Comments on Proposed Rulemaking for Member Business Loans, Part 723.

Dear Gerard Poliquin:

Dear NCUA:

I personally hope credit unions become more like banks. The industry will be shamed into paying income taxes, both state and federal, as there will be no valid reason to keep the tax subsidy in place. Credit unions will then become honest. Unfortunately, community banks, like the one where I work, will probably be driven out of business by the time congress acts. Brilliant.

Thank you, Kirk Jones

Sincerely,
Kirk Jones
