Dear Secretary of the Board Poliquin,

I've been a member of Peninsula Credit Union and have enjoyed a high level of professionalism. Lower loan rates are a Godsend for the middle class and particularly the lower middle class.

It is more of a home-town atmosphere

We need more credit unions in our community. This proposed regulation, along with NCUA's proposed member business lending rule, are welcome regulatory relief for credit unions. They will help credit unions do even more in their communities, which includes giving consumers and small businesses access to credit that would not otherwise be available. I do appreciate what you are doing help consumers and small businesses by make credit unions more available and making it easier for credit unions to lend. Taking restrictions out of regulation and putting decisions in the hands of the credit unions will help communities. I encourage you to finalize your proposal as soon as possible.

Sincerely,

Mary K. Cole
