Dear Secretary of the Board Poliquin,

Our country has developed and become the great nation it is due to the deserved concepts of freedom and choice. New regulations from several different regulators have, in practicality, limited the ability of credit unions to serve their members. The National Credit Union Administration's proposal expanding the ability of credit unions to serve their members is one of the first steps taken by regulators recognizing the benefits of credit unions. Your proposal will benefit many consumers and expand their ability to receive the best possible products and services from their credit unions. It will ultimately allow people the freedom to choose.

The NCUA's proposal is an important first step to improve the lives of many consumers. I appreciate your important work on behalf of credit union members, and all consumers, throughout the country.

Sincerely,

Kayeloni Rodriguez
