Subject: Comments on Proposed Rulemaking for Part 723

Dear Secretary of the Board Poliquin,

Please accept my support for the National Credit Union Association's proposed rule reforming the Field of Membership regulations. These rules have not been updated in some time and are no longer adequately serving the credit union industry. In fact, they are limiting member service and our ability to serve our communities and select employee groups. I appreciate the move to broaden Field of Membership regulations as it will allow more citizens the opportunity to choose the credit union industry if they so desire.

Thanks for your Consideration.
Dave Schiffer

Sincerely,
