Dear Gerard Poliquin, Secretary of the Board

I am writing in support of the work that the National Credit Union Association is doing to increase and enhance the availability of financial products and services to consumers and communities. The proposed changes to the field of membership rules will allow credit unions to reach out and provide needed financial services to people and small businesses in their expanded communities. I urge NCUA to finalize the proposed changes as quickly as possible.

Credit Unions do a wonderful job of providing products and services that are a safe and sound option for consumers and communities. The proposed rule changes will enhance consumers' ability to choose a credit union as their financial partner while also allowing credit unions to expand their reach into the community while effectively serving their members. I know that my Credit Union could benefit from the proposed rule changes and it would allow us to be a part of additional communities and provide products and service to people we cannot currently serve.

I strongly support NCUA's proposed changes to the field of membership rule and ask the Board to adopt the proposed rule as soon as possible.

Thank you for your time and consideration,

*David L. Meaux*
