Dear Mr. Poliquin:

I am an employee and member of a credit union and I am opposed to the revised Risk-Based Capital regulation. If your goal is to protect the NCUSIF, why implement a rule that will make it harder for credit unions to provide high quality services and rates to their owners? In the last ten years, fraud has caused 41% of failures. Turn your attentions to what matters, don't harm the vast majority of credit unions that have been operating the right way for years. Thank you,

Taylor Lund
