement, a credit union creates a master account and two sub-accounts: a transaction sub-account (commonly a share draft account) which is subject to Regulation D reserve requirements, and a non-transaction sub-account (commonly a money market account) which is not subject to reserve requirements. Depending upon the balances in

the two sub-accounts on a particular day, the credit union shifts funds from the transaction sub-account to the non-transaction sub-account or vice versa. The Call Report should reflect the position of the swept funds at the end of the reporting period. The amount reported should match the reported amount on the Federal Reserve form FR 2900 for the quarter-end day.

- **Credit Unions must meet the following two key criteria to have a valid retail sweep program:**
 1. The depository institution must establish by agreement with its transaction account member two legally separate accounts: a transaction account (share draft account) and a non-transaction account (usually regular shares or a money market account).
 2. The swept funds must actually be moved from the member's transaction account to the member's regular shares or money market account on the official books and records of the depository credit union as of the close of business on the day(s) where the depository credit union intends to report the funds in question as regular shares or money market accounts and not transaction accounts, and vice versa.
- When a depository credit union intends to establish a retail sweep program with respect to new transaction account members, the depository credit union must ensure that its member account agreements provide for the existence of two distinct accounts (a transaction account and a regular shares or money market account) rather than a single (transaction) account.
- Regardless of the structure of the credit union's official books and records, both the member-account level records and the aggregate-level records must reflect the actual movement of funds between the accounts (if any) for each reporting date, so that the manner in which the funds are reported on any given reporting date (transaction or regular shares/money market account) corresponds to where the funds are located (transaction or regular shares/money market account).
- Note that simply establishing a legal existence of two sub-accounts, without actually moving funds between sub-accounts accordingly, is not sufficient to report the relevant amounts as having been swept. Also, if a non-transaction (regular share) sub-account reaches the six withdrawal limit in the month or statement cycle, the entire remaining balance of the regular share sub-account must be shifted back to the transaction (share draft) account.
- The maintenance of such records or systems by a third party, such as a service provider, may raise questions as to whether those records or systems are subject to prudent managerial oversight and control. A valid retail sweep program may not exist solely in records or on systems that do not constitute official books and records of the depository

credit union and that are not used for any purpose other than generating “reclassified” deposit reports.

10. Share Drafts

Report the rate, number of accounts, and dollar amount of credit union share drafts. Overdraft balances should be reported on page 2, line item 16, All Other Unsecured Loans/Lines of Credit.

20. Accounts Held by Nonmember Government Depositors

The accounts are insured up to the standard maximum share insurance amount (SMSIA). Government Depositors are eligible for regular shares, share drafts, and share certificates. Please

see Section 701.32 of NCUA's Rules and Regulations for further guidance on Accounts Held by Government Depositors.

21. Employee Benefit Member Shares and Deposits

Any shares of an employee benefit plan in an insured credit union shall be insured on a "pass-through" basis, in the amount of up to the SMSIA for the non-contingent interest of each plan participant, in accordance with Section 745.9-2 of NCUA's Rules and Regulations. An insured credit union that is not "well capitalized" or "adequately capitalized", as those terms are defined in Section 1787(k)(4) of NCUA's Federal Credit Union Act, may not accept employee benefit plan deposits. Employee benefit plans for member shares and deposits may consist of Keogh accounts established by an employer as part of an employee benefit plan.

22. Employee Benefit Nonmember Shares and Deposits

The same insurance coverage and legal restrictions apply to retirement and other employee benefit plan accounts for nonmember shares as stated above for member shares. Employee benefit plans for nonmember shares and deposits may consist of Keogh accounts established by an employer as part of an employee benefit plan.

23. 529 Plan Member Deposits

Funds owned by a principal and deposited in one or more accounts in the name or names of agents or nominees shall be added to any individual account of the principal and insured up to the limit of \$250,000 per eligible account in the aggregate for each primary account holder as outlined in Section 745.3 of NCUA's Rules and Regulations. Deposits are restricted to regular shares, money market shares, or share certificates.

24. Non-dollar Denominated Shares and Deposits

An insured credit union may accept shares denominated in a foreign currency. Shares denominated in a foreign currency will be insured in accordance with this part to the same extent as shares denominated in U.S. dollars. Insurance for shares denominated in foreign currency will be determined and paid in the amount of United States dollars that is equivalent in value to the amount of the shares denominated in the foreign currency as of close of business on the date of default of the insured credit union. The exchange rates to be used for such conversions are the 12:00 PM rates (the noon buying rates for cable transfers) quoted for major currencies by the Federal Reserve Bank of New York on the date of default of the insured credit union, unless the share agreement provides that some other widely recognized exchange rates are to be used for all purposes under that agreement. The credit unions will also have to list these non-dollar denominated shares and deposits in U.S. dollars for the Call Report. The 12:00 PM Federal Reserve Exchange rates should be used as well on the last working day of the quarter-end.

