Comment: I want to thank the NCUA for proposing a progressive new field of membership rule. I support increasing to 10 million the 2.5 million person limit which currently applies to community charters consisting of a combined statistical area; Creating a streamlined narrative approach that credit unions could utilize to establish a well defined community of interest; and allowing a credit union to designate a portion of a metropolitan division as a community without regard to division or boundaries.

Again, thank you for this proposal.
