Re: Comments of Stabilization Fund Closure

Please close the Temporary Corporate Stabilization Fund prior to year end and return funds in direct proportion to what we paid in. We believe this makes the most sense with regard to the two choices provided.

The NCUA should temporarily raise the NOL to 1.34 percent, which would cover the risk associated with NGN performance. Please do not raise this amount to 1.39. We feel it would be more advantageous to pay an assessment in the event a recession should that need ever arise.

Thank you for your consideration in this matter. If any questions, please feel free to contact me at: 503-251-2390 X116.

Sincerely,

Marilyn Coomber
Manager