25. Health Savings Accounts

Section 724.1 of the NCUA Rules and Regulations permits Federal credit unions to act as trustees and custodians of certain tax-advantaged savings plans. A federal credit union is authorized to act as trustee or custodian, and may receive reasonable compensation for so acting, under any written trust instrument or custodial agreement created or organized in the United States and forming part of a tax-advantaged savings plan which qualifies for specific tax treatment for its members or groups of its members, provided the funds are invested in share accounts or share certificate accounts of the Federal Credit Union. These services may include acting as a trustee or custodian for health savings accounts. Funds owned by each member shall

be added to any other regular share and insured up to the limit of \$250,000 per eligible account in the aggregate for each primary account holder as outlined in Section 745.3 of NCUA's Rules and Regulations.

26. Dollar Amount of Share Certificates equal to or greater \$100,000

(Excluding brokered share certificates participated out by the broker in shares of less than \$100,000). This account enables the Federal Reserve to accurately construct M2 (the study of total money supply). Please list the total amount for individual share certificates equal to or greater than \$100,000 only. For example, a credit union has two Share Certificate accounts with individual balances of \$80,000 and \$120,000 that add to an aggregate balance of \$200,000. The Federal Reserve has directed NCUA to have credit unions list only the individual balances that equal or exceed \$100,000. So, in this case, the credit union would report \$120,000.

27. Dollar Amount of IRA/Keogh Accounts equal to or greater than \$100,000

This account enables the Federal Reserve to accurately construct M2 (the study of total money supply). Please list the total amount for individual IRA/Keogh Accounts equal to or greater than \$100,000 only. For example, a credit union has two IRA/Keogh accounts with individual balances of \$80,000 and \$120,000 that add to an aggregate balance of \$200,000. The Federal Reserve has directed NCUA to have credit unions list only the individual balances that equal or exceed \$100,000. So, in this case, the credit union would report \$120,000.

28. Dollar Amount of Share Drafts Swept to Regular Shares or Money Market Accounts as Part of Sweep Program

List the dollar amount the credit union actually transferred from share drafts (transactional accounts) to regular shares or money market accounts (nontransactional) to qualify the credit union as having a legitimate sweep program with the Federal Reserve. The credit union can use this total to assist in analyzing share trends.

29. Dollar Amount of Business Share Accounts

Report the total dollar amount of business share accounts. Business shares are accounts opened in the name of a business or by an individual doing business as (DBA). Accounts in the name of a business would usually be identified by a Taxpayer Identification Number (TIN), while DBA accounts may use the account owner's social security number. Do not include trust accounts.

30. Dollar Amount of Negative Shares Included in All Other Unsecured Loans/Lines of Credit on Page 2

Report the dollar amount of negative shares included in all other unsecured loans/lines of credit on page 2.

39. Accumulated Unrealized Net Gains (Losses) on Cash Flow Hedges

40. Other Comprehensive Income

Report any items of other comprehensive income that are not already included in items 34 or 35 above. An example of an Other Comprehensive Income item is other comprehensive income amounts related to single-employer defined benefit postretirement plans, such as a pension plan or health care plan.

A credit union that sponsors a single-employer defined benefit postretirement plan, such as a pension plan or health care plan, must recognize the funded status of each such plan on its balance sheet (i.e., an over-funded plan is recognized as an asset while an under-funded plan is recognized as a liability). Initially, the postretirement plan amounts recognized on the credit union's balance sheet before applying the standard must be adjusted to recognize gains or losses, prior service costs or credits, and transition assets or obligations that have not yet been included in the net periodic benefit cost of its plans. These adjustment amounts are recognized directly in equity as components of other comprehensive income. Thereafter, a credit union must recognize certain gains and losses and prior service costs or credits that arise during each reporting period as a component of other comprehensive income (OCI). Postretirement plan amounts carried in OCI are adjusted as they are subsequently recognized in earnings as components of the plan's net periodic benefit cost. Credit unions should consult their independent accountant for further guidance in applying this accounting standard.

These examples are not all inclusive. Items required by accounting standards to be reported as direct adjustments to paid-in capital, retained earnings, or other non-income equity accounts are **not** to be included as components of comprehensive income.

41. Net Income

Sum remaining after all expenses have been met or deducted from income prior to being transferred to the Undivided Earnings account. Do not report net income which has been closed to Undivided Earnings.

42. TOTAL LIABILITIES, SHARES AND EQUITY

a. Total Other-Than-Temporary Impairment (OTTI) Losses

12. Number of International Remittances Originated Year-to-Date

Count all international transfers for consumer members for which the credit union is the provider and that fall into either of the following two categories:

- A. Transfers that are remittance transfers as defined by subpart B of Regulation E (12 CFR § 1005.30(e)); or
- B. Transfers that would qualify as remittance transfers under subpart B of Regulation E (12 CFR § 1005.30(e)) but that are excluded from that definition only because the credit union is not providing those transfers in the normal course of its business.

