

National Credit Union Administration
REGION VI

BOARD ACTION MEMORANDUM

TO: NCUA Board
DATE: March 26, 2003
FROM: Robert E. Blatner, Jr.
Regional Director
Region VI
SUBJ: Tooele FCU
Charter Number 05799
Location -- Tooele, Utah
Assets -- \$158 million

ACTION REQUESTED: Tooele Federal Credit Union (FCU) requests expansion of its community charter. Currently, it serves Tooele County, Utah and it requests approval to serve Davis, Morgan, Salt Lake, Summit, and Weber Counties, Utah.

DATE ACTION REQUESTED: April 24, 2003

OTHER OFFICES CONSULTED: The Office of General Counsel and the Office of Examination and Insurance.

VIEWS OF OTHER OFFICES CONSULTED: The Office of General Counsel concurs with the region's recommendation that the NCUA Board approve this expansion request and the proposed field of membership. The Office of Examination and Insurance also concurs with the region's recommendation to approve the credit union's request.

BUDGET IMPACT IF ANY: None.

RESPONSIBLE STAFF MEMBER: Regional Director Robert E. Blatner, Jr.

SUMMARY: This credit union requests expansion of its community charter to serve the residents of the above six counties. The area's 2000 population of 1,411,514 exceeds the regional director's delegated authority. The request meets the criteria established under IRPS 99-1, and conforms to Section 109 of the FCU Act.

With the existence of a single metropolitan statistical area covering most of the community's population, a single commonly shared religious belief, a dominant trade area, shared services, facilities, and events, the credit union provided sufficient evidence of community interaction and common interest:

- The U. S. Census Bureau has identified a portion of the community as the Salt Lake-Ogden Metropolitan Statistical Area (MSA). This MSA is about 50 miles long and between 30 and 15 miles wide. It has a year 2000 population of 1,333,914 and over 94 percent of the community's population resides within this MSA's boundary. This single MSA, with its tight proximity of community residents, provides compelling evidence of community interaction.

- The Wasatch Front Regional Council is a political organization serving either directly or indirectly all the counties of the community. This organization is composed of representatives from various municipalities and counties in the community, and the residents interact through the electoral process and share a common interest in the activities of this organization.

- Over 72 percent of the community residents are members of the Church of Jesus Christ of Latter-Day Saints. Many of these residents interact on a regular weekly basis (or more) because of this church affiliation. This common faith provides evidence of a community whose residents interact on a continual basis and hold deeply shared beliefs.

- Salt Lake City is the principal trade center for the community. All the major highways in the community conveniently lead to and connect with this city. As noted above, 94 percent of the residents can generally drive to the city within 30 minutes and this closeness promotes interaction.

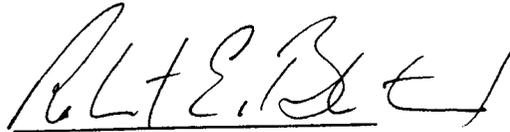

- There is one junior college and two four-year universities in the community. Combined, these three enrolled nearly 52,000 Utah residents of which 44,500 (86%) come from within community. The residents and students of the community share a common interest in the performance of these schools.

- Residents of the community share in the many social events and festivals held throughout the community, and use the community's publicly available services and facilities, allowing them to interact on a regular basis and to develop common interests.

- Documented independent evidence supplied by the credit union recognizes and supports the area is a distinct geographically well-defined, local community where residents interact and share common interests.

Tooele FCU is operationally capable of serving the community. Its business and marketing plans support the proposal to expand its community charter and its intent to serve the entire community.

RECOMMENDATION: The credit union's application established the area is recognized as a single, geographically well-defined, local community where residents share common interests and interact. The credit union is also capable of serving all segments of the community. The region recommends approval of the credit union's request for an expansion to its community charter to serve persons who live, worship, work, or attend school in, and businesses and other legal entities located in Davis, Morgan, Salt Lake, Summit, Tooele, and Weber Counties Utah.

Robert E. Blatner, Jr.
Regional Director

COMMUNITY EXPANSION PACKAGE

TOOELE FEDERAL CREDIT UNION

#05799

TOOELE, UTAH

TAB 1

Regional Summary

**REGIONAL SUMMARY
TOOELE FEDERAL CREDIT UNION (TFCU) #05799
COMMUNITY-EXPANSION COMPLIANCE WITH IRPS 99-1**

1. GENERAL BACKGROUND

FCU Name:	Tooele FCU	Charter No.	05799
Location:	Tooele, UT	Total Members:	29,351
Assets:	\$157,547,796	Potential Members:	40,735
Shares:	\$135,042,440	Penetration Rate:	72%
Loans:	\$135,496,372	Last Exam:	12/31/01
SE/EX:	Horton J. / Lamano B.	Camel:	(b)(8)

TFCU currently serves Tooele County, Utah. With this request they seek approval to expand their community charter and serve the combined community of:

Davis County,
Morgan County,
Salt Lake County,
Summit County,
Tooele County, and
Weber County, Utah.

Five of these counties form the Wasatch Front Regional Council, a metropolitan planning organization formed by the Utah State Legislature in 1969. In keeping with the unifying features of the council, this summary will refer to the community as the Wasatch Front community or the WF community. Lightly populated Summit County (population 29,736) is also included with this proposal. This county is geographically tied to the council and is an integral part of the WF community.

The WF community is a relatively small, somewhat isolated geographic area. Most of the land in the community is composed of uninhabited expanses of water, mountains, deserts, and forest, with much of it being owned by the government.

The vast majority of the residents live along a narrow 50 mile long by 15-to-30 mile wide transportation corridor centered around Salt Lake City. The Great Salt Lake and the Great Salt Lake Desert forms a natural barrier to the west which discouraged habitation, and the Wasatch Mountain Range to the east forms another natural barrier. The residents of the WF community have little choice but to look to Salt Lake City for their urban needs. The closest large metropolitan cities with comparable urban attractions to Salt Lake are Reno, Boise, Denver, or Las Vegas, and they are all over 500 miles away.

Summit County is included with this community proposal because of its geographic location, its close affiliation with the surrounding five counties, and affect the actions taken by the council have on this county. This county is a primary recreation center for residents of the WF community. Located less than 25 miles from the center of the community, Salt Lake City, it has some of the finest ski resorts in the United States, while offering summertime activities such as hiking and mountain biking.

There is clear interaction between the residents of Summit County and the residents of the other five counties. Many WF community residents travel to Summit County for its recreational opportunities, while the residents of Summit County must travel to Salt Lake City for their trade and financial needs.

With a population under 30,000, there are only limited urban services available to them. There are no major shopping malls and only one satellite office of another credit union. This credit union offers service only to certain select employee groups, and there is a need by the residents of Summit County for additional credit union service. For these reasons, (b)(4)

A review of the driving-time maps in Tab 3 clearly illustrates how the population in the community lives along Highway 15 or Interstate 80. By using these highways, most community residents can drive to Salt Lake City within 30 minutes. For this reason, the U. S. Census Bureau has identified a significant portion of the WF community as a single Metropolitan Statistical Area (MSA).

The residents within this community share similar demographics and a common religion. Over 72 percent of the residents are members of the Church of Jesus Christ of Latter-Day Saints.

The world headquarters for this religion is located in Salt Lake City, and many community members participate on a weekly basis (or more) in church sponsored activities. This common religious belief is a defining element of the WF community.

TFCU provided sufficient proof the six counties combined, form one geographically well-defined, local community whose residents share common interests and interact. TFCU also provided sufficient detailed documentation to evidence their claim.

The credit union is operationally capable of serving the community. Its business and marketing plan support the proposal to expand the community charter and serve all segments of the WF community.

The following analysis supports our conclusion:

- **History of the credit union** – This credit union was chartered in 1948 to serve the Benicia Arsenal in Benicia, California. In 1961, the credit union transferred its headquarters to serve the Tooele Army Depot in Tooele, Utah. In 1971, the credit union converted to a community charter and currently serves all the residents of Tooele County, Utah.

- **Proposal** – TFCU proposes to serve:

Persons who live, work, worship, attend school in, and businesses and other legal entities located in Davis County, Morgan County, Salt Lake County, Summit County, Tooele County, and Weber County, Utah.

- **Population of the proposed service area** – The 2000 combined census for the community is:

Davis County,	238,994
Morgan County,	7,129
Salt Lake County,	898,387
Summit County,	29,736
Tooele, and	40,735
Weber County, Utah.	196,533
Total	1,411,514

- **Reason(s) for the credit union's expansion request** – For the following reasons, TFCU is proposing this community charter expansion:

1. With an average family poverty level of nine percent, TFCU would like to bring credit union service to the underserved people within the WF community;
2. It is their position the residents of the WF community deserve a financial institution that is both member-owned and focused on serving the needs of the community; and
3. The credit union is proactively addressing its diminishing growth opportunity. Currently, the credit union serves 72 percent of Tooele County and has essentially saturated the market. This is a remarkable penetration rate for a community charter. Such a rate is a strong indication of the credit union's ability to attract new members and to flourish upon successful approval of this expansion request.

2. WELL-DEFINED AREA THAT IS A LOCAL NEIGHBORHOOD, COMMUNITY OR RURAL DISTRICT

A. Clearly defined geographic boundaries – As noted in the proposed field of membership, the geographic boundaries for the community are contiguous and clearly defined. TFCU also supplied maps outlining the community and identifying the geographic characteristics of the area.

B. Evidence of Local Community Interaction and/or Common Interests – With the existence of a primary trade center, a common regional planning district, shared services, commonly shared facilities and events, a common religion, and two area newspapers, the credit union provided sufficient evidence of community interaction and common interest.

- **Metropolitan Statistical Area:** The U. S. Census Bureau has identified a significant portion of the WF community as the Salt Lake-Ogden Metropolitan Statistical Area (MSA). This MSA is about 50 miles long and between 15 and 30 miles wide. It has a year 2000 population of 1,333,914 and over 94 percent of the WF community's population resides within this MSA's boundary.

U. S. Census Bureau statistics supplied by the credit union further confirm that many workers within the community live in one county, but commute to work in another. In particular, a large number of WF community residents commute from their respective counties to the trade and financial center of the community, Salt Lake City. This commute pattern provides documentation of community interaction.

As noted in the background section of the proposed changes to NCUA's Chartering Manual, the Office of Management and Budget defines an MSA as an area that has at least one urbanized area of at least 50,000 and "comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of local and economic integration with the central county as measured through commuting".

The identification of a significant portion of this community as a single MSA, coupled by the tight proximity of its community residents (where 94% live within 30-minutes of Salt Lake City) and their demonstrated intra-county commuting habits, provides compelling evidence of interaction among the residents of the WF community. (Tab 3, pages 1 - 11 & Tab 4A, pages 1 - 3)

Political Jurisdiction: The Wasatch Front Regional Council is a political organization serving all the counties of the community except Summit County. This organization is composed of the representatives from various municipalities and counties in the WF community.

Its purpose is to provide a forum for cooperation and coordination related to area-wide planning. This includes transportation planning, revenue production and taxation, solid waste management, protection of open space, air quality, and fostering relations with federal, state, and local government.

The Utah State Legislature created this organization in 1969, and the council consists of 16 elected officials representing the various local county governments and municipalities.

Because the issues the council deals with directly affect how each county delivers service and preserves the quality of life, the actions taken by the council are interrelated and interdependent. The planning process for the entire council is undertaken in the same manner as that of a single well-defined, local community.

While not a part of the council, the residents of Summit County are closely affected by the actions of the council. Summit County borders two of the counties, which make up the council, and the decisions taken by the council directly impact the lives of the residents of this lightly populated county.

The residents of the WF community interact through the electoral process by electing the representatives who sit on the council, and they share a common interest in the decisions and actions taken by the council. This provides strong support the combined counties form a well-defined local community where the residents interact and share common concerns. (Tab 4A, pages 4 - 5)

- **Community.Worship:** Over 72 percent of the WF community residents are members of the Church of Jesus Christ of Latter-Day Saints. Many of these members interact on a regular weekly basis (or more) because of this church affiliation.

In addition, the church sponsors a number of sub-organizations, which bring members together including:

- The Relief Society,
- The Young Men and Young Women programs,
- The Boy Scouts, and
- The Primary Program (dedicated to children under the age of 12).

On a broader scope, the church sponsors two major conferences held in the convention center in Salt Lake City. These conferences are open to all members and its programs are broadcast throughout Utah and worldwide. They also have a number of publications designed to communicate the church's ideals and goals to its membership.

This common faith, the number of church sponsored groups in the community, the consistent number of weekly events and activities held by the church, and the availability of publications devoted to its membership, provide compelling evidence of a community whose residents interact on a continual basis and hold deeply shared common interests and beliefs. (Tab 4A, pages 6 - 8)

- **Major Trade Areas:** Salt Lake City is the principle trade center for the proposed community. All the major WF community highways conveniently lead to and connect with this city. As noted above, 94 percent of the residents can drive to the city within 30 minutes.

Salt Lake City offers WF residents the broadest range of shopping opportunities available for community residents. Three malls are located in the downtown section and they feature 230 merchants with 42 dining establishments. These malls are within walking distance of each other and are near the Salt Lake Convention Center, the Delta Center, and historic landmarks such as Temple Square.

These malls are located on a light rail public transportation system and are within the "Downtown Free Ride Zone". Their convenient locations, linked with readily available transportation arteries, allow the malls to become great sources for community interaction and the promotion of shared common experiences¹.

- **Shared/Common Facilities:** The residents of the WF community share many facilities and services including:

Municipal Services

Airport: The only air carrier facility in the state is the Salt Lake City International Airport located in Salt Lake County. It is conveniently located within 45 minutes for most of the residents in the WF community. Last year, 19.9 million passengers used this facility.

Colleges: There is one junior college and two four-year universities in the WF community. Combined, these three enrolled nearly 52,000 Utah residents of which 44,500 (86%) came from the WF community. The following is a breakdown of the enrollment for the two universities:

¹ Note: The credit union made every effort to obtain statistical information demonstrating community interaction from the stores; however, the stores were not willing to share this information. This is understandable from a competitive perspective, as the stores do not want this proprietary information to be made available to the public or rival stores.

