Proposed Interagency Policy Statement
Establishing Joint Standards For
Assessing the Diversity Policies and
Practices of Entities Regulated by the
Agencies and Request for Comment

Dear Ladies and Gentlemen:

First of all, please understand that I am not opposed to diversity in our work place. I am in favor of this and I feel that if we do not offer diversity in the work place, over time, we will not be competitive and be out of business soon enough.

What I am opposed to is another regulatory burden that is going to require additional people, time and expense at the credit union level and at the regulatory level which does not accomplish anything toward providing financial service to our credit union members. As it is, we are being inundated with regulations that do not add anything to making our institutions more safe and sound, in fact, I would argue, they divert our attention from the very purpose which NCUA is charged. This is a clear example of one of those policies.

For this simple reason, I would like to encourage this proposed rule not be adopted and implemented.

Thanks for your consideration.

Brian C Gilbert