In general, a “remittance transfer” is an electronic transfer of funds requested by a sender to a designated recipient that is sent by a remittance transfer provider. The term applies regardless of whether the sender holds an account with the remittance transfer provider, and regardless of whether the transaction is also an “electronic fund transfer,” as defined in Regulation E. *See* 12 CFR § 1005.30(e) and related commentary for the full definition and examples.

A “remittance transfer provider” is any person that provides remittance transfers for a consumer in the normal course of its business, regardless of whether the consumer holds an account with such person. *See* 12 CFR § 1005.30(f) and related commentary for the full definition and examples.

DELINQUENT LOANS
(NCUA FORM 5300 - PAGE 7 & 8)

Report the total outstanding loan balance and number of **all** delinquent loans and leases by collateral type on page 7 and report additional delinquency information on page 8, if applicable. All delinquent loans and leases include loans and leases reported by the credit union and serviced by outside processors (e.g., real estate, student loans, etc.) and loans held on the balance sheet of wholly-owned CUSOs.

- Do not include either:
 - 1) Loans already written down to fair value (difference charged-off against ALLL) through a "decision to sell" and/or otherwise transferred to a "loans held for sale" (LHFS) classification; or
 - 2) Any loans for which the credit union has already obtained physical possession of the underlying collateral (automobiles, boats, real estate, etc.), regardless of whether formal foreclosure or repossession proceedings have been instituted against the borrower. The credit union should write-down such loans to the fair value of the collateral, less costs to sell. Property the credit union intends to sell should be transferred to "Foreclosed and Repossessed Assets."
- The past due status of purchased credit impaired loans acquired in business combinations, or otherwise purchased, should be determined in accordance with each loan's contractual repayment terms. However, the dollar amount reported in the appropriate delinquency category on pages 7 and 8 should reflect the credit union's recorded investment value, as included in the Loans & Leases section of the Statement of Financial Condition.
- Report troubled debt restructured (TDR) loans as past due as follows: The past due status will be calculated consistent with loan contract terms, including amendments made to loan terms through a formal restructure. "Past due" means a loan is determined to be delinquent in relation to its contractual repayment terms, including formal restructures, and must consider the time value of money. Credit unions may use the following method to recognize partial payments on "consumer credit," defined as credit extended to individuals for household, family, and other personal expenditures, including credit cards, and loans to individuals secured by their personal residence, including home equity and home improvement loans. A payment equivalent to 90 percent or more of the contractual payment may be considered a full payment in computing past due status.
- **Note:** Regulatory reporting of TDR loans is as defined in GAAP, and NCUA does not intend through this data collection to change the Financial Accounting Standards Board's (FASB's) definition of TDR in any way.

"Troubled Debt Restructuring" means a restructuring in which a credit union, for economic or legal reasons related to a borrower's financial difficulties, grants a concession to the borrower that it would not otherwise consider. The restructuring of a loan may include, but is not necessarily limited to: (1) the transfer from the borrower to the credit union of real estate, receivables from third parties, other assets, or an equity interest in the borrower in full or partial satisfaction of the loan; (2) a modification of the loan terms, such as a reduction of the stated

interest rate, principal, or accrued interest or an extension of the maturity date at a stated interest rate lower than the current market rate for new debt with similar risk; or (3) a combination of the above. A loan extended or renewed at a stated interest rate equal to the current market interest rate for new debt with similar risk is not to be reported as a restructured troubled loan.

On pages 7 and 8, include all TDRs that meet the GAAP criteria for TDR reporting, without the application of materiality threshold exclusions based on scoping or reporting policy elections of credit union preparers or their auditors.

Report the total for each category in the third column.

For this item, “construction” includes not only construction of new structures, but also additions or alterations to the existing structures and the demolition of existing structures to make way for new structures. Include in this item loan proceeds your credit union is obligated to advance as construction progress payments. C. Outstanding Letters of Credit

Report the amount unfunded as of the report date of all financial standby letters of credit (and all legally binding commitments to issue financial standby letters of credit) issued by your credit union. Do not include loan transfers that qualify for sales treatment but only contain the representation and warranty paragraphs that are standard for sales on the secondary market. **Do not include loan participations transferred with substantial recourse or those transferred without recourse.** If a transfer does not satisfy the criteria for sales treatment (i.e., isolation, control, and pledge), the transfer should be accounted for as a secured borrowing with pledge of collateral, and not reported here.

PCA NET WORTH CALCULATION WORKSHEET
(NCUA FORM 5300 - PAGE 11)

A credit union is not required to provide input on this page unless it has chosen an alternative total assets option offered on lines 10 through 12 to calculate Net Worth, elected to calculate an alternative Risk Based Net Worth ratio, or completed a merger/acquisition after 12/31/2008.

All Credit Unions. Entries from the Statement of Financial Condition provide the values to populate line items 1-6:

1. Undivided Earnings

2. Regular Reserves

3. Appropriation for Non-Conforming Investments (State Credit Union ONLY)

4. Other Reserves (Appropriations of Undivided Earnings)

5. Subordinated Debt included in Net Worth

6. Net Income (unless this amount is already included in Undivided Earnings)

All credit unions must complete line 7, if a business combination was completed on or after January 1, 2009.

