---

Dear Secretary of the Board Poliquin,

This letter is being sent to show my support for the NCUA proposed revisions to the field of membership and chartering manual for credit unions. The proposed changes would allow credit unions to more easily create a positive impact in their respective communities. By allowing a community chartered credit union to serve a Core Based Statistical Area more people can enjoy and benefit from the ability to place membership at a credit union. In economic times where money is tight for people nationwide the ability to choose a financial institution where they receive the best service and benefits is crucial! These proposed revisions would allow people looking for a financial institution to have more options and accordingly be able to pick an institution that will work best for them. Whether that be a bank or credit union the ability to have the option to use either is critical to people's financial freedom and the changes on the table at NCUA currently would help to facilitate this.

Thank You,  
Ryan Jackson  
Accounting Clerk  
Santa Fe Federal Credit Union

Sincerely,

Ryan Jackson
