Dear Secretary of the Board Poliquin,

Every American should have easy access to a credit union for financial services. As an employee of Oregon State Credit Union, I can attest that we have our member/owners best interests in mind. The credit union has many programs in place to meet financial needs for loans, savings, retirement, and much more, as well as offering many programs such as financial education in our community. I support any new regulation that can make my credit union available to more people, as it is the best place in our area for banking services.

Please pass the proposed rule as soon as possible so that more people can join credit unions.

Sincerely,

Nathan Wuerch