7. Adjusted Retained Earnings acquired through Business Combinations

a. Prior Quarter-End Adjusted Retained Earnings acquired through Business Combinations

List the applicable total for the prior quarter-end adjusted retained earnings acquired through business combinations. **This amount should equal the amount reported in line 7d of the prior period call report, if the credit union has reported this information before.** This total must be tracked separately by the credit union since it will not appear directly on the balance sheet.

b. Adjustments made to Retained Earnings acquired through Business Combinations during current quarter

List any applicable adjustments, such as additional business combinations. Note: The retained earnings of the acquired credit union at the point of acquisition must be measured under Generally Accepted Accounting Principles. The only time an adjustment would be negative is due to an accounting correction.

c. Adjusted Gain from Bargain Purchase due to Business Combinations completed during current quarter

For each business combination completed during the current quarter, report any bargain purchase gain, only up to the amount of added retained earnings for that entity included on line b above, in accordance with NCUA Rules and Regulations, Section 702.2(f)(3). The difference between the bargain purchase gain and added retained earnings should be calculated separately for each business combination, with the aggregate reported on this line.

d. Current Quarter's Total Adjusted Retained Earnings acquired through Business Combinations (Line 7a + Line 7b - Line 7c)

The amount calculated in line 7d is what you should report on line 7a on your next 5300 report.

8. TOTAL NET WORTH (Sum of items 1-6 and 7d)

9 – 12. Total Assets

This worksheet provides a means of measuring the net worth ratio on line 13. All credit unions must determine their net worth category at the end of each calendar quarter by measuring their net worth ratio. (See NCUA Rules and Regulations §702.101.)

At its discretion, a credit union may elect a measure of total assets for its net worth denominator other than quarter-end total assets. If the credit union decides to use one of these Total Assets Elections, it must input this amount on line 10, 11, or 12, as appropriate. Otherwise, the PCA Net Worth Calculation Worksheet will compute the credit union's net worth ratio and resulting net worth classification using quarter-end total assets from line 9. (Please see NCUA Rules and Regulations §702.2 (k) for further information regarding total assets.)

13. Net Worth Ratio (Line 8 divided by line 9, 10, 11, or 12)

14. Credit unions with Assets Greater than \$50,000,000.

In addition to measuring a net worth ratio, credit unions with assets greater than \$50 million must also review their Risk Based Net Worth (RBNW) Calculation Requirement.

- a. Risk Based Net Worth (RBNW) Requirement (Standard Calculation): RBNW Requirement based upon the Standard Components.**
- b. Risk Based Net Worth (RBNW) Alternative Method under Section 702.107: RBNW Requirement based upon the Alternative Components of Section 702.107 of the NCUA Rules and Regulations.**

Net Worth Classification. The credit union's net worth classification will be determined based on the computed net worth ratio. The appropriate net worth categories are somewhat different for credit unions classified as "new". A "new" credit union is defined as a federally-insured credit union that both has been in operation for less than 10 years and has total assets of not more than \$10 million.

15. Net Worth Classification if credit union is not new

See NCUA Rules and Regulations 702.102 for the applicable net worth categories.

16. Net Worth Classification if credit union is new

See NCUA Rules and Regulations 702.302 for the applicable net worth categories.

STANDARD COMPONENTS OF RISK BASED NET WORTH (RBNW)
REQUIREMENT
(NCUA FORM 5300 - PAGE 12)

No credit union is required to provide input on this page. NCUA provides the Standard Components of Risk Based Net Worth (RBNW) Requirement worksheet to demonstrate the underlying source information of the RBNW requirement. NCUA provides this for your information only.

Credit unions with Assets Greater than \$50,000,000. In addition to measuring a net worth ratio, credit unions with assets greater than \$50 million must also review their RBNW Calculation Requirement. Line 14a of the PCA Net Worth Calculation Worksheet provides the RBNW Requirement based upon the standard components.

SCHEDULE A – SPECIALIZED LENDING
(NCUA FORM 5300 - PAGE 13)

Report loans net of loan origination fees (costs), which are recognized over the life of the related loan as an adjustment to yield.

An indirect loan is a loan made by a credit union through a vendor or other third party that facilitates the financing arrangement, including, but not limited to, auto loans, recreational vehicle loans, furniture loans, real estate loans, business loans, and non-federally guaranteed student loans. Report the number and dollar amount of outstanding indirect loans made by the credit union by contracting directly with a merchant. 1b. Indirect Loans – Outsourced Lending Relationship

Report the number and dollar amount of outstanding indirect loans made by the credit union by contracting with a third party vendor, other than the merchant providing the product. In this case, the credit union does not directly contract with the merchant. SCHEDULE A – SPECIALIZED LENDING
(NCUA FORM 5300 - PAGE 15)

SECTION 4 – BUSINESS LOANS

This section should include information concerning business loans as defined by Part 723 of the NCUA Rules and Regulations. A member business loan generally includes any loan, line of credit, or letter of credit (including unfunded commitments) where the borrower uses the proceeds for commercial, corporate, or other business investment property or venture, or agricultural purposes. However, loans which meet one or more of the following exceptions are not member business loans:

- A loan fully secured by a lien on a 1- to 4-family dwelling that is the member's primary residence;
- A loan fully secured by shares in the credit union or deposits in other financial institutions;
- Loan(s) to a member or an associated member which, when the net member business loan balances are added together, are equal to less than \$50,000;
- A loan where a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase in full; or
- Loans to credit unions and credit union service organizations.