County	No. of Students	% of Students
University of Utah in Salt Lake County		
Davis County	2,090	8.29%
Morgan County	18	0.07%
Salt Lake County	13,110	52.00%
Summit County	370	1.47%
Tooele County	130	0.52%
Weber County	525	2.08%
Weber State University in Weber County		
Davis County	5,627	35.06%
Morgan County	250	1.56%
Salt Lake County	1,086	6.77%
Summit County	73	0.45%
Tooele County	57	0.36%
Weber County	6,231	38.82%

Proportional size of each county in the community

County	Population	Proportion
Davis County	238,994	16.9%
Morgan County	7,129	0.5%
Salt Lake County	898,387	63.6%
Summit County	29,736	2.1%
Tooele County	40,735	2.9%
Weber County	196,533	13.9%

As seen from these statistics, these two universities serve a significant number of students on a somewhat proportional basis from all six counties. This is evidence of community interaction and common interest as students are clearly willing to travel from one county to the other to attend classes, and the residents of the entire community share a common interest in the performance of these universities. (Tab 4-A, pages 9 - 14)

Hospitals: WF community residents share three major regional medical centers: the LDS Hospital, the Primary Children's Medical Center, and the University of Utah Hospital. As seen on the Wasatch Front Regional Hospital Usage report, these three hospitals (as well as other secondary hospitals) serve a wide mixture of community residents from the various counties that make up the WF community. This usage report demonstrates the interaction of community residents. (Tab 4A, pages 15 - 16)

Community Facilities: The Salt Palace Convention Center, the Delta Center, and the E Center are all located in Salt Lake City. These are the only large arena/convention centers available to the residents of the WF community. Their location in Salt Lake City promotes strong community interaction as residents share in the use of these facilities. (Tab 4A, pages 17 - 20)

Festivals and Events

There are a number of entertainment events and festivals taking place throughout the WF community. Such events include:

The 2002 Winter Olympics: The International Olympic Committee selected Salt Lake City as the host of the 2002 Olympic Games. The games were held at nine sites in the WF community and 18,000 WF residents participated in the various Olympic venues as event volunteers. According to local Olympic officials, nearly 80 percent of all event volunteers were residents of the WF community. This is compelling evidence of community interaction. (Tab 4A, page 21 - 23)

Sporting Events: The high schools in this community participate in intramural sports leagues. These leagues are composed of schools in all six counties and their events are frequent sources of interaction for the participating athletes, the parents, sports enthusiasts, and for the students themselves. (Tab 4-A, pages 24 - 25)

Professional Sports: Salt Lake City is home to the Utah Jazz, a National Basketball Association franchise. The city is also host to a minor league hockey team, a triple A baseball team, a women's basketball team, and an in-door soccer team.

As seen from the documented evidence, the fans and commercial contributors for the teams are located in all six counties, and these franchises could not survive without their support. The common interest generated by each of the franchises, and the location of the various facilities in central Salt Lake City, encourages interaction as the residents attend the various games in the city. The teams also promote shared common interest as the fans follow their sports' progress. (Tab 4A, pages 26 - 29)

Performing Arts: Salt Lake City is also home to the Utah Opera, the Utah Symphony, the Salt Lake Symphony, and the Ballet West. These cultural assets are located in central Salt Lake City, and attendance at their performances promotes community interaction and shared common experiences. (Tab 4A, pages 33 - 31)

(Note: The professional sports teams and the performing arts organizations are located only in Salt Lake City. Their location in this central city means the outlying WF community residents must come to Salt Lake City to attend their events and/or performances. As such, these organizations are also strong sources of community interaction.)

Fair: The Utah State Fair in Salt Lake County attracts up to 280,000 visitors annually. Located in Salt Lake City, this fair is easily accessible to the residents of the WF community and is a great source for community interaction.

Festivals & Public Events: As seen below, the community also has a number of festivals and public events held in various counties throughout the community. Residents from all parts of the community take part in such events as the:

- Morgala Days in Morgan County attracts up to 25,000 residents from the surrounding community for its festival and rodeo;
- Summerfest in Weber County brings together 65,000 people to a five block area in Ogden for Utah's largest single day event;
- The Hill Air Force Base puts on a spectacular air show in Davis County attracting over 100,000 local residents;
- Pioneer Day held in Salt Lake County commemorates Utah's first pioneers and its parade is so popular it is televised throughout the WF community;
- The world renowned Sundance Film Festival is held in Summit County, drawing residents from throughout the WF community; and
- The Tooele Arts Festival held in Tooele County is a three-day celebration allowing art, music, and culture to come together.

Each of the above shared service facilities, attractions, events, and festivals allow community residents to interact and to develop common interests. These events are a strong source of community interaction as residents attend the many public celebrations, and they clearly display the common interests of the community. (Tab 4A, pages 33 - 34)

• **Organizations and Clubs:** The application provided a number of clubs and organizations, which enhance the quality of life, promote interaction, and develop shared common experience.

As an example:

- The Boy Scouts of America Great Salt Lake Council coordinates the boy scout activities throughout most portions of the community; and
- The Girl Scouts of Utah coordinates girl scout activities throughout the state;

Other non-profit organizations include the:
Salt Lake Symphony,
American Red Cross,
Retired and Senior Volunteer Program,
Utah Opera,
Lions Club,
Rotary Club, and
Chamber of Commerce.

- **Media:** There are two daily newspapers with WF community-wide circulation. *The Deseret News* and *The Salt Lake Tribune*. The combined daily circulation of these two newspapers is over 200,000 delivered daily across the WF community.

Each newspaper publishes calendars, which include activities in all six counties. These publications emphasize the local nature of the community. It also underscores the common interests of the residents, and the likelihood there is significant interaction at these listed activities. Such circulation in the community provides compelling evidence of the existence of a local community. (Tab 4A, pages 35 - 37)

Based on the above characteristics, the community is one well-defined, local community where residents interact and share common interests.

3. OVERLAP ANALYSIS

N/A. There are no new federally chartered or federally insured credit unions in the community. All of the credit unions have been in existence longer than two years.

4. BUSINESS/MARKETING PLAN

- **Current financial statements, including the income statement and a summary of loan delinquency** – TFCU provided a financial statement as of December 31, 2002.
- **Pro forma financial statements for the first two years after the proposed expansion** – The following chart shows historical performance for selected ratios from 1998 through December 2002, along with projections for the next two years.

As seen from these ratios, TFCU has been able to maintain an ROA of one percent or better for the past four out of five years. This level of net income allowed the credit union to maintain its strong net worth in spite of significant asset growth.

(b)(5), (b)(8)

This performance demonstrates management's ability to budget and plan operations in a safe and sound manner, as well as respond to external factors impacting the credit union's financial condition. The above chart reflects management's ability to maintain strong ratios despite the local economy and interest rate environment.

(b)(5), (b)(8)

The results show that TFCU can handle the anticipated affects of the expansion.

- **Detailed marketing plan addressing how the community will be served** – The credit union has a well-developed marketing plan and calendar to reach all segments of the community.

(b)(4)

A central objective of the officials is to maintain a balanced mix of share and loan business. They also want their members to use the multiple products and services offered by the credit union.

TFCU is firmly committed to serving the underserved segment of the WF community by offering fairly priced products and services. It is their plan to develop credit union promotions aimed at improving the financial stability and credit strength of the community. The credit union and its staff will also continue its strong commitment to civic, trade, and non-profit organizations whose purpose is to benefit the lives of community residents.

(b)(4)

The marketing plan is well thought out and comprehensive.

- **Financial services to be provided to members** – TFCU is committed to maintaining quality service to the community, and is sensitive to meeting the needs of all persons within its field of membership. They are a full-service credit union², and their financial services are designed to meet the needs of both the underserved and the community at large.

The credit union has a history of serving persons of low-income. Originally chartered to serve an army depot in California, it later moved its headquarters to Utah to further serve the military and the community of Tooele County, Utah. TFCU continues to serve this low-paid group, and approval of this community expansion request would allow the credit union to reach various other low-income groups in the WF community.

Officials instituted a risk-based lending program allowing members with poor credit history to obtain loans. Besides offering a wide variety of loan and share products, the credit union offers:

- Free regular share drafts with no monthly service fee, no minimum balance, and no per check charge,
- Small Saver Certificate programs,
- IRA small contribution accumulation accounts,
- 100 percent auto financing,
- Debt consolidation loans,
- No annual fee Visa cards,
- Free ATMs (at TFCU and Co-op owned ATMs),
- Free travelers checks,
- Low-cost money orders, and
- Free financial planning seminars.

TFCU also offers member-counseling services that emphasize such topics as budgeting, check balancing, and maintaining good credit.

TFCU is committed to technology that will improve financial service delivery systems including ATMs, audio response, credit union website, home banking, bill payment, and debit cards. These tools enhance the credit union's ability to serve an expansive community-based field of membership. < (1) /

(b)(4)

The current level of service will satisfy community residents.

² Full service is defined as a variety of share accounts (regular, club, and children), share drafts, share certificates, and IRAs; a variety of consumer loans (auto, new and used, signature, recreation, etc.), real estate loans, home equity loans, and credit cards; ATM and debit cards.

(b)(4)

The current and proposed branch locations effectively cover the WF community boundaries. These locations, and the remote delivery systems, are sufficient to serve the community.

- **Anticipated financial impact on the credit union in terms of need for additional employees and fixed assets** – TFCU has been very proactive within its current field of membership. They opened two full-service branches and achieved a remarkable 72 percent penetration rate for a community charter.

(b)(4)

Adding to this, TFCU will have additional depreciation expenses for normal capital expenditures of \$300,000 in 2003 and \$1.5 million for the new branch in 2004. However, actual depreciation expense will decline for these periods as the credit union's computer system becomes fully depreciated.

(b)(5),(b)(8)

5. CREDIT UNION'S CURRENT FINANCIAL CONDITION

(b)(5),(b)(8)

Management demonstrates an ability to manage the credit union's operations in a safe and sound manner, as well as implement appropriate strategies to achieve targeted goals and benchmarks. With the expansion, officials have adequate plans to market the credit union's services to the entire community, including those groups now underserved. The credit union is financially and operationally sound and the proposed plan is economically advisable.

6. REGIONAL RECOMMENDATION

TFCU provided all the documents necessary for expansion. Their application demonstrates and provides evidence the community has clearly defined geographic boundaries, and it is a local community whose residents interact and share common interests. The credit union also demonstrated its intent and ability to serve all segments of the community.

This action exceeds the delegated authority of the regional director under CHA 3B. The region recommends the NCUA Board approve TFCU's request to expand its community charter and serve persons who live, work, worship, attend school in, and businesses and other legal entities located in Davis County, Morgan County, Salt Lake County, Summit County, Tooele County, and Weber County, Utah. The Office of General Counsel and the Office of Examination and Insurance have reviewed the administrative record and provided their concurrences for this proposed action.

TAB 4

**Evidence the Proposed Community is a Well
Defined Area**

"Building Your Dreams"

December 6, 2002

Mr. Robert E. Blatner, Regional Director
National Credit Union Administration – Region VI
2300 Clayton Road, Suite 1350
Concord, CA 94520

Dear Mr. Blatner:

We are pleased to present this proposal as our request for Tooele Federal Credit Union to expand its community charter to serve Tooele, Salt Lake, Davis, Weber, Summit and Morgan Counties, Utah. This charter expansion would allow those persons who live, work, worship, go to school in, businesses and other legal entities located in those counties to have the benefit of our many services.

We believe that our proposed single well-defined community meets the requirements of the National Credit Union Administration based upon any one the following three separate criteria.

Regional Planning District

This area known at the Wasatch Front Region, with the exception of Summit County, is served by the Wasatch Front Regional Council (WFRC), a regional planning organization. Summit County, though not a member of the WFRC, has many ties to the other five counties which we believe allows the six counties to meet the National Credit Union Administration's definition of a single well-defined community where people interact and share common goals and interests.

The WFRC regional planning council, which was formed by the Utah State Legislature in 1969, is classified by the Internal Revenue Service as a Public Non Profit Corporation.

As you are aware, the NCUA Board having determined that similarly requested multi-county governmental organizations are a "well-defined

community” as outlined in IRPS 99-1, as amended, granted similar type multiple county areas as a community field of membership to Robins Federal Credit Union, MidSouth Federal Credit Union, Columbia (SC) Teachers Federal Credit Union and General Electric Employees of Rome Federal Credit Union.

Religious Commonality

The vast majority of WFR residents also share a common religion. Over 73% of the WFR residents are members of The Church of Jesus Christ of Latter-Day Saints also known as The LDS Church. World Headquarters for the LDS Church is Salt Lake City, Utah. The church members share common beliefs, activities and work within the WFR community. The LDS membership by itself forms the basis for a single well-defined community.

Geographic Isolation

The WFR is a relatively small geographic area which is surrounded by large expanses of water, mountains, deserts, and forests – with most of these boundaries owned and/or controlled by various governmental agencies. The nearest metropolitan areas are over 500 miles away. Such unusual and well-defined geographic isolation by itself forms the basis for a single well-defined community.

In the proposal you will find our business plan with financial projections that show Tooele Federal Credit Union can handle the proposed community financially and administratively without a negative impact on our operations or financial condition. The proposal also contains a comprehensive marketing plan that demonstrates how we plan to serve the requested area.

We strongly believe that approval of this request will be beneficial not only for our credit union, but for the six county community and its citizens as well.

Tooele Federal Credit Union presently has three full service branch offices, with one more to be added within the next 24 months, and eight full-service shared branches, five of which are located within the WFR. In addition, Tooele Federal Credit Union owns six ATMs and offers their members the convenience of 211 surcharge-free Co-Op Network ATMS located throughout the WFR. Other facilities and surcharge free ATMs will be added as increased business activities warrant. Tooele Federal Credit Union

also offers a full menu of services delivered conveniently via electronic means.

Our credit union is a proud corporate citizen as shown by our participation in many community activities. In addition, we encourage our individual employees to participate in various activities to make our community a better place to live and raise a family. A listing of our corporate and employee community activities, that goes back many years, is enclosed for your edification.

We sincerely believe that we have complied with all National Credit Union Administration regulations, Interpretive Ruling and Policy Statements and policies.

Both Tooele Federal Credit Union staff and Allen Carver, our consultant, have been talking with Eric Jacobsen of your staff for at least the past twelve months. Mr. Jacobsen has been most helpful and we would appreciate his being allowed to continue working with us.

If you find you need additional information to support our request, or if you have any questions, please feel free to contact Allen Carver of O'Rourke Consulting at (770) 587-6910.

Sincerely,

Steven D. Christensen
President/CEO
Tooele Federal Credit Union

Tooele Federal Credit Union Community Charter Expansion Request

Tooele Federal Credit Union (TFCU), charter 05799, respectfully requests permission to amend our charter in order to serve **all** persons who live, work, worship, or attend school in, businesses and other legal entities located in Tooele, Salt Lake, Davis, Weber, Summit and Morgan Counties, Utah also commonly known as, and will be referred to in this proposal as, the Wasatch Front Region (WFR).

TFCU's Board of Directors submits this document in support of its request, in accordance with the National Credit Union Administration's (NCUA's) Chartering and Field of Membership Manual. This document includes TFCU's current financial statements, which indicates that our credit union has performed well financially and has built a strong capital and reserve base. TFCU has a long history of being guided by competent and committed employees and volunteers. This proposal includes a description of the community, as well as details about community interaction, that we believe demonstrates our conviction that the WFR is a well defined, unified, closely-knit community.

In addition, we have included a business and marketing plan for implementing the proposed expansion, allowing for expenditures, to serve the entire WFR area.

As you are aware, the NCUA Board having determined that similarly requested areas are a "well-defined community" as outlined in IRPS 99-1, as amended, recently granted similar type multiple county areas as a community field of membership to Robins Federal Credit Union headquartered in Warner Robins Georgia, MidSouth Federal Credit Union of Macon Georgia, Columbia (SC) Teachers Federal Credit Union of Columbia, South Carolina and even more recently to General Electric Federal Credit Union of Rome Georgia.

We believe that TFCU can make a difference in the lives of individuals and families within the proposed community, and would welcome the opportunity to offer them reasonably priced and needed financial products and services.

