Subject: Donald Price - Comments on Notice of Proposed Rulemaking Regarding Associational
Date: Monday, May 05, 2014 12:17:21 PM
Attachments: [image001.png](#)

Hello,

This is comment on the proposed referenced rule. In the proposal, Electric Cooperatives are automatically approved if they meet the other related requirements. I believe you did not recognize Local Farm Supply and Marketing Cooperatives as being eligible for automatic approval. I do not mean consumer farm coops, but I mean rural coops that serve members of rural communities in the same way an electric cooperative serves.

Four Points FCU today serves dozens of farm cooperatives, and it is our plan to continue to add more to our charter. Farm coops operate the same as electric coops – aggregate services for the rural members.

Please add Local Farm Supply and Marketing Cooperatives to this proposal.

Please advise and thank you!!