For purposes of Part 723, a loan purchase or participation interest in a nonmember business loan must meet the member business loan requirements as if made to a member. These loans do not count against the credit union's regulatory aggregate member business loan limit unless the borrower is also a member. However, the credit union must receive approval from the NCUA regional director before the total of the credit union's net member business loan balances and the nonmember business loan balances exceed the lesser of 1.75 times the credit union's net worth or 12.25% of total assets.

Net Member Business Loan Balance (NMBLB). The outstanding loan balance plus any unfunded commitments, reduced by any portion of the loan that is secured by shares in the credit union, or by shares or deposits in other financial institutions, or by a lien on the member's primary residence, or insured or guaranteed by any agency of the federal government, a state or any political subdivision of such state, or subject to an advance commitment to purchase by any agency of the federal government, a state or any political subdivision of such state, or sold as a participation interest without recourse and qualifying for sales accounting under generally accepted accounting principles. **The NMBLB applies to both member and nonmember business loans and participation interests.**

Examples for reporting Business Loans on lines 1a-k and lines 2a-k of this schedule.

If a member has \$35,000 in business purpose loans and the credit union grants this member an additional \$40,000 in business purpose loans, the credit union should report the additional \$40,000 on lines 1a-j, as applicable, as a Member Business Loan. If the credit union has total assets exceeding \$50,000,000, the credit union would also report the \$40,000 on lines 10 – 12 for the purpose of calculating the Risk Based Net Worth requirement. Also, in this case, the credit union must comply with all of the requirements of Part 723 of NCUA's Rules and Regulations in making this loan because the loan caused the aggregate amount of business purpose loans to the member to exceed the \$50,000 threshold in Section 723.1(b)(3) of NCUA's Rules and Regulations.

If, in the case above, the member subsequently pays down the \$35,000 business purpose loan to \$15,000 and the \$40,000 business loan to \$34,000, making the aggregate total business purpose loans \$49,000, the credit union is not required to list any of these loans on lines 1a-j as Member Business Loans since the new aggregate loan total is \$49,000 and is now below the \$50,000 threshold in Section 723.1(b)(3) of NCUA's Rules and Regulations. However, if the credit union has assets exceeding \$50,000,000, the credit union is required to report the \$34,000 member business purpose loan on lines 10 – 12 for the purpose of calculating the Risk Based Net Worth (RBNW). For RBNW reporting requirements, the outstanding loan balance of any loan and participation that **ever** met the definition of a member business loan (e.g., at origination or at time of purchase) must be reported on lines 10 – 12 in the RBNW section for credit unions with assets greater than \$50 million.

1. & 2. Business Loans

Report the total number and NMBLB of any business loan, or participation interest qualifying for sales accounting, to a member on lines 1a-k and to a nonmember on lines 2a-k.

SCHEDULE A – SPECIALIZED LENDING
(NCUA FORM 5300 - PAGE 16)

SECTION 5 – TROUBLED DEBT RESTRUCTURED (TDR) LOANS

“Troubled Debt Restructuring” is as defined in GAAP and means a restructuring in which a credit union, for economic or legal reasons related to a member borrower’s financial difficulties, grants a concession to the borrower that it would not otherwise consider. The restructuring of a loan may include, but is not necessarily limited to: (1) the transfer from the borrower to the credit union of real estate, receivables from third parties, other assets, or an equity interest in the borrower in full or partial satisfaction of the loan; (2) a modification of the loan terms, such as a reduction of the stated interest rate, principal, or accrued interest or an extension of the maturity date at a stated interest rate lower than the current market rate for new debt with similar risk; or (3) a combination of the above. A loan extended or renewed at a stated interest rate equal to the current market interest rate for new debt with similar risk is not to be reported as a TDR.

Report all loans that qualify as TDRs under GAAP in the appropriate row and column, depending on the type of loan and its accrual status. Include all TDRs that meet the GAAP criteria for TDR reporting, without the application of materiality threshold exclusions based on scoping or reporting policy elections of credit union preparers or their auditors. For the Amount Outstanding, report the total amount recorded for all TDR loans still outstanding. For loans restructured more than once, only report the outstanding balance of the most recent restructuring in this column. On the TDR Loans Approved Year-to-Date line, include all TDR loans approved year-to-date, including multiple restructurings made on the same loan in the current year.