Reasons For Expansion Request -

TFCU is proposing this community charter expansion for three primary reasons:

- ↳ First, TFCU would like to bring its many services to the underserved people in the WFR. With an average family poverty level of 9% within the WFR, we strongly believe that there is a need for the products and services offered by TFCU for this segment of the population.

- ↳ Second, TFCU is seeking this expansion based on the needs of the WFR. The citizens of the WFR deserve a financial institution that is member/consumer owned, and is focused and available to serve the needs of all individuals. By amending its charter, TFCU will be able to offer the same outstanding level of member services and products currently enjoyed by current members to the entire WFR community.

- ↳ Third, TFCU would like to proactively address the diminishing growth opportunities in our current field of membership. As indicated in our most recent 5300 Call Report (March 31, 2002), our 28,841 current members represents a penetration of nearly 74% of our estimated potential membership of 39,000. We believe the ability to attract new members is a must to maintain a proper balance of borrowers and savers. With an expanded community charter TFCU will be able to maintain long-term financial stability and strength, while offering members convenient, reasonably priced financial products and services.

The Wasatch Front Region – A well-defined community

Community Overview –

The term, Wasatch Front Region (WFR), is used to describe a geographic area of Utah that we believe meets the National Credit Union Administration's requirement for constituting a single well-defined community. Furthermore, we believe that the WFR is proven to be a single well defined community based upon three separate criteria as follows:

- **Regional Planning District**
- **Religious Commonality**
- **Geographic Isolation**

Regional Planning District

Wasatch Front Regional Council serves all but one of the requested WFR counties. Such regional councils formed the basis of the National Credit Union Administration Board's approval of similar community charters for Columbia (SC) Teachers Federal Credit Union, General Electric Employees of Rome Federal Credit Union, Robins Federal Credit Union, Central Virginia Community Federal Credit Union and Mid South Federal Credit Union.

The WFR has been specifically designated and recognized by the Utah State Legislature as a well-defined community in an effort to provide multi-faceted technical and financial assistance to individuals, families and businesses who reside within its boundaries.

WFR residents share numerous common resources, including medical, educational, employment and trade. The overwhelming majority of residents work, worship, shop, attend school, and/or reside within the boundaries of the six counties.

Additionally, there are numerous community-based facilities, organizations, and special events in the WFR that offer residents an opportunity to interact with one another. These organizations are an integral part of the community and represent a variety of interests within the WFR.

Located in Salt Lake County, Salt Lake City (population 181,743) is the geographic, economic, trade, and cultural hub of the WFR, as well as the largest incorporated population center. Salt Lake City is followed by the City of Ogden (population 77,286), and the City of Layton (population 58,474) rounding out the top three population centers within the WFR.

It is our firm belief that Summit County Utah, while not technically part of the Wasatch Front Regional Council, is an integral part of the WFR for several reasons including its contiguous geographic position to the other five WFR counties, shared common public resources, such as transportation, health care, education and media, along with the fact that the vast majority of county residents share the same common trade area – Salt Lake City. It is important to note that Summit County is “unbanked” with very few bank branches and only one small storefront credit union branch serving several relatively small select employee groups.

We strongly believe that the WFR is a single, separate, geographically well-defined community where citizens interact on a frequent basis, as well as share common goals and interests.

The WFR includes the following six Utah counties: Tooele, Salt Lake, Davis, Weber, Summit and Morgan.

We also believe that this six county geographic area meets NCUA regulatory definitions and requirements and could be qualified separately as a “well-defined community” based up the following two compelling factors:

Religious Commonality

The vast majority of WFR residents also share a common religion. The Mormon religion, or as referred to in this request as the Latter-Day Saints (LDS) church, is a driving force within the WFR community and a strong “tie that binds” area residents to each other. LDS, also known as The Church of Jesus Christ has its world headquarters Salt Lake City. In the WFR the LDS has four temples, representing 256 stakes. Each stake contains 4,000 church members. This means that of the 1.4 million residents of the WFR, 1.024 million (over 73%) are members of the LDS sharing in common beliefs, activities and work within the WFR community. LDS membership by itself forms the basis for a single well-defined community.

Geographic Isolation

The vast majority of the 1.4 million residents of the WFR live, work, and worship within the confines of a relatively small geographic area which is surrounded by large expanses of water, mountains, deserts, and forests – with most of these geographic boundaries owned and/or controlled by various governmental agencies. The nearest major metropolitan areas to the WFR are Denver Colorado, over 500 miles by road, and Sacramento California over 650 miles away. **The relative geographic compactness of the WFR when combined with its geographic isolation due to being surrounded by governmental controlled land and being over 500 miles from the nearest metropolitan area by itself forms the basis for a single well-defined community.**

Community Boundaries -

The WFR is made up of six contiguous counties located in the northwestern quadrant of Utah. The WFR area is bordered by Weber County on the north; Tooele, County on the west; Summit County on the east; and Salt Lake County on the south.

Population Demographics -

<i>COUNTY</i>	<i>2000 POPULATION</i>	<i>LARGEST CITY</i>	<i>CITY POPULATION</i>
DAVIS	238,994	LAYTON	58,474
MORGAN	7,129	MORGAN	2,635
SALT LAKE	898,387	SALT LAKE CITY	181,743
SUMMIT	29,736	PARK CITY	7,371
TOOELE	40,735	TOOELE	22,502
WEBER	196,533	OGDEN	77,286
<i>TOTAL WFR POPULATION -</i>		<i>1,411,514</i>	

History –

In order to describe the WFR and the six counties it represents, it is first necessary to relate the history of those who settled Utah and its capital, Salt Lake City. The settlement of Salt Lake City was atypical in relation to the development of the western United States. The people who founded the city in 1847 were Mormons, members of the Church of Jesus Christ of Latter-Day Saints. They did not come as individuals acting on their own accord, but as a well organized, centrally directed group.

The extent of early Mormon pioneer unity can be, and often is, overstated. Even so, for the first few years of settlement, it was Salt Lake's most dominant feature. Gradually and then more rapidly, however, the city and state began to change. The completion of the transcontinental railroad in 1869 and subsequent access it brought to the area ended its geographic isolation. Its economy diversified and integrated into the national scope. Mining and smelting became leading industries.

A business district, for which there was no provision in the original city plan, began to emerge in Salt Lake City. A working-class ghetto took shape in the area near and west of the railroad tracks. Urban services developed in much the same time and manner as in other United States cities.

By the beginning of the twentieth century, Salt Lake was a relatively modern city. Main Street was a maze of wires and poles; an electric streetcar system served 10,000 people a day. Full-time police and fire departments operated, four daily newspapers were published, 10 cigar factories flourished, and a well-established red light district took hold in the city center. The population became increasingly diverse. In 1870, more than 90 percent of Salt Lake's 12,000 residents were Mormons. Over the next 20 years, however, the non-Mormon population grew approximately three times as rapidly. By 1890, half the city's 45,000 residents were non-Mormons. A substantial number of the 20,000,000 immigrants to enter the United States in the late nineteenth and early twentieth centuries found their way to Utah.

Since Utah was urbanized at a rate comparable to the rest of the United States, Salt Lake faced the same industrialization problems, and the community responded in similar ways. During the Progressive Era, for example, it established a regulated vice district on the west side, undertook a city beautification program, and adopted the commission form of government in 1911.

The entire WFR community languished through the 1920s, as the poor mining and agriculture conditions affected its prosperity. The Great Depression of the 1930s hit Utah harder than the nation as a whole. The Wasatch Front correspondingly suffered, making clear its close relationship with the world around it and its vulnerability to the fluctuations of the national economy. New Deal programs were therefore important in the tight-knit communities of the WFR.

World War II brought local prosperity as defense industries proliferated in the WFR. Throughout the post-war period, these industries remained important and, by the early 1960s, Utah had the most defense-oriented economy in the nation. The state has remained in the top 10 ever since. During the 1950s, a number of important capital improvement projects were undertaken, including a new airport terminal, improved parks and recreation facilities, upgraded storm sewers, and construction of the city's first water-treatment plants.

As a move to the suburbs, and to other cities and areas of the Wasatch Front began, the city's population grew slowly, increasing by only four percent through the 1950s. Features of the period since 1960 include further enhancement of the city as the communications, financial, and industrial center of the Intermountain West; a declining population within the actual city boundaries (down 14 percent between 1960 and 1980); the movement of both people and businesses to the suburbs and neighboring areas of the WFR as the extended community's population continued to increase; some decaying residential neighborhoods and a deteriorating downtown business district; the development of a post-industrial economy; and the rise to national prominence of the Utah Jazz professional basketball team and of such cultural organizations as the Utah Symphony and Ballet West.

The Wasatch Front Regional Council – A Shared Common Service Organization –

The Wasatch Front Regional Council (WFRC) is an organization operating within the WFR which provides extensive programs, services, and assistance to area residents, and serves as one of the major cohesive factors and compelling arguments as to why the requested WFR area is a well-defined community.

The WFRC is charged with determining appropriate standards for development and natural preservation and other regional issues.

In particular, the WFRC looks at the emerging and present needs of the various communities comprising the WFR in such areas as transportation, revenues and taxation, solid waste management, protection of open space and air quality, annexation and incorporation, and relations with federal, state, and local governments.

Because these issues directly affect how each county within the WFR delivers services and preserves quality of life, they are interrelated and interdependent. The planning process for the entire WFR is therefore undertaken in the same manner as that of one single well-defined community supporting our premise that the WFR is a single well-defined community.

WFRC History –

In 1970 the state of Utah established seven Associations of Government (AOGs) to assist with multi-county planning, program integration, and optimization of economies of scale. The WFRC, one of these AOGs, originally included Davis, Salt Lake and Webber Counties with Tooele and Morgan added within two years.

WFRC Structure –

Membership in the WFRC includes each of the five counties along with the municipalities within the WFR with each county and municipality given a voice in the planning, approval, and implementation of programs.

WFRC Programs -

Major programs administered by the WFRC fall into the following major categories:

- ✦ ***Community Development***
- ✦ ***Community Housing***
- ✦ ***Transportation***
- ✦ ***Air Quality***
- ✦ ***Long Range Planning***

Additional information for each of these major program categories is included in the section of this proposal titled – *WFR Supporting Community Information*

Summary – WFRC Service to the WFR –

Over the past three decades no organization has had the binding impact on the residents of the WFR like the WFRC.

The WFRC has had a positive, material impact on the entire community in several key areas of life including housing, air quality, community growth, transportation, infrastructure development and long range planning.

As individual community leaders within the WFRC meet and plan on a regular basis, much like the mission of credit unions, the well being of the entire WFR community as a whole and its residents is their #1 priority.

Community Facilities, Organizations, And Special Events -

The WFR offers numerous facilities, organizations, and special events that are available for the entire community to participate in and enjoy. Solid membership and strong participation in the many available activities is sound evidence of community cohesiveness and common interest

The following is a brief summary of three of the largest facilities available to all WFR residents:

Salt Palace Convention Center - The Salt Palace Convention Center is the premier convention and meeting facility in Salt Lake City and the state of Utah. The center opened in 1996 and was expanded thereafter. The remodeled facility opened in November 2000 and features 369,277 gross square feet of exhibit space, a 45,000 square foot ballroom, and 54,000 square feet of additional meeting space. The Salt Palace Convention Center has hosted 153 conventions since opening in 1996.

Delta Center - The Delta Center began operation in October 1991 and is the largest arena within the five-state radius of Utah, Nevada, Idaho, Wyoming, and Colorado. The arena's capacity is 20,400 people. Though it has primarily been identified as the home of the National Basketball Association's Utah Jazz franchise, the facility hosts numerous events, including most major touring concerts, rodeos, ice shows, family shows, circuses, motor sports, hockey, and large conventions. These events draw regular visitors from all five Wasatch Front counties. The Delta Center has played host to many national and international competitions, as well as other major media events, such as the 1993 NBA All-Star Game. An added feature to the building is nearly 44,000 square feet of banquet and multi-purpose facility space.

Located downtown Salt Lake City, Salt Lake County, the Delta Center is near shopping venues, restaurants, theaters, and nightclubs. Abundant first-class and economy hotels, including many major chains, are in close proximity to the Delta Center. There are 3,500 committable rooms within walking distance of the facility and 7,000 additional committable rooms in the Salt Lake Valley. The Salt Palace Convention Center, with 54,000 square feet of meeting space, is located two blocks east of the Delta Center.¹

E Center - Located west of Salt Lake City in Salt Lake County, the E Center features seating for more than 10,500 people.¹ The E Center was designed as the home for the two-time International Hockey League Champion Utah Grizzlies and the World Indoor Soccer League's Utah Freezz. The center was the site of the 2002 Olympic Winter Games ice hockey and speed skating events.

The E Center combines the modern amenities of a large arena with the service and intimacy of a small theater. Within the facility is the unique Sprint PCS Theatre, which seats audiences as small as 3,700.

In addition to sporting events, the E Center is a leading entertainment venue for the Intermountain West, hosting nationally known concert acts and touring shows throughout the year.

Other unique features of the center include an in-house restaurant, The Wasatch Grille, which offers service before and after events. There is also more than 10,000 square feet of meeting space available, in addition to the 17,000 square foot arena floor.

These three WFR facilities help to promote strong community interaction as a result of shared community facilities. As indicated by officials for each of the facilities thousands of WFR residents utilize the three facilities year around for a wide range of events.

Numerous organizations in the WFR enhance the quality of life and provide assistance to WFR residents, and are supported by individuals throughout the community. They are non-profit and are operated by community volunteers and contributions. A partial list of these organizations includes:

- ☞ Salt Lake Symphony
- ☞ Boy Scouts of America
- ☞ Girl Scouts of America
- ☞ American Red Cross
- ☞ Retired and Senior Volunteer Program
- ☞ Utah Opera
- ☞ Lions Club
- ☞ Rotary Club
- ☞ Chamber of Commerce

The Salt Lake Symphony was founded in 1976, and is one of the WFR's most highly respected and artistically astute volunteer-driven orchestras. The Salt Lake Symphony is a non-profit organization dedicated to performing quality classical music concerts for residents of Wasatch Front communities. Now in its 24th year, the Symphony performs approximately 15 concerts per year.

The Utah Opera is another example of the WFR's commitment to cultural development. The organization strives to serve the residents of the entire WFR community, regardless of age and geographic location. Each year, the company performs for over 80,000 students in Salt Lake City's Capitol Theatre and in schools across the Wasatch Front.

The following special events draw people from throughout the WFR community and contribute to a cohesive, close-knit community:

- ☞ Utah State Fair
- ☞ Utah Symphony Series
- ☞ Utah Jazz Basketball
- ☞ Deseret News Marathon
- ☞ Ballet West Series

The Utah State Fair annually attracts up to 330,000 visitors, including more than 12,000 Wasatch Front students who attend with their school groups. Not much has changed in the way of exhibits since the first fair in 1856. Produce, livestock, home arts, and canning goods are still the main items displayed. In recent years an art exhibit was added, which showcases paintings and sculptures. Other additions include a children's exhibit and a photography exhibit. Cooking demonstrations and contests are also popular, and the fair holds approximately 20 of these each year. Cash premiums as well as ribbons are awarded to the winning entries. In 1988, the Professional Rodeo Cowboys Association (PRCA) event was brought into the fair's lineup and annually draws thousands of residents from all six Wasatch Front counties. Working to promote Utah products, the fair also hosts a variety of events sponsored by the Utah Dairy Council, the Utah Beef Council, the Utah Wool Growers, and the Utah Farm Bureau.

