Organization Name: Global Credit Union
Comment: NCUA Board and Administration:

Thank you for your efforts to expand the field of membership on behalf of credit unions. The new proposal increasing the limit on natural persons to 10 million will have direct benefit to those serving in large cities allowing them to more effectively provide much needed products and services. The streamlined narrative approach will also be help helpful for credit unions in the application process. Finally, allowing the portioning of a metropolitan area is a very progressive approach and one that many credit unions can benefit from.

Thank you again and I fully support your proposal.