Credit unions may not accrue interest on any loan upon which principal or interest has been in default for a period of 90 days or more, unless the loan is both “well secured” and “in the process of collection.” Additionally, loans will be placed in nonaccrual status if maintained on a Cash (or Cost Recovery) basis because of deterioration in the financial condition of the borrower, or for which payment in full of principal or interest is not expected. See NCUA Rules and Regulations Part 741 for more information about Loan Workouts and Nonaccrual Policy, and Regulatory Reporting of TDRs.

SECTION 6 – PURCHASED CREDIT IMPAIRED LOANS (PCILS)

Purchased credit impaired loans (PCILs)^[1] are loans that a credit union purchased or otherwise acquired by completion of a transfer, including those acquired in a purchase business combination (merger), that meet certain criteria. Those criteria include loans where (1) there is evidence of deterioration of credit quality since the origination of the loan and (2) it is probable, at the acquisition date, that the credit union will be unable to collect all contractually required payments receivable.

Credit unions purchasing or acquiring loans meeting the PCILs criteria must account for these loans in accordance with the generally accepted accounting principles (GAAP). The determination of whether acquired loans meet the criteria is made at acquisition and on a loan-by-loan basis. After determining that certain acquired loans individually meet the criteria, the credit union may evaluate whether such loans have common risk characteristics, thus permitting the aggregation of such loans into one or more pools. See GAAP or consult your independent accountant for more information on pooling PCILs.

A credit union should include post-acquisition allowances on PCILs and pools of PCILs in the overall Allowance for Loan and Lease Losses (ALLL) it reports in Schedule A. At each reporting period, if it is probable, based on current information and events, that a credit union

^[1] Accounting Standards Codification for this topic does not apply to purchased or acquired credit card portfolios.

will be unable to collect all of the cash flows expected when the PCIL and the pools of PCILs were acquired (plus additional cash flows expected to be collected arising from changes in estimate after acquisition), the PCILs and the pools of PCILs should be considered impaired for purposes of establishing an allowance, as appropriate. Again, refer to GAAP or consult your independent accountant to understand impairment measurement and reporting.

SCHEDULE C – CREDIT UNION SERVICE ORGANIZATION (CUSO)
INFORMATION
(NCUA FORM 5300 - PAGE 19)

CUSO DEFINITION

A Credit Union Service Organization (CUSO) is a corporation or limited partnership that provides services primarily to credit unions or members of affiliated credit unions.

Line item entries for credit union loans and investments have been moved to NCUA Form 4501A (Profile Form). Answer the following questions for each group of CUSOs (aggregate) in which you have a loan or an investment:

ACCOUNTING ISSUES

- A. **If your credit union wholly-owns the CUSO or owns a “controlling financial interest” (assumed at ownership of 50% or more of the voting stock),** the CUSO’s books and records should be consolidated with your credit union’s books and records (as if the two were one entity) for reporting on pages 1, 2, 3, 4, and 5 of the call report.
- B. **If your credit union has “ability to exert significant influence” over operations of the CUSO (assumed at ownership of 20% or more but less than 50% of the voting stock of the CUSO),** the credit union’s investment in the CUSO should be reflected in its books and records using the equity method of accounting.
- C. **If your credit union owns less than 20% of the voting stock of the CUSO,** the credit union should account for its CUSO investment using the cost method of accounting.

AGGREGATE OF FINANCIAL INTERESTS THE CREDIT UNION HAS IN CUSOs

Report aggregate totals for Total Value of Investments in CUSOs (Acct Code 851), Total Amount loaned to CUSOs (Acct Code 852), and Total Aggregate Cash Outlays (Acct Code 853) the credit union has in all CUSOs, regardless of whether your credit union wholly owns the CUSO, has a "controlling financial interest," has the "ability to exert significant influence" or owns only a smaller portion of the CUSO. These totals should match the sum of all detailed CUSO information entered in the credit union's online profile or provided manually on NCUA Form 4501A (Profile Form). Please update your profile as necessary to ensure the figures provided below match. These are new Account Codes for the 5300. The prior Account Codes for Total Value of Investments in CUSOs, Total Amount loaned to CUSOs, and Total Aggregate Cash Outlays remain unchanged in the Profile Form.

A. Total Value of Investments in CUSOs (Account 851)

Report the amount that represents the unimpaired value of the credit union’s aggregate CUSO investments as measured under generally accepted accounting principles on an unconsolidated basis. The amount reported should be measured either under:

- The cost method (ownership of less than 20% voting common stock), or
- The equity method (ownership of 20% or more voting common stock).

B. Total Amount Loaned to CUSOs (Account 852)

Report the amount of aggregate outstanding loan balance(s), available line(s) of credit from the credit union, and/or guarantee(s) the credit union has made to or on behalf of the applicable CUSOs.