Major Trade Areas –

The vast majority of retail business outlets in the WFR are located in the greater Salt Lake City metropolitan area allowing WFR citizens to interact while patronizing these shopping areas on a regular basis.

Shopping by WFR residents in Salt Lake City is further facilitated by its central location and aided by the fact that all major WFR highways conveniently lead to and connect in Salt Lake City.

The Salt Lake City area offers the WFR residents the broadest range of shopping opportunities. Residents can choose from a number of shopping centers, downtown businesses, and developments that encompass restaurants, theaters, and other entertainment venues, as well as local and national retail establishments. With the development of light rail transportation (TRAX) in Salt Lake County and the planned establishment of commuter rail stretching from Box Elder County in the north to Utah County in the south, the accessibility to quality shopping in the WFR will be unparalleled in the Intermountain West.

Salt Lake's downtown malls, Crossroads Plaza and ZCMI Center, are located in the central city and are within walking distance of historic landmarks such as Temple Square and national convention and entertainment venues such as the Salt Palace Convention Center and the Delta Center, home of the Utah Jazz. Together, the malls feature 230 merchants, including Meier & Frank, Nordstrom, Mervyn's, nine levels of fashion and specialty stores, personal services, and restaurants. Forty-two dining establishments complement the shopping possibilities. The downtown malls are located directly on the TRAX (light rail public transportation) north-south line at the City Center Station, within the Downtown Free Ride Zone.

The new \$375 million Gateway Center will convert 40 acres bordering the west side of downtown Salt Lake City into 2.4 million square feet of retail, office, residential, and entertainment space.

Media –

Newspaper – The WFR is home to two daily news publications with WFR wide circulation – *The Deseret News* and *The Salt Lake Tribune*. The combined daily circulation of these two newspapers is over 160,000

Radio – 18 radio stations operate with the WFR offering residents a wide variety of entertainment and community service information.

Television – The WFR has five locally based television stations and two cable options.

Transportation –

Highways – Interstate I-80 and I-15 provide the primary road access to WFR residents, connecting all metropolitan centers within the WFR and intersecting in Salt Lake City.

Public Ground Transportation - Greyhound Bus Lines, with a full service terminal in Salt Lake City, provides daily ground transportation in and out of the WFR.

Light Rail – The TRAX light rail transportation system, currently operating in Salt Lake County will in the near future provide WFR residents with a low cost commuter rail system stretching throughout the WFR.

Airport – The only air carrier facility in the state of Utah, Salt Lake City International Airport is located five miles northwest of downtown Salt Lake City. The airfield consists of three air carrier runways and a general aviation runway. This airport is also a major source of commerce and employment for the entire Wasatch Front community.

Salt Lake International Airport is the 44th busiest airport in the world, according to AIR wise news. More than 19,900,000 passengers used the Salt Lake City International Airport to travel in 1999. The Salt Lake International Airport is conveniently located within 45 minutes of all residents of communities all along the Wasatch Front.

Community Worship –

WFR community values regarding religion play an important part in the area's family-oriented lifestyle. Every major denomination is represented within the WFR community churches. This diversity and commitment to spiritual values provides a solid foundation for residents to interact and build upon.

It is particularly noteworthy that Salt Lake City is headquarters for the Church of Jesus Christ of Latter-Day Saints (LDS). The following information pertaining to the LDS church lends further support to our belief that the WFR is a single well-defined community since the vast majority of WFR residents interact on a regular basis based upon church affiliation:

- ✓ Utah's Population at 2,233,169 with church membership at 1,605,000 in Utah. 73% of WFR residents are members of the LDS Church.
- ✓ The LDS Church has two conferences (one in April & one in October) every year that all members are invited and encouraged to attend. The conferences are held at the conference center in Salt Lake City and is broadcast to stake and ward houses throughout Utah and worldwide.
- ✓ In the WFR the LDS church has four temples and each has its temple district. Each temple district has a number of stakes (stakes are comprised of usually eight wards – wards are the actual congregations usually comprised of about 500 church members.
- ✓ The LDS Church reports there are 3,747 congregations in the state of Utah. **Using the temple districts and their associated stakes we have accounted for 2,048 congregations located in the six county areas with a total membership of 1,024,000.**
- ✓ Besides just the congregations themselves, there are many sub-organizations that exist and relate to each other. They are the Relief Society – a women's organization; the Young Men and Young Women's programs – young men & women between the ages of 12 and 18 which includes the Boy Scouts of America program the church sponsors nationwide; the Primary program – an organization that is dedicated to children 12 and under. Each of these programs correlates with each other to support the overall goals of the church.
- ✓ The LDS Church has several publications that church members receive. They are: The Church News that is distributed weekly as a section in the Deseret News; the Ensign which is a magazine distributed monthly to church households; the New Era, a magazine designed for the young men and women age groups distributed monthly; and the Friend which is a magazine designed for primary aged children distributed monthly. Again, each of the above publications is designed to communicate the LDS Church's ideals and goals to its membership.

Health Care –

WFR residents enjoy the benefit of having three outstanding local/regional health care facilities – LDS Hospital Morgan Memorial Hospital, Primary Children's Medical Center and University of Utah Hospital. All three facilities are conveniently located to the vast majority of WFR residents with numerous clinics and medical offices nearby, providing comprehensive health care access and services to WFR residents. As indicated in the supporting community information, the vast majority of individuals receiving health care services at all three major medical facilities are WFR residents.

Institutions Education -

The following institutions of higher education, located in the WFR area, attract students from throughout the WFR area by offering a wide range of academic and technical training programs.

-  University of Utah
-  Weber State University

As indicated in the supporting information section of this request, the vast majority of students enrolled in WFR institutes of higher education are WFR residents.

High School Sports –

Area sports organizations, teams and events play an important role in the lives of many WFR residents. At the high school level, area teams enjoy strong community support. Area high schools all offer WFR area students the opportunity to participate and compete in a wide range of sporting events. WFR high schools frequently play each other promoting interaction throughout the WFR. Regional and sectional playoffs are frequently held at WFR facilities. WFR high school teams are divided into five classes based upon school enrolment. As noted in the WFR supporting community and third party documentation, schools from all five WFR counties are represented in class 3A and play each other.

2002 Winter Olympics –

The WFR has long boasted an impressive array of world-class winter sports facilities, and this position as a recreational leader was validated by the International Olympic Committee, which selected Salt Lake City as the host of the 2002 Olympic Winter Games. During this past February WFR residents had numerous events taking place in their counties of residence. The games were held at nine sites along the Wasatch Front, with nearly 18,000 WFR residents participating in the various Olympic venues as event volunteers. According to local Olympic officials, nearly 80% of all event volunteers were residents of the WFR.

Professional Sports –

Despite its status as one of the smallest markets in professional sports, Utah is home to several successful organizations that draw from a devoted fan base and enjoy the value of financially committed business partners. Without the support of residents throughout the WFR professional supports could not survive in Utah. These fans and commercial contributors are located in all six counties comprising the WFR. The Utah Jazz, a National Basketball Association (NBA) franchise, is the flagship for professional sports in the state, although minor league baseball, hockey, and soccer are succeeding.

Utah Jazz

The Utah Jazz has been one of the elite basketball teams in the NBA for the past 15 years. With perennial Hall of Fame players Karl Malone and John Stockton, the Jazz compiled the second best record of any team in the NBA during the 1990s. WFR fans and supporters play an integral role in keeping the team economically and athletically successful. These fans come from all over the WFR. The Delta Center, which is home to the Utah Jazz, holds 20,400 fans.

Utah Grizzlies

Utah became home to the Grizzlies prior to the 1995/1996 season. The team was displaced from its previous home in Denver, Colorado, when the International Hockey League (IHL) granted them an expansion team. This team moved to West Valley City in Salt Lake County and became the Utah Grizzlies. The E Center of West Valley City (Salt Lake County) the Grizzlies' home arena and was opened September 22, 1997. Designed by the world's premier arena architect, the E Center was the site of several 2002 Olympic Winter Games ice hockey and speed skating events.

Salt Lake Stingers

The Salt Lake Stingers, AAA affiliate of the Anaheim Angels of Major League Baseball, play in the Pacific Coast League. Their Salt Lake City games are held during the months of April to September at Franklin Covey Field located in Salt Lake City.

Utah Starzz

The Utah Starzz, one of the charter members of the Women's National Basketball Association (WNBA), began their fifth season in the women's professional basketball league in 2001. The Delta Center is home court for the Starzz.

Utah Freezz

The Utah Freezz is an expansion team of the newly formed World Indoor Soccer League (WISL). The inaugural 1999 WISL season had teams located in cities throughout the western United States.

Featuring a mix of local and professional talent, the Freezz finished the 1999 season with a 12-win, 10-loss record. In 1999, the Freezz finished second in attendance, with an average of 6,726 fans from all WFR counties attending home games. The Utah Freezz play in the E Center in West Valley City in Salt Lake County.

Conclusion -

We strongly believe the above narrative, along with the enclosed supporting information, provides overwhelming evidence that WFR is a single, separate, geographically well-defined community where citizens interact on a frequent basis, as well as share common goals and interests.

WFR residents share common resources, including major medical and educational facilities, and government. The overwhelming majority of WFR residents work, shop, worship or attend school within the boundaries of the WFR.

There is a long list of community-based facilities, organizations, and special events in the WFR, which offer residents an opportunity to interact with one another. These organizations are an integral part of the WFR community and represent a variety of interests within the WFR community.

Based on the documentation provided in this proposal, we believe TFCU has provided ample evidence that the WFR is a separate, well-defined, local community, whose residents interact on a regular basis and share common interests and goals as required by the NCUA.

County Employment Commuter Traffic Flows

Below are tables that illustrate the commuting patterns of individuals who live in various Wasatch Front communities and travel to other counties for employment. The numbers are taken from the 1990 U.S. Census Bureau County-To-County Worker Flow Files.

This information has not been made available from the 2000 U.S. Census which would reflect the growth that each of the counties had over the last 10-year period.

As is apparent from the chart below, due to the small distance between each county, most counties have workers who commute to all other five counties for employment. With the upgrade our interstate system has had the past 10-years, it can be assumed that the volume of commuters to other counties is not only continuing, but also increasing in volume.

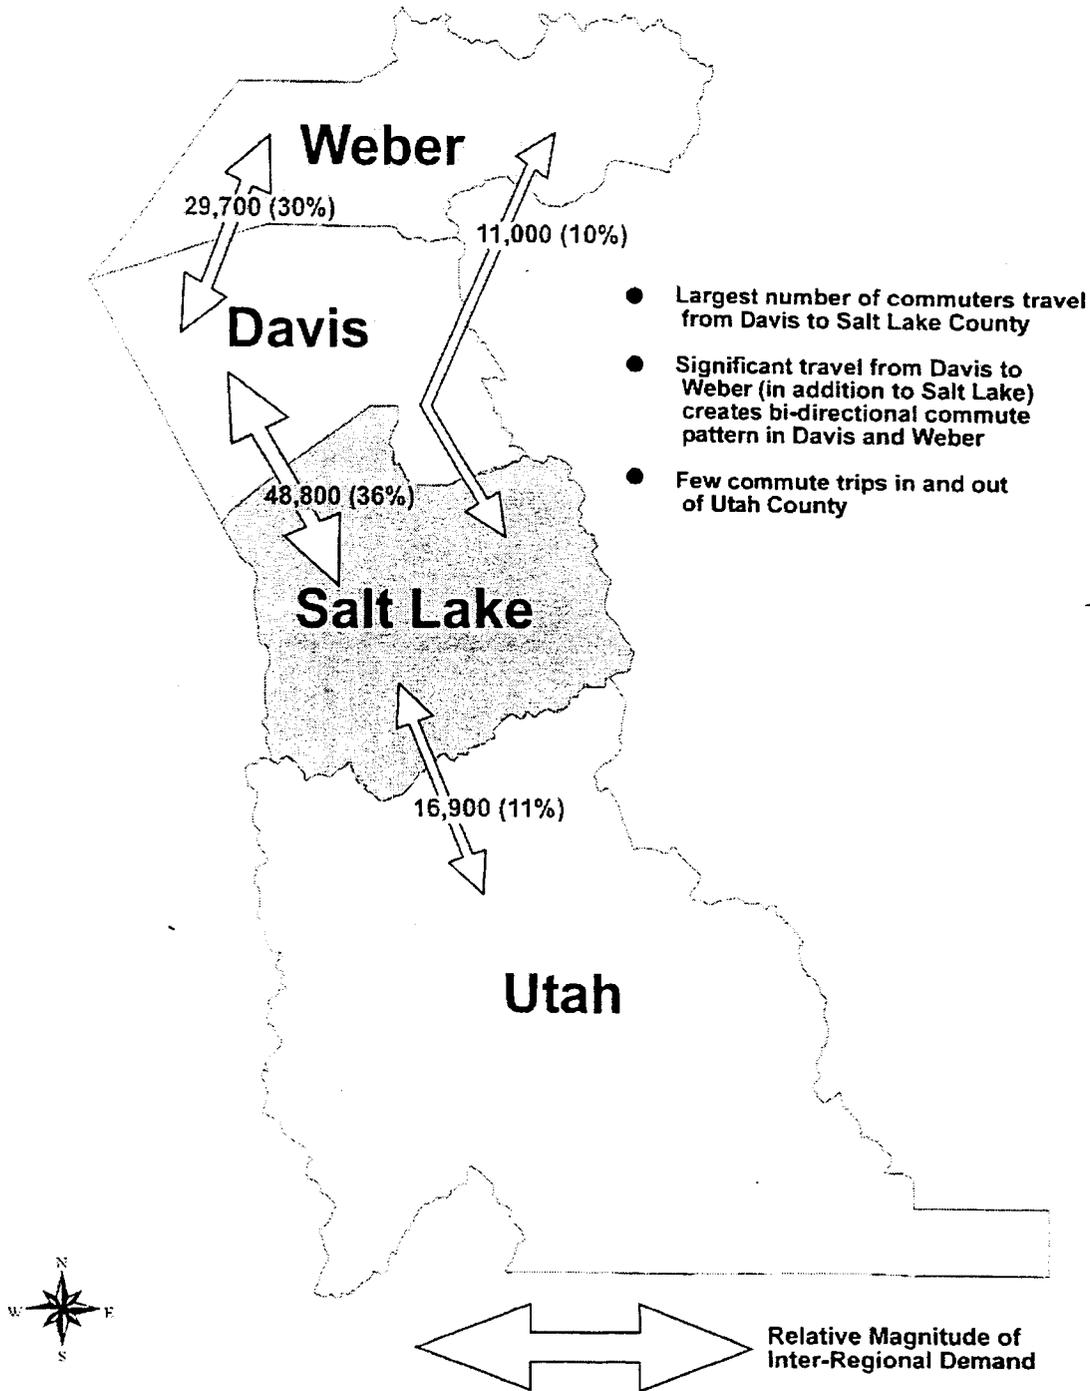

County Employment Commuter Traffic Flows

County Lived In	County Worked In					
	Davis	Morgan	Salt Lake	Summit	Tooele	Weber
Davis County	44,150	59	23,862	108	132	11,187
Morgan County	424	967	162	36	0	639
Salt Lake County	8,105	9	306,533	1,338	1,877	3,718
Summit County	57	52	1,939	4,812	10	82
Tooele County	62	0	1,463	6	9,030	5
Weber County	12,387	102	3,899	62	30	49,719

Due to the close proximity of each of the above six counties, workers can travel less than 30 minutes from one county to another to work.

