**Date:** Tuesday, February 02, 2016 9:40:08 AM

---

Dear Secretary of the Board Poliquin,

We all hope this change is approved. It will help the industry improve its market share and foster growth for Federal CU. We lost many Federal CUs to State Charters because the CUs could not grow within the Federal guidelines. Consumers need and want our services. They want to move away from banks. In addition, I want to thank the National Credit Union Administration Board for its vision in continuing to facilitate the ability of consumers to belong to credit unions and for its determination in utilizing its authority under the Federal Credit Union Act (Act) to allow federal credit unions to expand to meet the needs of their members and communities. The changes will strengthen the federal credit union system and contribute to the safety and soundness of federal credit unions by supporting their ability to grow.

Sincerely,

Bonnie Trappe