C. Total Aggregate Cash Outlay in CUSOs (Account 853)

Report the aggregate cash outlay invested in the CUSO that is not impaired by sustained losses unrecoverable in the reasonable near term. "Aggregate cash outlay" means the aggregate amount of cash paid out by the credit union to acquire an ownership interest in the CUSO. Credit unions required under GAAP to report their investment in a CUSO on the equity basis are not penalized for exceeding their "investment in and loans to" CUSO limit as a result of the CUSO operating profitably and the value of the investment increasing. Unimpaired aggregate cash outlay is the means by which the regulatory limitation is measured.

WHOLLY OWNED CUSOs

Complete a separate line of information for each CUSO wholly owned by the credit union. These CUSOs should also be listed in the credit union's profile under the "CUSO" tab in the online system.

A. CUSO EIN (Employer Identification Number) (Accounts 844A through T)

Report the Employer Identification Number (tax ID number) of each applicable wholly owned CUSO assigned by the Internal Revenue Service (IRS). Report the nine digit number without any spaces or dashes. This number should not be someone's social security number or the same tax ID number used by the credit union. If you do not know what the CUSO's tax ID number is, contact the CUSO.

B. Full/Legal Name of CUSO (Accounts 845A through T)

Report the full/legal name of each applicable wholly owned CUSO.

C. Total Assets of CUSO (Accounts 846A through T)

Report the total assets of each applicable wholly owned CUSO.

D. Total Capital of CUSO (Accounts 847A through T)

Report the amount of total capital for each applicable wholly owned CUSO.

E. Net Income/Loss of CUSO (Accounts 848A through T)

Report the net income or loss of each applicable wholly owned CUSO.

F. Total Loans of CUSO (Accounts 854A through T)

Report total loans outstanding for each applicable wholly owned CUSO.

G. Total Delinquency of CUSO (Accounts 849A through T)

Report total delinquent loan balances of each applicable wholly owned CUSO.

H. Does this CUSO have any subsidiary CUSOs? (Y/N) (Accounts 855A through T)

Indicate if each applicable wholly owned CUSO has a subsidiary CUSO(s).

SCHEDULE D – DERIVATIVE TRANSACTION REPORT
(NCUA FORM 5300 - PAGE 20)

This schedule collects information on derivative transactions (contracts), including those that meet certain hedge accounting criteria outlined in GAAP guidance ASC 815 Derivatives and Hedging.

The derivative products reported in Item 1 of Section 1, Items 1 – 3 of Section 2, Item 1 of Section 3, Items 1 – 2 of Section 4 and Item 1 of Section 5 of this Schedule are:

- a) Interest Rate Swaps** – A customized privately negotiated contract between two parties to exchange interest rate cash flows, calculated on a notional amount, at specified intervals during the life of the agreement. Each party’s payment obligation is computed using a different interest rate. Report the following swaps:
- i. Pay-Fixed – All interest rate swap transactions where the fixed payer (Pay Leg) makes periodic payments based on a fixed rate for the term of the contract in exchange of returns (Receive Leg) based on a floating rate that resets to a variable rate index.
 - ii. Receive-Fixed – All interest rate swap transactions where the fixed receiver (Receive Leg) receives periodic payments based on a fixed rate for the term of the contract in exchange for payments (Pay Leg) based on a floating rate that resets to a variable rate index.
 - iii. Basis – All interest rate swap transactions where both the Pay and Receive Legs are variable rate indices, which reset periodically over the term of the derivative contract.
- b) Interest Rate Options** –In an interest rate option, the underlying asset is an interest rate and the agreed upon strike price is the interest rate at which the option can be exercised until the option expires. A buyer purchases an interest rate cap or floor to obtain protection from the effects of rising or falling interest rates on interest payments. In an interest rate cap, the option seller agrees to compensate the buyer for the amount by which an underlying short-term rate exceeds the exercise rate on a series of dates during the life of the contract. In an interest rate floor, the option seller agrees to compensate the buyer for a rate falling below the exercise rate during the contract period.
- i. Caps Purchased – A purchased only interest rate cap.
 - ii. Floors Purchased – A purchased only interest rate floor.
- c) Treasury Futures** – Chicago Board of Trade Exchange (CBTE) traded U. S. Treasury Note Futures contracts indexed between 2 and 10-year U.S. Treasury Note securities. Report the contract size (i.e. \$200,000 for 2, 3-year and \$100,000 for 5, 10-year contracts) as the Notional Amount.

d) Other Derivatives:

- i. Options Related Contracts – Use the line for Item d) i to report the description of the option contract(s)- not classified as a Cap or Floor and the underlying nominal amount of the contract(s) for the Notional Amount.
- ii. Forward Related Contracts – Use the line for Item d) ii to report the description of the contract(s) and the deliverable amount of the forward contract(s) for the Notional Amount.
- iii. All Other Derivatives not classified above permitted under Sections 701.21(i) and 703.14(g) of NCUA Rules and Regulations – Use the line for Item d) iii to describe these derivatives.

Section 1 – Outstanding

1.a.i. Pay-Fixed Interest Rate Swaps

Report all interest rate swap transactions where the pay leg is a fixed rate and the receive leg is a variable (resets on a periodic basis) rate.