Also enclosed is a map using data from 2000. This map shows current traffic counts and better reflects the number of vehicles passing certain points along Wasatch Front roads each day.

Salt Lake International Airport as well as all the major universities and entertainment sites are located within approximately 30 miles of any of the above six counties. Again, due the close proximity of each of the counties, county residents interact with each other as they go to work, get educated, or enjoy entertainment.

Daily Inter-regional Work Trips - 1993**

Wasatch Front Regional Council

This page is Netscape 2.0 and above enhanced

The Wasatch Front Regional Council (WFRC), located at 295 North Jimmy Doolittle Road, Salt Lake City, UT 84116 is an association of municipalities and counties within Weber, Morgan, Davis, Salt Lake, and Tooele Counties. Consistent with our general purpose to provide cooperation and coordination among member entities, our principle functions are related to area-wide planning. WFRC is the "Metropolitan Planning Organization" for the Ogden-Salt Lake urban area, and conducts an extensive inter-modal transportation planning process. The Council consists of sixteen mayors and county commissioners who, in turn, represent county Councils of Governments (COGs) within each of the five counties in the region. The county COGs include all of the mayors and county commissions within each county area. This structure ensures an opportunity for all general purpose governments to participate in the planning process conducted by the Regional Council.

In addition to its role in transportation planning, the WFRC is involved in a full range of local government issues including revenue and taxation, solid waste management, protection of open space and air quality, annexation and incorporation, and relations with federal, state and local governments. For detailed information on some of these projects, as well as transportation planning in Utah, please refer to the hot links below.

WASATCH FRONT REGIONAL COUNCIL

*Davis, Morgan, Salt Lake, Tooele, and Weber
Counties*

What is an MPO?

[HOME](#) | [ABOUT WFRC](#) | [CONTACT US](#) | [SITE MAP](#) | [SEARCH](#)

Metropolitan Planning Organizations (MPOs) are agencies responsible for transportation planning in urbanized areas throughout the United States. The Governor designated the Wasatch Front Regional Council (WFRC or Regional Council) as the Metropolitan Planning Organization for the Salt Lake and Ogden Areas, in 1973. The Regional Council consists of 16 elected officials representing local governments from Salt Lake, Davis, Weber, Morgan, and Tooele counties. Transportation planning in the region is a cooperative effort of state and local agencies, and as the MPO, the WFRC is responsible for coordinating this transportation planning process.

The Regional Council has established several committees to guide the development of transportation plans. A Transportation Coordinating Committee (Trans Com) serves as a policy advisory body to the WFRC. Trans Com includes elected officials from the five counties, representatives of the major transportation agencies in the area, including the Utah Transportation Commission (UTC), the Utah Transit Authority (UTA), the Salt Lake Airport Authority, and the Utah Air Quality Board. The Federal Highway Administration and the Utah Motor Transport Association are non-voting members. In addition, Transportation Technical Advisory Committees have been established to provide technical advice to Trans Com and the WFRC, concerning transportation plans and programs for the region. The Technical Committees are made up of engineers and planners from each of the jurisdictions, as well as from the Utah Department of Transportation, the Utah Transit Authority, the Bureau of Air Quality, and others. The Airports System Planning Advisory Committee, made up of representatives of local, state, and federal aviation entities and uses of the airspace, also serves as an advisory body to Trans Com and the Council.

Transportation planning in the Salt Lake Area has been a continuing effort for over three decades. In the 1960's UDOT developed the first Long Range Plan for the area. Since 1973, the WFRC has developed Long Range Transportation Plans and updated them regularly. The process is comprehensive in nature, addressing all modes of transportation, including highways, transit, trucking, rail, and air. Transportation Plans are also part of the comprehensive planning for the overall development of the region.

Two main products are developed through the transportation planning process. The first is a Transportation Plan, which recommends improvements to highways, transit, and other modes, to meet the transportation needs of the area over a 20-year period and beyond. The second is a Transportation Improvement Program or TIP. The TIP is a five-year capital improvement program for highway, transit, and aviation projects, contained in the Transportation Plan. The Transportation Plan is updated every three years, while the TIP is approved annually.

Two Federal Statutes establish various requirements that MPOs address during the transportation planning process. The Intermodal Surface Transportation Efficiency Act (ISTEA), and the Clean Air Act Amendments of 1990 (CAAA). ISTEA outlines the issues that need to be considered in developing a Long Range Transportation Plan and a Transportation Improvement Program. Also, both CAAA and ISTEA require that transportation plans and programs conform to state air quality plans.

Additionally, ISTEA requires that both the Transportation Plan and the TIP include Financial Plans outlining how the recommendations of each component of the plan will be funded. The WFRC works with UDOT and UTA to estimate the revenues likely to be available for transportation improvement in the region. The WFRC then evaluates the long range, the management systems, enhancement, and other needs, to determine the most financially feasible projects for incorporation into the Plan and the TIP.

Structure and Organization

Global Administration

The Church of Jesus Christ of Latter-day Saints is headed by the president of the Church and two counselors, together known as the First Presidency. The First Presidency and Twelve Apostles are regarded by Latter-day Saints as prophets, receiving divine revelation and inspiration to guide the Church.

Together the Council of the First Presidency and the Twelve Apostles comprise the principal policy-making and administrative body of the Church. The apostles have the scriptural charge to be special witnesses of Jesus Christ throughout the world and to ensure the orderly and correct operation of the Church everywhere. At the death of the president of the Church, the senior apostle (determined by length of service as an apostle, not by age) becomes president of the Church.

Policies of the First Presidency and the Twelve are implemented mainly through other senior leaders known as Seventies. Many of the Seventies reside in different nations around the world, overseeing the growth and development of the Church.

On a day-to-day basis, the Church's congregations are managed by unsalaried leaders with a significant amount of local autonomy. The primary geographical subdivisions of the Church are wards (local congregations), stakes (comprised of several wards) and areas. At each level of administration, Church officers support and train those individuals over whom they preside. Bishops preside over local Church congregations and are the leaders with whom rank-and-file members most frequently interact.

Stakes and wards have no paid ministry. The substantial volume of labor required to run a stake or ward effectively is carried out by the members, who are asked by their leaders to contribute in various specific capacities, such as in administrative, teaching, or service-oriented positions. Ample opportunity is given every willing member of the congregation to render service, share talents and gain new skills.

Each member of the Church has the right to vote to uphold all officers and administrative proposals that are presented by local or general presiding authorities. Every Church member also has the right to revelation for his or her own life and particular area of Church responsibility.

Support Organizations

The Church operates an educational system, a welfare system, and a missionary program, and formulates guidelines for local auxiliary organizations called Relief Society, Sunday School, Young Men, Young Women and Primary.

The Relief Society is one of the oldest and largest women's organizations in the world. It was established in 1842 to help the sick, the poor and others in need of compassionate service. During its weekly meetings, the organization provides instruction on a variety of topics, including

theology, home and family education, compassionate service, social relations and home management. The Relief Society also administers a literacy program in several countries.

Members of the Church 12 years of age and older attend Sunday School, which provides religious teaching for the different age-groups.

Spiritual training and social and cultural activities for the youth of the Church are provided by the Young Men and the Young Women organizations, and in some nations, Scouting. Young people ages 12 through 17 meet in classes on Sundays for religious study. They also meet several times during the month for social, cultural and recreational activities to build faith and character and to enhance health and physical fitness.

The Primary helps parents teach the principles of the gospel of Jesus Christ to their children ages 3 through 11. The children meet weekly to receive religious instruction and to enjoy social interaction. Children 18 months to 3 years may attend the Primary nursery on Sundays.

The Church's programs for singles serve unmarried adults of all ages. Participants enjoy associating together in spiritual, cultural, recreational, social and service activities.

Home teachers and visiting teachers serve as representatives of the bishop to every individual or family within the jurisdiction of the local congregation. Male priesthood holders go in pairs to each Latter-day Saint home once a month in a function known as "home teaching." They bring messages of inspiration, guidance and goodwill to the family and render service as needed. They may help families solve financial, emotional, physical and spiritual challenges. Similarly, adult female members called "visiting teachers" are assigned in pairs to render compassionate service as they assist with temporal and spiritual needs of every woman in the Church.

Institutions of Higher Education

The following institutions of higher education, located in the WFR area, attract students from throughout the WFR area by offering a wide range of academic and technical training programs.

- University of Utah
- Weber State University
- Salt Lake Community College

As indicated in the supporting information section of this request, the vast majority (88%) of students enrolled at the two WFR universities are WFR residents.

Salt Lake Community College has three full-service campuses and eight teaching locations, all located within the WFR. While we don't have all the demographic data available for all counties, of their 18,453 students, 81.20% are from Salt Lake County alone.

Combined, these three institutions enroll nearly 52,000 Utah residents, of which approximately 44,500 or 86% are from WFR counties.

Health Care – Wasatch Front Region

The reports attached are from the website:

http://health.utah.gov/hda/Reports/st1book_00.pdf

(The 6th page under each hospital list the County data)

This data is compiled by the Utah State Department of Health and is for the time period 1 January 2000 to 31 December 2002.

All of the hospitals within the WFR intermingle with each other. In all cases but two, over 90% of their patients are from the WFR. Other “specialty” hospitals within the area show a much more diverse patient base – drawing from the entire state.

Specs, Facts & Factoids about the New Salt Palace:

The Salt Palace boasts:

A whopping 365,000 square feet of continuous exhibit space, (bigger than downtown Peoa) with flexible walls allowing for 1 to 8 halls.

A 45,000 square foot ballroom -- one of the largest in the West -- with roughly enough space to hold a banquet for 2,900 ballerinas in tutus and the flexibility to break down into 10 sections, each capable of holding over 400 people theater style.

52,000 square feet of flexible meeting space, for a total of 53 possible meeting rooms including Ballroom space. (Talk about getting stuck in a meeting.)

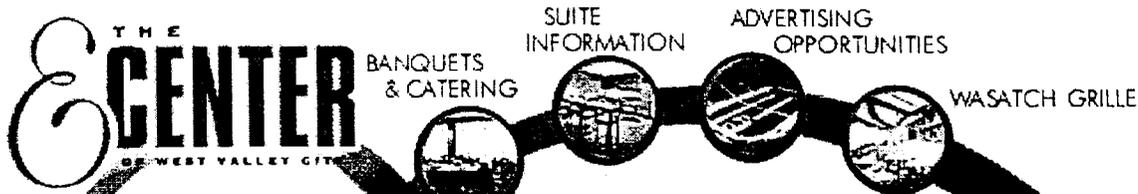

The curved metal trusses holding up the ceiling were actually built by the world's foremost designer of roller coaster right here in Utah. (Is this a fun place or what?)

Sick of snow? Sorry. We've incorporated a stunning snowflake motif in many of the windows and wall designs. (Don't forget, tourists come here for the snow.)

This place is wired! Miles of wires and fiber optic cable slither through the walls of the Salt Palace for up-to-date internet and computer connections, including satellite uplink capability.

The E Center of West Valley City

The "E" Center of West Valley City is Utah's newest entertainment center, opening its doors to the Salt Lake Valley September 22, 1997. Designed by the world's premiere arena architect, HOK, The "E" Center is the home of the two-time International Hockey League Champion Utah Grizzlies, the World Indoor Soccer League's Utah Freezz, and will be the site of the 2002 Winter Olympic ice hockey events.

- [Arena Technical Information](#)
- [Arena Floor Plans:](#)

- [Ice Show](#)
- [Hockey](#)
- [Open End Arena](#)
- [Ring Configuration](#)
- [Ford Theatre](#)

The "E" Center has taken the term "state-of-the-art" to a new level, combining the modern amenities of a large arena with the service and intimacy of a small theater. Within the "E" Center is the unique Ford Theatre which seats audiences as small as 3,700, while a crowd of 12,000 can be just as comfortable in the main arena.

In addition to sporting events, the "E" Center is a leading entertainment venue hosting nationally known concert acts such as Janet Jackson, Sarah McLachlan, Neil Diamond, Moody Blues, Lord of the Dance, Tori Amos, Manheim Steamroller, Dave Matthews Band, Phish, the artist formerly known as Prince, Motley Crüe, Jethro Tull, Shania Twain, Back Street Boys, Michael Bolton & Wynonna and many more. The "E" Center has also become the Utah home for Discover Stars on Ice, The Shrine Circus, Sesame Street Live, World's Toughest Rodeo, Monster Trucks, Arenacross and nationally televised productions of Holiday Festival on Ice and World Championship Wrestling's Monday Nitro Live.

This one-of-a-kind sports and

018

79
2/4/2003

entertainment facility offers the following special features:

The absolute finest in quality sound with the BOSE® Sound System and world class acoustics.

The "E" Center is one of just three U.S. venues with SACO® Smartvision LED technology providing crystal clear in-arena video boards.

Exclusive in-seat service for Club Seat holders, giving patrons the luxury of never missing the action.

Diamond Concessions offers more than 90 points-of-sale guaranteeing fast and courteous service.

The "E" Center's in-house restaurant, The Wasatch Grille, overlooking the Wasatch Mountains, provides great food and atmosphere before and after events.

The Centennial Room affords clients the opportunity for special business or personal entertainment with spectacular views of the Wasatch Front.

More than 10,000 square feet of meeting space, in addition to the 17,000 square foot arena floor, gives our catering department the chance to help plan your next corporate event, banquet, conference, meeting, tradeshow, reception or party for 15 or 1500 guests. Break-out rooms provide privacy and convenience for meetings and entertainment.

The "E" Center is managed by Centennial Management Group, Inc., and is committed to providing high quality management services to arenas, amphitheaters, stadiums and convention centers nationwide.

Our mission statement is:

The "E" Center is dedicated to providing superior entertainment in a comfortable, enjoyable setting. We commit the talents of our management and staff to providing an unparalleled diversity of quality events and world-class service. Our patrons will always be our priority and value will always be our commitment.

Welcome to the Delta Center® Web Site!

The Delta Center began operation in October, 1991. The Delta Center is the largest arena within a five-state radius, including Utah, Nevada, Idaho, Wyoming and Colorado with capacities of up to 20,400 people. Though it has primarily been identified as the home of the NBA's Utah Jazz, the facility hosts numerous events with its multiple use floor, including most major touring concerts, rodeos, ice shows, family shows, circuses, motor sports, hockey and large conventions. With its state-of-the-art design and technology, the Delta Center has played host to many national and international competitions as well as other major media events such as the 1993 NBA All Star Game. An added feature to the building is its nearly 44,000 square feet for banquet and multi-purpose use.

