---

I continue to hear about the RBC2 proposal. If this is such a critical issue, I believe Congress should be involved in this regulation. This is the democratically correct way to make sure any regulation has proper checks and balances. NCUA should have NO PROBLEM with someone exerting over-sight over their ability to regulate - IF THIS IS TRUELY NEEDED AND IS TRUELY THE CORRECT THING THAT NEEDS TO BE DONE why would you hesitate to let Congress help you?