Total Notional Amount Column

Report the total of Notional Amounts for derivative transactions outstanding as of the end of this call report period for each derivative product category. Include transactions traded, but not yet settled as with a forward start transaction. Use the amortization schedules of amortizing Notional Amounts to determine the amount currently outstanding as of the end of the call report period. The Notional Amounts of Treasury Note Futures transactions are the underlying contract size of the futures contract purchases and sales (i.e. the face value of a 5-year U.S. Treasury Note is \$100,000 for a long position and (\$100,000) for a short position).

Fair Value of Derivatives in a Gain Position Column

Report the derivative transactions that have a positive fair value position as of the end of this call report period, inclusive of interest accruals (Dirty Value). These amounts should be reported as *positive* values on the schedule. Total and report these transactions in the appropriate derivative product categories under the column labeled Fair Values of Derivatives in a Gain Position.

When making these fair value determinations, the fair value position of a Swap, Future, and Forward type derivative product is the fair value of the derivative as of the end of the call report period. However, to determine the fair value position of an Option type derivative, deduct the unamortized balance of the premium paid from the Option's fair value. For example, assume an interest rate cap option has a fair value of \$100 and \$5 of the \$75 premium paid for that cap has been amortized to interest expense. The fair value position of this cap is a positive \$30 (i.e. $\$100 - \$70 = \$30$). Looking at another example, assume an interest rate cap option has a fair value of \$100, and \$5 of the \$120 premium paid for that cap has been amortized to interest expense. The fair value position of this cap is a negative \$15 (i.e. $\$100 - \$115 = -\$15$) and would be reported in the Fair Value of Derivatives in a Loss Position.

Fair Value of Derivatives in a Loss Position Column

Report the derivative transactions that have a negative fair value position as of the end of this call report period, inclusive of interest accruals (Dirty Value). These amounts should also be reported as *positive values* on the schedule. Input the total amount of transactions that have a

negative fair value position in the appropriate derivative product categories under the column labeled Fair Values of Derivatives in a Loss Position. (See the Fair Value determinations in the section above for Fair Value of Derivatives in a Gain Position Column).

Net Fair Value Gain (Loss) Column

Report the net (Gain – Loss) totals of the fair value gain and loss positions of each derivative product category and report the results (see Net Fair Value Gain(Loss)). A net gain will be represented by a *positive* value and a net loss will be represented as a *negative* value.

Report the total of Notional Amounts for derivative transactions outstanding as of the end of this call report period for each derivative product category. Include transactions traded, but not yet settled as with a forward start transaction. Use the amortization schedules of amortizing Notional Amounts to determine the amount currently outstanding as of the end of the call report period. The Notional Amounts of Treasury Note Futures transactions are the underlying contract size of the futures contract purchases and sales (i.e. the face value of a 5-year U.S. Treasury Note is \$100,000 for a long position and (\$100,000) for a short position).

Net Fair Value Gain (Loss) Column

(Consistent with Section 1 column descriptions for Net Fair Value Gain/(Loss)) . Report the net fair value of derivative transactions as of the end of this call report period, inclusive of interest accruals (Dirty Value). These amounts should be reported as *positive values* for net gains and *negative values* for net loss positions on the schedule.

When making these fair value determinations, the fair value position of a Swap, Future, and Forward type derivative product is the fair value of the derivative as of the end of the call report period. However, to determine the fair value position of an Option type derivative, deduct the unamortized balance of the premium paid from the Option's fair value. For example, assume an interest rate cap option has a fair value of \$100 and \$5 of the \$75 premium paid for that cap has been amortized to interest expense. The fair value position of this cap is a positive \$30 (i.e. \$100 - \$70 = \$30). Looking at another example, assume an interest rate cap option has a fair value of \$100, and \$5 of the \$120 premium paid for that cap has been amortized to interest expense. The fair value position of this cap is a negative \$15 (i.e. \$100 - \$115 = -\$15).

In the “Notional Amount” table report the notional amount of all derivative transactions outstanding as of the end of this call report period in the appropriate listed derivative product categories based on the years remaining in the derivatives’ contracts. The Notional Amount totals of each product category and the derivatives portfolio should match the “Total Notional Amount” of the product categories and the portfolio shown in Section 1 of Schedule D.

≤ 1 yr Column

Report Notional amounts with remaining maturity of less than or equal to one year as defined in “Section 1 Total Notional Column Amount Column”.

>1 to ≤3 yrs Column

Report Notional amounts with remaining maturity of more than one year and less than or equal to three years as defined in “Section 1 Total Notional Column Amount Column”.

>3 to ≤5 yrs Column

Weighted Average yrs to Maturity Column

Additionally, report the weighted average years remaining to maturity for each derivative product category. Express the average in number of years and round the number to two decimal places. The weighted average years remaining to maturity for the total Notional Amount of the entire derivatives portfolio reported in this Section (Total Derivatives line) should be similar (not