Possibly our best asset is our highly trained staff of professionals with many years of experience in Event Planning, Production and Coordination. We are confident that the service and care you will receive here at the Delta Center will be surpassed by none.

Each day, eight major airlines and three regional airlines provide more than 500 flights from Salt Lake City International Airport. As one of the nation's most modern and efficient airports, Salt Lake International serves a large number of passengers annually and is one of the hubs of Delta Air Lines. The airport is located just six miles west of the Delta Center, an easy ten minute freeway drive.

Located in the heart of downtown, the Delta Center is near to many shopping centers, restaurants, theaters, and nightclubs. Utah is famous for its golf courses such as Park Meadows, which is designed by Jack Nicklaus and used for PGA tour stops. For the more adventurous, 11 National Parks, 48 State Parks, and 6 National Forests are all within a day's drive of Salt Lake City. In addition to perfect skiing in the winter, Utah's mountains are the ideal location for a variety of summer sports, including mountain biking, water activities, and hiking.

Abundant first-class and economy hotels, including many major chains, are in close proximity to the Delta Center. There are currently 3,500 committable rooms within walking distance and 7,000 additional committable rooms in the Salt Lake Valley. Several national hotel chains are adding hotel space in anticipation of the 2002 Olympics, as well as, the continuing growth of the community. The Salt Palace Convention Center, with 54,000 square feet of meeting space, is conveniently located only two blocks east of the Delta Center.

The Delta Center is part of the Arena Network

Subject: FOM Data

Hi Allen:

Attached is some additional data supplied by the 2002 Olympic Committee as to the volunteers from each county.

As you will note, nearly 80% of the volunteers came from the six counties we are applying for.

I have enclosed the chart and will fax the raw third party data to you as supplied by the Olympic Committee. For some reason when the League got the data they did not include the cover sheet from the Olympic Committee. I will fax that to you sometime next week.

Also for your information, the League has also begun an "Outreach Program" mainly beginning with the Mexican and Spanish Communities along the Wasatch Front. The League has been given a Federal Grant and are in the process of working out the bugs of receiving the money. Tooele Federal Credit Union is one of the credit unions committed to help in this endeavor. TFCU made that commitment well over a year ago.

Please feel free to get in touch with Scott Earl at the Utah League for more details and how it might apply to our application at this stage of the game.

84

I will be attending the CUES CEO Network in California next week, however I will have my cell phone (435) 830-6117 and be grabbing my email stevec@tfcu.net each evening; Please feel free to contact me with anything I need to get going with either with what I have sent to you in this email or the stuff we have already sent.

Thanks again Allen and I look forward to hearing from you.

Steve

High School Sports –

Area sports organizations, teams and events play an important role in the lives of many WFR residents. At the high school level, area teams enjoy strong community support. Area high schools all offer WFR area students the opportunity to participate and compete in a wide range of sporting events. WFR high schools frequently play each other promoting interaction throughout the WFR. Regional and sectional playoffs are frequently held at WFR facilities. WFR high school teams are divided into five classes based upon school enrolment. As noted in the WFR supporting community and third party documentation, schools from all five WFR counties are represented in class 3A and play each other.

Class 5A

Professional Sports

Despite its status as one of the smallest markets in professional sports, Utah is home to several successful organizations that draw from a devoted fan base and economically committed business partners. The Utah Jazz, a National Basketball Association (NBA) franchise, is the flagship for professional sports in the state, although minor league baseball, hockey, and soccer are succeeding.

The Utah Jazz

The Utah Jazz has been one of the elite basketball teams in the NBA for the past 15 years. With perennial hall of fame players Karl Malone and John Stockton, the Jazz compiled the second best record of any team in the NBA during the 1990s. The fans and supporters play an integral role in keeping the team economically and athletically successful. These fans come from all over the Wasatch Front. Below is a table that delineates season ticket holders for Utah Jazz games by county. The Delta Center, which is home to the Utah Jazz, holds 19,911 fans.

County	Season ticket holders
Box Elder	156
Davis	1,143
Salt Lake	3,585
Utah	1,619
Weber	834
Total	6,503

Utah Grizzlies

Utah became home to the Grizzlies prior to the 1995 and 1996 season. The team was displaced from its previous home in Denver, Colorado, when the International Hockey League (IHL) granted them an expansion team. This team moved to Salt Lake City and became the Utah Grizzlies. Utah's Grizzlies are the only team in IHL history to post four-games-to-none sweeps in consecutive Turner Cup Finals, winning the crown in

1995 and 1996. They are the third team in league history to win the title in each of their first two seasons, joining the Cincinnati Mohawks (1953, 1954) and Saint Paul Saints (1960, 1961).

The E Center of West Valley City the Grizzlies' home arena and was opened September 22, 1997. Designed by the world's premier arena architect, the E Center will be the site of several 2002 Winter Olympic ice hockey and speed skating events.

Salt Lake Stingers

The Salt Lake Stingers, AAA affiliate of the Anaheim Angels of Major League Baseball, play in the Pacific Coast League. Their Salt Lake City games are held during the months of April to September at Franklin Covey Field. To follow is a listing of Stingers season ticket holders by county.

County	Season ticket holders
Box Elder	12
Davis	132
Salt Lake	1736
Utah	50
Weber	20
Total	1950

The Utah Starzz

The Utah Starzz, one of the charter members of the Women's National Basketball Association (WNBA), began their fifth season in the women's professional basketball league in 2001. The team includes Utah native Natalie Williams playing as power forward. The Starzz are competing with the goal of winning a WNBA Championship. Williams, the 1998 MVP of the now-defunct American Basketball League, was named Utah's Female Athlete of the Century and brought her talents to the Delta Center, home of the Starzz, where she finished in the top five in the WNBA in scoring, rebounding, and field goal percentage. The Starzz also can claim the tallest player in the WNBA (and third tallest woman in the world) in Margo Dydek. Standing seven feet, two inches tall,

Dydek has dominated the league in blocked shots and rebounding. The Polish native spends her summers in Utah and her off-seasons playing on the Polish National Team.

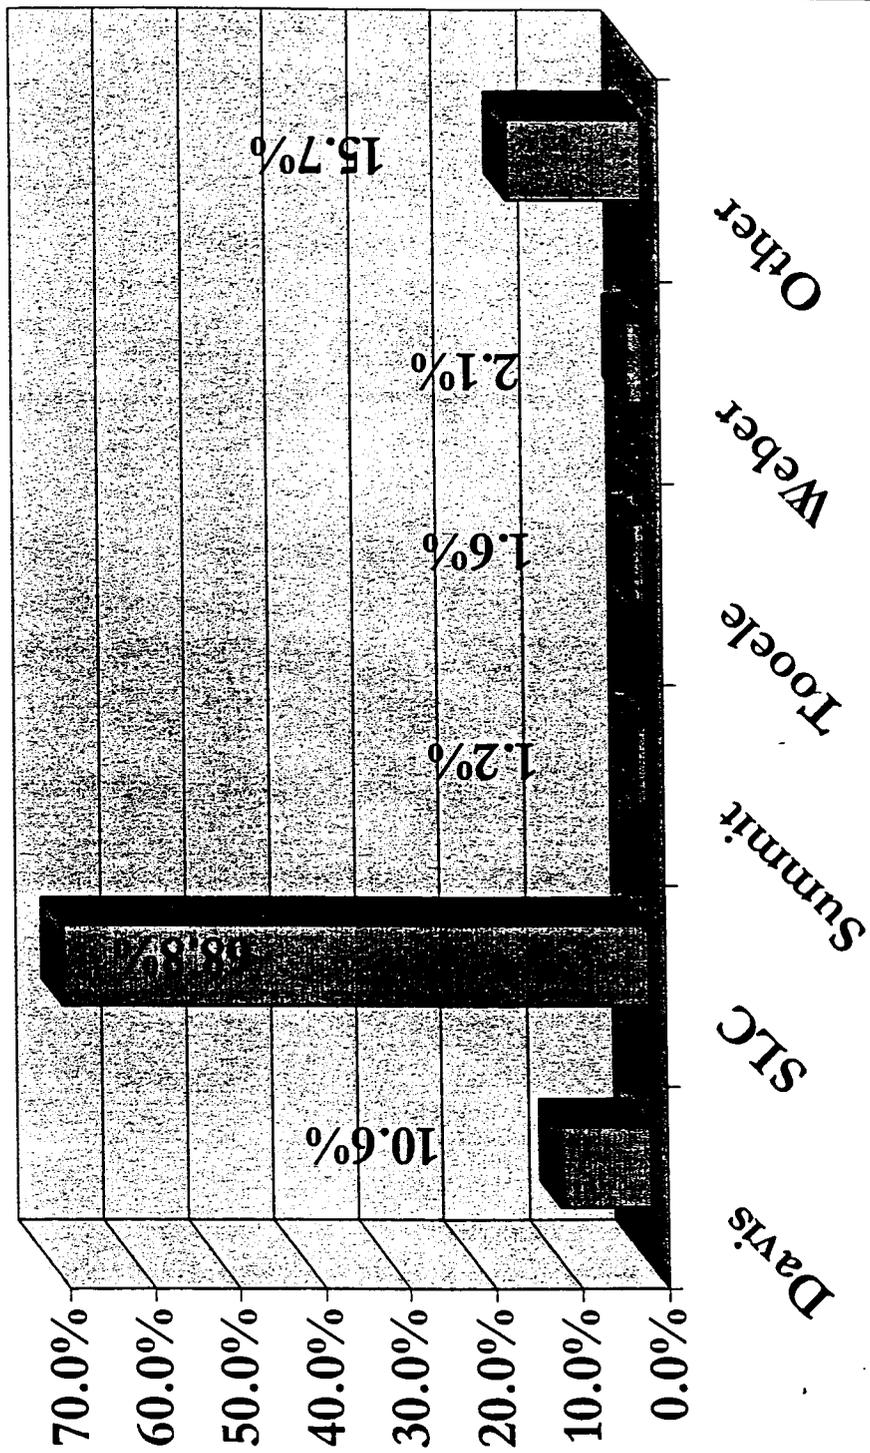

The Utah Freezz

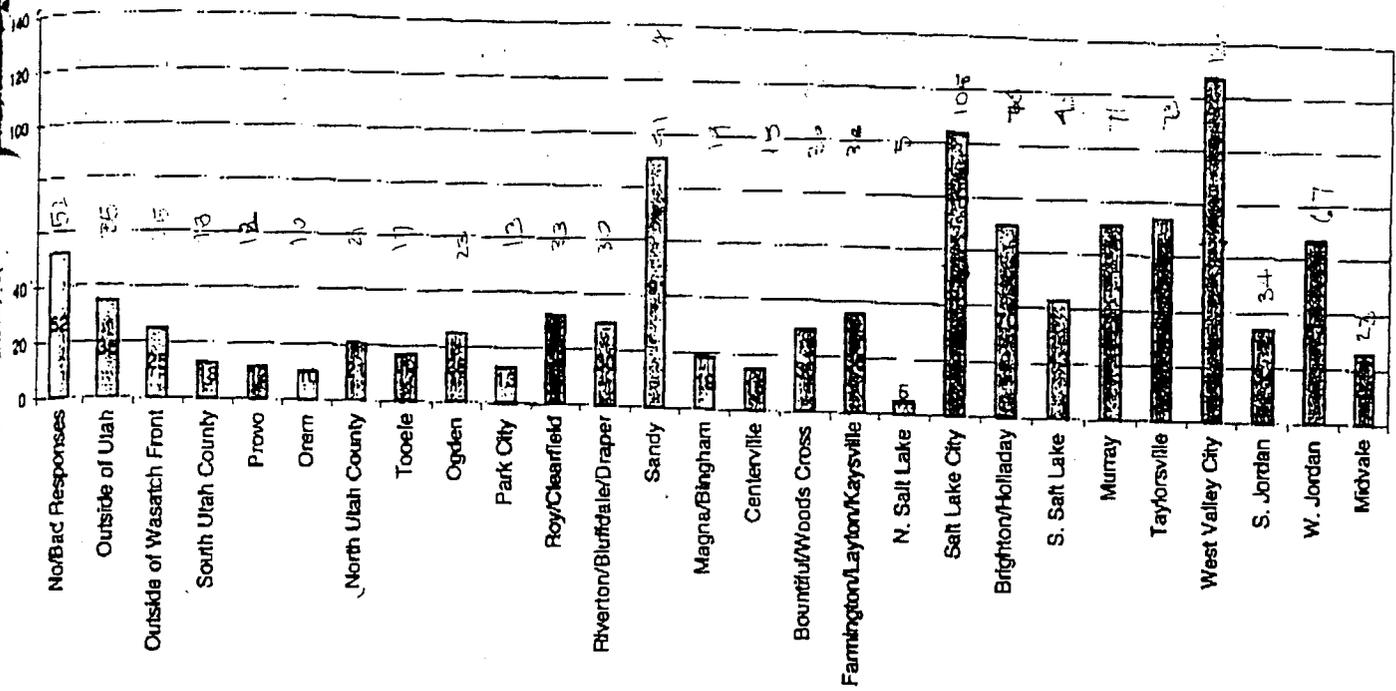

The Utah Freezz are an expansion team of the newly formed World Indoor Soccer League (WISL). The inaugural 1999 WISL season had teams located in cities throughout the western United States. Phoenix, Arizona; Portland, Oregon; Sacramento, California; Houston, Texas; and Monterrey, Mexico, all competed in the league's first season.

Featuring a mix of local and professional talent, the Freezz finished the 1999 season with a 12-win, 10-loss record. In 1999, the Freezz finished second in attendance, with an average of 6,726 fans attending 13 home games. Freezz players Brian Alba, Beau Brown, and Justin Labrum received league recognition in 1999. Brown was named to the All-WISL Second Team while Brighton High School (Sandy, Utah) star Justin Labrum was named the 1999 WISL Rookie of the Year. The Utah Freezz play in The E Center of West Valley City.

"E" Center
 Utah Grizzlies Hockey Team
 1997 Attendance Survey

1098 Surveys
 Returned

10-13

Analysis of Geographical Distribution Graph:

The largest proportion of Grizzlies' game attendees (11.6 percent of those surveyed) comes from West Valley City. Other locations with large proportions are Salt Lake City (9.5 percent) and Sandy (8.3 percent). This shows that there is a correlation between distance to the E Center Arena and the likelihood of attendance. One indicator of the diversity of Grizzlies' fans is that they have a high proportion of their fans from both the working class area of West Valley City and the more Middle Class area of Sandy. They also have a good proportion from the more expensive areas of Bountiful (2.7 percent) and Brighton/Holladay (6.4 percent).

Another interesting insight from the data comes from the list of cities in the category of Outside of Wasatch Front where 9 of the 25 respondents come from areas with a college. This might indicate that college students are willing to travel farther for a hockey game than members of other age categories are.

The layout of the Zip Codes from the Outside of Utah category shows that 12 of the respondents (1.1 percent) came from the East Coast. 4 respondents (0.4 percent) came from the Midwest. And 19 of the respondents (1.7 percent) came from states in the West. From the responses LS Marketing gathers that while there are some fans following their teams to the E Center, there are also many people attending the games while visiting Utah for other reasons.

The analysis was derived from the zip codes information given by all respondents and matched with U.S. Postal Service geographical records.

