Dear Mr. Poliquin:

Our credit union believes the RBC2 rule would undermine the cooperative and diverse nature of our charters by creating a one size fits all over-reaching capital formula. This is a massive flaw of the NCUA's structure as regulator and insurer. We believe this is a myopic view of cooperatives and only considers our equity funding mechanism. A cooperative is a like group of individuals banding together to own a business that is guaranteed to meet their similar financial needs. The arguments and logic of the rule misapplies what is done successfully at a local or institutional level, to an entire system. Because of this I would respectfully recommend the rule be thrown out and at best become a matrix the NCUA would use in the exam process only.

A large, bold, handwritten signature in black ink, appearing to read 'Jack Carpenter', with a long horizontal line extending to the right.
