Dear Secretary of the Board Poliquin,

Every American should have easy access to a credit union for financial services.

Please pass the proposed rule as soon as possible so that more people can join credit unions.

I work with state and federally-chartered credit unions every day, and see firsthand the good things they do in their communities. While Missouri has more state-chartered credit unions than federally-chartered credit unions, and this proposal would only affect federally-chartered credit unions, it is a good idea. Efforts to allow more consumers the option of joining a credit union is a positive step forward.

Sincerely,

Susan Weinstein Heartland