The Arts

Because of its somewhat undeserved reputation as being culturally unsophisticated, visitors to the **Wasatch Front** are often surprised by depth and availability of the arts here. Salt Lake City and the neighboring counties along the **Wasatch Front** have developed and support many fine venues that offer residents and visitors cultural experiences. Utah has acclaimed organizations in opera, theatre, symphony, and ballet.

Utah Opera

Glade Peterson, born a farm boy in Fairview, Utah, founded the Utah Opera in the early twentieth century. Glade was a leading tenor with the Zurich Opera in Switzerland before establishing the Utah Opera in his home state. The Utah Opera performs four shows for visitors to and residents of the **Wasatch Front** during its regular season, which runs between mid-October and late May.

Utah Opera strives to serve the residents of the **Wasatch Front**. Each year, the company performs for over 80,000 students in Salt Lake City's Capitol Theatre and in schools throughout the state. This figure amounts to approximately 10 percent of all school opera audiences nationwide, according to annual surveys by OPERA America. Not only are these young people developing a greater appreciation of opera and the multitude of art forms which comprises it, but they will also ensure Utah Opera's audience base in the years to come.¹

Utah Symphony

The Utah Symphony was founded in 1940 and has become a vital presence on the American music scene through its worldwide performances and well-known recording legacy. The Utah Symphony has its home in Maurice Abravanel Hall, in Salt Lake City, which has been noted for its acoustics and design.

Salt Lake Symphony

Founded in 1976, the Salt Lake Symphony is one of the **Wasatch Front's** most highly respected and artistically astute volunteer-driven orchestras. The Salt Lake Symphony is a non-profit organization dedicated to performing quality classical music concerts for residents of **Wasatch Front** communities. Now in its 24th year, the Symphony performs approximately 15 concerts per year.

Seventy-six musicians volunteer approximately 10,000 hours annually to accomplish the goal of **performing for Wasatch Front residents**. Most members of the Salt Lake Symphony work full-time in other professions.¹

Ballet West

Ballet West has grown from a small Salt Lake City enterprise into one of the world's leading regional ballet companies. In 1963, William Christensen and Glenn Walker Wallace successfully applied for a Ford Foundation grant of \$175,000 to establish the Utah Civic Ballet. The Federation of Rocky Mountain States selected the

Utah Civic Ballet as its official ballet company in 1968. The name Ballet West was then chosen to reflect the regional status of the company.¹

Ballet West became one of Utah's leading performing arts organizations in the years after World War II.¹ Ballet West is recognized by the public and the ballet world as a company of international stature and a cultural flagship of the western United States. It is a company of artists committed to the excellence of artistic quality in achieving a uniform style. Ballet West's annual schedule includes many performances along the **Wasatch Front**. Ballet West provides a full and diverse repertoire of works that range from the simple one-act to the full-length and technically complicated productions.¹

County Celebrations In Utah

Utah State Fair

With an over 280,000 annual attendance, the Utah State Fair easily is the largest single event of the year. Located in Salt Lake City, Utahns from all over the state come and participate either as contestants, exhibitors, performers, or just attendees at Utah's State Fairpark.

Usually held during the first couple of weeks of September, residents attend from all over the state, especially those individuals who live along the Wasatch Front due to its easy access and close proximity to all of the surrounding counties and city locations.

Morgan County

Morgala Days is held the fourth weekend in June. It begins with the Search and Rescue chuck-wagon breakfast, continues with a car show, entertainment, games, craft booths, and food. Each evening the Lions Club Rodeo culminates the celebration.

This festival is located at the Morgan County Fairgrounds in Morgan, Utah. About 25,000 people from the surrounding counties attend each year.

Weber County

Summerfest brings over 65,000 people to a five block area of downtown Ogden making it Utah's most heavily attended single day event. The streets are filled with music entertainment, rides, games and music. Over 300 vendors also sell handmade wares.

During the Ogden Street Festival the retail stores turn inside out when merchants and crafters bring their goods outdoors for a day of fun in the July sun. Festivities include breakfast, a fun run, entertainment stages, contests, games, children's yard, three-on-three basketball, volleyball, arm wrestling, snowmobile races, and sidewalk shopping in downtown Ogden. The event is held on Washington Boulevard between 21st and 25th streets.

People from all over Utah attend this event. The surrounding counties supply a large percentage of the annual attendance, due to the close geographical proximity and easy access to the downtown area of Ogden City.

Davis County

Over 100,000 Utahns from all over the state come to Davis County every summer to view a spectacular air show at Hill Air Force Base. The world famous Thunderbirds usually headline the show. Enthusiasts young and old are able to observe aircraft both in the air and

on the ground. Many of the spectators come from the surrounding counties and cities due to their close proximity to Hill Air Force Base as well as the easy I-15 interstate access.

The Hill Aerospace Museum is world class and is open 7 days a week (except for a few holidays) to the general public. It pulls visitors from the whole Wasatch Front to view extremely rare aircraft, including the only C model SR-71 Blackbird ever built.

Salt Lake County

The state holiday, Pioneer Day observed on the 24th of July, and its accompanying activities commemorate the arrival of Utah's first Mormon Pioneers to the Salt Lake Basin on July 24, 1847. Pop concerts, family days at local amusement areas, art shows, fireworks and parades combine to spice up the festivities. The most popular events include the All Horse Parade in downtown Salt Lake City, the Days of '47 Rodeo at the Delta Center, and Fireworks display.

The parade is televised as well as the Rodeo on a major network, KSL, to the entire viewing area. Due to the close geographic proximity to Salt Lake City, the largest portion of the participants come from the counties surrounding Salt Lake City.

Summit County

The Sundance Film Festival held in January each year and is hosted by Robert Redford. The festival highlights films from independent filmmakers, and is held in Park City and Salt Lake City, Utah.

The film festival draws residents from around the state and the Wasatch Front to downtown Salt Lake City and Park City. The Sundance Film Festival receives worldwide coverage and also boasts attendance from around the world.

Tooele County

Tooele Arts Festival is a celebration that is held annually in the last part of June. Art, music and culture come together in a weekend of festivities. Exhibitors, artist and participants come from around the state to be on hand for a 3-day celebration and to enjoy the beauty of Tooele County at its best.

Newspaper Circulations

Salt Lake Tribune & Deseret News

Utah's largest newspaper agencies, the Salt Lake Tribune & Deseret News has statewide distribution with circulations of over 200,000 newspapers delivered daily across the Wasatch Front.

The Standard Examiner

Utah's second largest newspaper, The Standard Examiner, has a circulation of nearly 56,000 newspapers delivered daily across the Wasatch Front.

Business Plan

Expansion Request Summary –

The enclosed financial exhibits include business and marketing plans, financial reports and budgets and other applicable financial projections and related data. We believe that these exhibits, along with our previous performance over the past several years, clearly demonstrate that TFCU has the financial and managerial strength and commitment to effectively serve the entire WFR community.

Our past financial performance is superior and our projections show that our numbers will be solid going forward. In addition, TFCU believes that our proven track record of solid community involvement on the part of the credit union and its employees and volunteers is noteworthy. TFCU already functions within the WFR as a community organization and looks forward to continuing our community involvement and extending our services to the entire WFR community.

Overall Request Conclusion

Overall Request Conclusion -

TFCU strongly believes that the long-term financial impact of this community expansion will be very positive for both the citizens of the WFR and the credit union. We are committed to accomplishing our goal of serving the entire community in a conservative and consistent manner - building upon our strong financial base and our commitment to excellent member service. We will continue to develop and refine services that will be available to all members through a variety of delivery channels. We believe that our planning and financial projections, along with our performance over the past several years confirms that we have the human and financial resources to build a credit union that will be able to effectively serve the WFR community now and well into the future. We look forward to this exciting challenge and opportunity.

Our History

Tooele Federal Credit Union was established in 1948 as the Benecia Arsenal Federal Credit Union at Benecia Arsenal, Benecia, California. Originally total assets were \$13,926.91. By the end of 1961 there were 350 member/owners and 4 people employed at the credit union. In August of 1962 the name was changed to Tooele Army Depot Federal Credit Union, with total assets of \$1,254,090.73 and only one working branch. Nine years later, in August of 1971, the name was changed once more to Tooele Federal Credit Union. By this time the credit unions assets had grown in excess of \$5.3 million, with three working branches, and an expanded membership to serve more people in Tooele County.

Today, over 50 years later, Tooele Federal Credit Union has assets of over \$138 million, with 24,633 member/owners, and over 70 people employed. We owe our success to our dedicated volunteers, committed employees, and devoted member/owners from 1948 to today. As one of the largest Credit Unions in the state of Utah we are prepared to serve the financial needs of all of Tooele County into the 21st Century.

Vision Statement

"Tooele Federal Credit Union will professionally and courteously serve the needs of our members through 'People Helping People' while maintaining our financial strength."

Field of Membership

Membership in Tooele Federal Credit Union is open to individuals within the following areas:

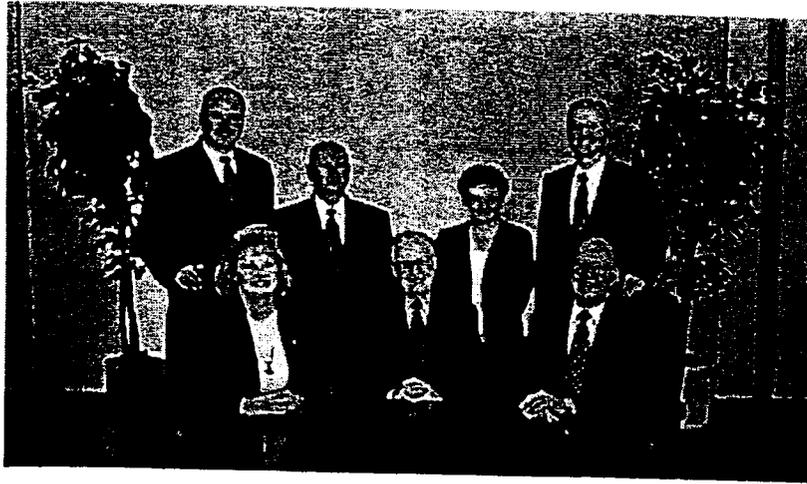

- Persons who live, work, worship, or attend school in Tooele County.
- Businesses and other legal entities in Tooele County, Utah.
- Immediate family members of the areas shown, and members of the same household are also eligible for membership.

Our Volunteers

Our Volunteers are the heart and spirit of Tooele Federal Credit Union. Members of the Board of Directors and the Supervisory Committee are professional, talented, and dedicated individuals from the local area that serve without pay. They provide a wealth of experience and expertise that strengthens our credit union as a financial institution.

As a member, you have the opportunity each year to elect members of the Board of Directors. They are volunteer elected members that establish and enforce policies of the credit union.

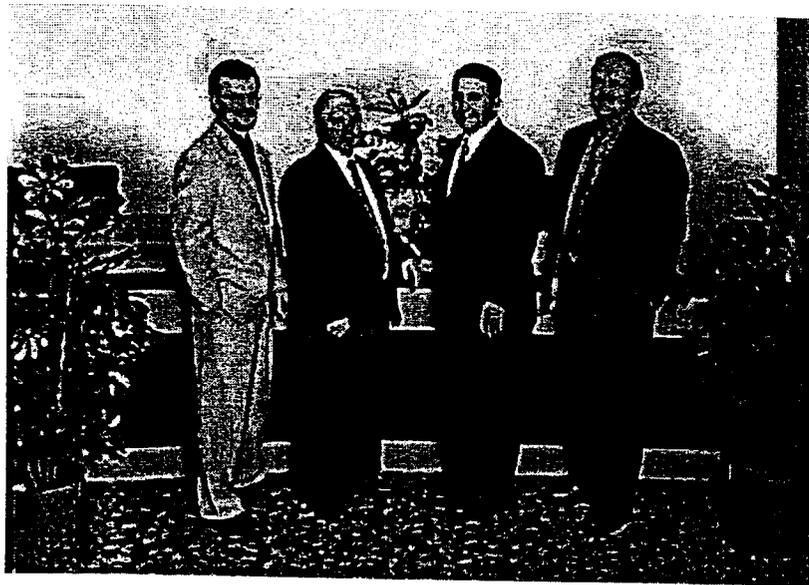

Meet the Board of Directors

Board of Directors (front l to r): Kathy Whitehouse, John Welsh, and Max Hancock.
 (rear l to r): Mike Johnson, John Hansen, Norma Worwood and Kim Halladay.

The Supervisory Committee is also composed of volunteer members. They are appointed by the Board of Directors to act as a liaison with members and management to ensure the safety and soundness of the organization.

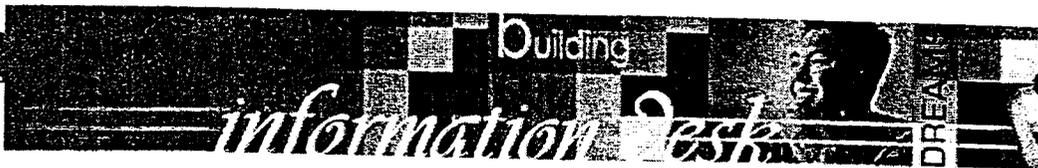

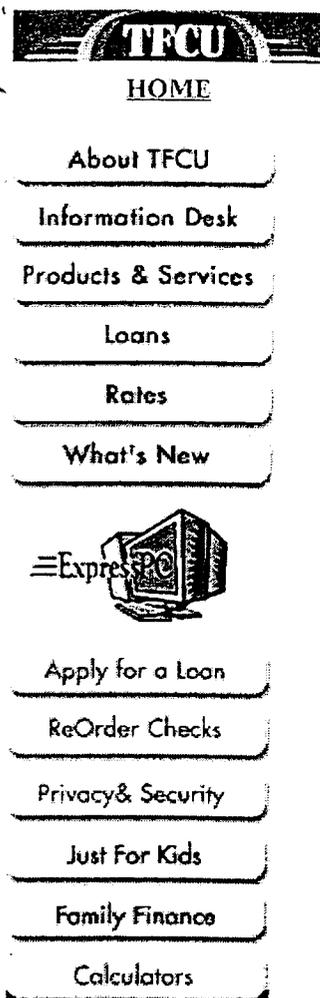

Meet the Supervisory Committee

Supervisory Committee (l to r): Sam Woodruff, Max Coon, Justin Linares, Glenn Caldwell,
 and not pictured Jerel Johnson.

Our volunteers are members, like you, who believe in "people helping people".

Tooele Federal Credit Union has made it easy to "Build Your Dreams". We are a full service mortgage lender. We offer a complete line of mortgage products to meet your individual needs. Many financing options are available and our knowledgeable Real Estate staff can assist you in determining what product will best fit your needs. Our competitive rates and friendly staff make getting a first mortgage through us a dream come true.

Tooele Federal Credit Union offers the following mortgage products:

- 10, 15, & 30 Year Fixed Rate Loans*
- 10, 15, & 30 Year Variable Rate Loans*
- Refinancing *
- Construction Loans*
- First Time Buyers Program*

If you are considering buying, or refinancing come in to our office located at 562 North Main to discuss your First Mortgage needs with our helpful Real Estate staff. We may be able to save you hundreds of dollars a month by offering you a lower interest rate or closing costs. Even if you have less than perfect credit we can find a loan to fit your needs. Our great staff is here to help! Please call 833-7200 or toll free at 800-662-9522. Or contact us at realestate@tfcu.net.

