Subject: Comments on NCUA Proposed Rule: Prompt Corrective Action - Risk-Based Capital
Date: Tuesday, April 29, 2014 3:36:46 PM

Dear Mr. Poliquin:

Our Credit Union was organized in February 1942 by a small group of farmers for farmers. Since that time, (72 years) the majority of our loans have been made to farmers for cattle, equipment, real estate, and operating for their farms.

We do not consider agricultural loans to be high risk loans. Therefore, we do not think that they should be considered in your risk based capital calculations.

Sincerely,

Marvel Ebenhahn, President
Community Credit Union