Are you interested in a FHA or VA loan? Call (877) 894-4491 and reference our correspondent number (#41194) for more information regarding these loans.

*Some restrictions apply

Home Equity Loans

Apply Now

Loan Calculator

Are you growing out of your present house? Are you thinking of expanding? Does your house need a face-lift? Would you like to finish the basement but the credit cards bills are piling up? Or has the kids' idea of an underground pool finally sounded achievable? If so, Tooele Federal Credit Union has the right home equity loan for you. We offer 80% combined loan to value home equity lines of credit. Please come in to one of our branches and meet with our exceptional Real Estate staff. We look forward to seeing you. Would you like to know more? Call us at 833-7200 or 800-662-9522. Or contact us on-line.

Recreational Vehicle Loans

Apply Now

Loan Calculator

In addition to our other loan products, Tooele Federal Credit Union can assist you with special vehicle purchases. Listed below are a few types of vehicles you can purchase with a TFCU Recreational Vehicle Loan:

- Boats
- Snowmobiles
- Motorcycles
- Water Craft
- ATV's
- Motor Homes
- Travel Trailers

Our RV loans are available at competitive rates. We also offer extended terms, so talk to one of our member account representatives today, or apply on-line

Personal (Signature) Loans

[Apply Now](#)

[Loan Calculator](#)

Occasionally, you need a loan specifically tailored to your individual needs. Perhaps for special medical expenses or a needed vacation. We can help by designing a loan to meet your needs while offering you low competitive rates. Your loan can be processed quickly and conveniently by one of our member account representatives.

The amount that we can lend you will vary on factors such as your credit history, income, debts, etc. The important thing to remember is that your credit union is here to help. That is why we consider ourselves a "family of members". So, come in to one of our branches and get a loan for your "Dream Vacation". Or apply on-line from the privacy of your own home.

Share Pledged Loans

[Apply Now](#)

[Loan Calculator](#)

Occasionally, you may have a specific purpose for which you will need extra funds. With a TFCU Share Pledged loan you can continue to earn dividends and not disturb your savings. You receive a special low rate on your loan since you are pledging your savings at the credit union to secure the loan. Extended terms are available to meet most any requirement. Best of all, you don't have to go through a loan application!* You can borrow up to 100% of the amount that you have in your TFCU account. (Sorry, IRA accounts are not eligible to pledge).

For more information on share pledged loans please call 833-7200 or 1-800-662-9522 and speak with a member account representative or [Email us](#)

*Some restrictions may apply. Please call for more information.

Student Loans

You've heard the news...college tuition is rising every year. Many of us find it difficult to stay in school because we don't have the funds. TFCU is here to help. We offer student loans that are guaranteed through the federal government. Your dream of a college education is not out of reach, let us help you obtain it.

0060

How does the process work?

After you are accepted to the school of your choice, speak to the Financial Aid Office of your school. They can tell you what programs and funds are available. After that, it's simply a matter of submitting the right information:

- Complete a Free Application for Federal Student Aid (FAFSA), which you can pick up at the school you will be attending, or apply over the Internet at www.fafsa.ed.gov. This form enables the school to determine what amount you are eligible to borrow.
- Request Tooele Federal Credit Union as your lender. The federal ID number for TFCU is 820200.
- Ask about the qualifications for the type of aid for which you are applying.
- Be aware of the deadlines for your applications. Pell Grant money is given on a first-come, first-serve basis.

The chart below lists the Stafford Annual Loan Limits for students.

Borrower's Academic Level	Dependent Student	Independent Student	Independent Student
	Subsidized and Unsubsidized	Subsidized	Unsubsidized
First-year Undergraduate	\$2,625	\$2,625	\$4,000
Second-year Undergraduate	\$3,500	\$3,500	\$4,000
Third-, Fourth-, and Fifth-year Undergraduate	\$5,500	\$5,500	\$5,000
Graduate or Professional Student	N/A	\$8,500	\$10,000

How does a Student Loan work?

- Student Loans are the same as any other loan. They must be repaid.
- Repayment on Student Loans starts six months after you leave school - regardless of whether or not you graduate.
- You may make payments on your Student Loan at any time without penalties. You may also pay your loan off early without penalties.

Plan ahead, it is not wise to borrow more than you will be able to repay. Usually salaries right out of college are not very high.

If you have any questions regarding your Student Loan, please contact the Student Loan Department at Tooele Federal Credit Union at 833-7200 ext. 245 in the Tooele area, or toll free at 800-662-9522 ext. 245. Or, you may contact the Utah Higher Education Assistance Authority (UHEAA) at 801-321-7294 or 800-418-8757 ext. 7294.

Share Certificates

Certificates of Deposit/IRA Certificates of Deposits are deposits that are secured for a specified length of time, ranging from 6 months to 5 years. The annual percentage rate (APR)/annual percentage yield (APY) for the certificate is set at the current rate on the day the Certificate is opened and will remain at that rate through maturity. IRA Certificates are at the same rate and terms as Certificates of Deposit.

Features

Terms available from 6 Month to 5 Years

- Competitive Rate (APR) /Annual Percentage Yield (APY)
- Minimum opening deposit of \$500.00 (Some specials may differ)
- Dividends compounded quarterly
- Dividends credited quarterly - Renewable at maturity (Certificates will be renewed at rate in effect on the date of maturity)
- Penalty for early withdrawal

Benefits

- Certificates of Deposit provide a convenient and efficient way to save money for a short or long period of time while, earning a higher dividend rate (APR) and yield (APY) than regular savings.
- Certificates may be used as Security on a Loan -Loan must be with TFCU
- No Processing Fees
- No Monthly Service Charges
- Quarterly Statements

Take a look at our [current rates!](#)

If you deposited \$1,000 in a CD with an APY of 7.15% and it matured in 5 years do you know how much money you would have saved? Would you like to find out? Use our helpful [Savings Calculator](#) to determine how to reach your financial goals. How much money do you want to retire with? Do you know how much you need to start saving now to reach that goal? Use our [Retirement Calculator](#) to determine the amount you'll need to save to reach your goal.

Individual Retirement Accounts

VISA® check and credit cards

Direct Deposit

Are you tired of waiting in long "Pay-day" lines on Friday's to deposit your check? Are you going on vacation and missing a Pay-day at work? Wouldn't it be nice if your payroll check was automatically deposited into your checking or savings account whether you were at work or not? If yes, then direct deposit is for you. To start- talk to your place of employment or one of our member account representatives at 833-7200 or 1-800-662-9522. Getting set up for direct deposit will put time back in your Friday's!

Wire Transfers

Do you need to send money to your child who is in college out of state? Do they need it fast? Are you on vacation and out of money? At TFCU you have the capability to transfer money from your account to any financial institution nationwide. Call us for details, 435-833-7200 or 1-800-662-9522.

**some restrictions may apply*

Payroll Deduction

Do you have a home equity loan, auto loan, and VISA® Classic Card with TFCU and you're tired of writing out a check for each? Are you rushing to the credit union before it closes so you can pay your bills on time? TFCU has the answer with payroll deduction. A payroll deduction is set up to fit your needs whether you want to pay a portion with each check or just once a month. The best part is the convenience! You will never have to come into an office to make sure the bill gets paid because it will automatically be drawn out of your accounts per your specifications. It's easy and an asset to anyone who never

0071

has enough time.

Member Resource Center

The Member Resource Center located in the teller area of the Tooele branch gives every member the opportunity to access TFCU's home banking system on the internet. This helps our members to have the ease and convenience of on-line banking without having to buy an expensive computer system for their homes. The center will allow you to check your balances, transfer money, and every other convenient feature of the home banking system.

Community Involvement Activities -

Our involvement in many successful community projects serves as reinforcement to the credit union philosophy and an acknowledgement that we at TFCU can and do make a difference. Living out the credit union philosophy of "people helping people" has been and will continue to be our commitment to the community in which we operate.

Our staff, members and volunteers work very hard to make good things happen for the people who live in our community. By sharing, supporting, helping and encouraging we can accomplish more. Our involvement affords not only material things but also peace of mind to people in need. Just knowing that someone cares can often times make a difference. Some involve the needs of our own members, many reach friends and neighbors in our community, while other projects promote education and awareness of the credit union movement in a broader sense. Recently, TFCU received the 2001 Community Involvement Award presented by the Tooele County Chamber of Commerce. We look forward to extending this spirit of volunteerism into all of the WFR.

The following are just a few examples of the volunteer programs we have been actively involved in:

- ✧ **Scholarship program for all five area high schools.**
- ✧ **Sponsorship – MDA fundraiser**
- ✧ **Area school computer donations**
- ✧ **Sponsorship – Festival of Trees fundraiser for Children's Medical Center**
- ✧ **Tooele County Chamber of Commerce**
- ✧ **Sponsor – Tooele County Art Festival**
- ✧ **Tooele County Fire Department and Search and Rescue Unit support**
- ✧ **Financial support – local food bank**
- ✧ **Children's Justice Center supporter**
- ✧ **Kiwanis Club**
- ✧ **Sponsor – Warm the Soles of Kids program**

Community Involvement Award Winners

0-50 Employees: Domino's Pizza. Cyndie Kirk and her staff at Domino's are continuously helping out with or sponsoring various Chamber and community events and activities, such as the Chamber's Easter Egg Hunts, Golf Tournament, July 4 Breakfast and Santa Claus Parades, Children's Justice Center, Babe Ruth Baseball, Junior Jazz Basketball, Community Action Program Food Drives, Tooele County Care Fair and various individual fund raisers for those with special needs.

50-100 Employees: Tooele Federal Credit Union. The Tooele Federal Credit Union supports or sponsors various programs which benefit the community or serve community needs, including a college scholarship program, new computer equipment donated to schools, "Skip-a-payment" charity donations, New York Credit Union Disaster Relief Fund collections, Chamber Easter Egg Hunts, Christmas Shopping Spree, school seminars and educational tours of the credit union for students. The Credit Union's Employees' Charity Committee also raises money and makes toys for Primary Children's Hospital, Children's Justice Center, Community Action Program, Toys for Tots and conducts a program which helps provide shoes and socks to the area's needy children.

SCHEDULE D CREDIT UNION SERVICE ORGANIZATION (CUSO) INFORMATION

Credit Union Name: **TOOEELE** Federal Charter/Certificate Number: **05799**

DON'T MAKE ENTRIES ON THIS FORM UNLESS YOUR CREDIT UNION HAS A LOAN TO OR INVESTMENT IN A CUSO

A credit Union service organization (CUSO) is a corporation or limited partnership that provides services primarily to credit unions or members of affiliated credit unions. Answer the following questions for each CUSO in which you have a loan or an investment. If your credit union has investments in or loans to more than one CUSO, complete a separate line of information for each CUSO.

Note: If your credit union wholly-owns the CUSO or owns a "controlling financial interest" (assumed at ownership of 50% or more of the voting stock), the CUSO's books and records should be consolidated with your credit union's books and records (as if the two were one entity) for reporting on pages 1, 2, 3, and 4 of the call report.

If your credit union has "ability to exert significant influence" over operations of the CUSO (assumed at ownership of 20% or more but less than 50% of the voting stock of the CUSO), the credit union's investment in the CUSO should be reflected in its books and records using the equity method of accounting.

If your credit union owns less than 20% of the voting stock of the CUSO, the credit union should account for its CUSO investment using the cost method of accounting.

Complete a separate line of information for each CUSO in which you have a loan or an investment, regardless of whether your credit union wholly owns the CUSO, has a "controlling financial interest", has the "ability to exert significant influence" or owns only a smaller portion of the CUSO.

	Name of CUSO (Acct. 830)	Amount invested in CUSO (Acct. 831)	Amount loaned to CUSO (Acct. 832)	**	***	Net income (loss) from CUSO which is included in amounts reported on page 4, line 3 (Acct. 835)
A	CU Service Center	\$25,000	\$0	No	3	\$0

PCA NET WORTH CALCULATION WORKSHEET

(AUTOMATED - NO INPUT NECESSARY)

Credit Union Name: **TOOELE** Federal Charter/Certificate Number: **05799**

- **No credit union is required to provide input on this page.**
- **Electronic Filers:** Information entered on preceding schedules will populate line items below on the PC 5300 Automated System, excluding optional items 9, 10 and 11.
- **Manual Call Report Filers:** Leave this page blank or use it as a manual net worth calculation worksheet.
- **Optional Items 9, 10 and 11:** All credit unions may choose to enter one of the Total Assets Elections as described below

NET WORTH TO TOTAL ASSETS RATIO

NUMERATOR: NET WORTH	Amount	Acct. Code
1. Undivided Earnings	\$18,072,842	940
2. Regular Reserves	\$3,204,434	931
3. Appropriation for Non-Conforming Investments (SCU ONLY)	\$0	668
4. Other Reserves (Appropriations of Undivided Earnings)	\$200,000	658
5. Uninsured Secondary Capital (Low Income Designated Credits Unions Only)	\$0	925
6. Net Income (unless this amount is already included in Undivided Earnings)	\$0	602
7. TOTAL NET WORTH (Sum of items 1-6)	\$21,477,276	997
DENOMINATOR: TOTAL ASSETS		
8. Total Assets (quarter-end)	\$157,547,795	010
Total Assets Elections (Optional)		
Retain line 8 quarter-end total assets above as net worth ratio denominator, or select one of the total assets computation options below by inputting the result in the appropriate line item. Line 12 below will compute your net worth ratio using line 8 quarter-end total assets as your denominator unless you enter an amount in line 9, 10 or 11.		
9. Average of Daily Assets over the calendar quarter	\$0	010A
10. Average of the three month-end balances over the calendar quarter	\$0	010B
11. Average of previous four quarter-end balances	\$0	010C
12. Net Worth Ratio (Line 7 divided by line 8, 9, 10 or 11)	13.63%	998

(1) All date ratios are annualized.

(2) All year ratios are based on estimates.

(3) This ratio relies on the maturity distribution of investments reported per 5300 instructions. Thus, the maturity distribution could be based on the repricing interval and not the actual maturity of the investment. The exam date ratio is calculated consistent with the prior years.

(4) For all years prior to 2000, net worth includes donated equity, which is not a regulatory component of net worth.

(5) Ratio is based on net charge offs over the previous 12 month period.

NOTES TO THE FINANCIAL STATEMENTS:

TAB 8

Regional overlap analysis (if applicable)

Regional overlap analysis (if applicable)

This area is not applicable. There are no newly chartered credit unions in the proposed community. All of the credit unions have been in existence longer than two years.

TAB 9

Concurrence (General Counsel and E&I)

TAB 10

**To be used if the request involves a state charter.
Include request for federal charter and other
appropriate conversion documentation.**

**To be used if the request involves a state charter.
Include request for federal charter and other
appropriate conversion documentation.**

This area is not applicable. The credit union is already a federal charter. It is not converting from a state charter.

TAB 11

Additional Information - To be used if any additional information is requested subsequent to the submittal of the BAM package.
