LIQUIDITY REPORT

1. Remaining Maturity Schedule: This schedule requires manual input. "Totals" are automatically calculated. Enter cash, investments, loans, shares, and borrowings in the schedule according to the remaining days to legal or contractual maturity. Record settlement loans repaid immediately and ongoing, which have no legal maturities in the 2-30 days bucket. Enter CUSO investments in the > 3 year bucket.

The total of the "Investment" column must agree with the TOTAL INVESTMENTS (less Derivative Contracts, less Retirement Account Investments, less securities purchased for Repo) on the Statement of Financial Condition (SFC). The total of the "Loan" column must agree with the amount listed in "NET LOANS" (plus the ALLL amount) on the SFC. The total of the "Share" column must agree with the amount listed in "TOTAL SHARES" on the SFC. The total of the "Borrowing" column must agree with the amount listed in the Borrowings total on line 7 of the SFC. If the totals of the aforementioned columns do not agree as stated above, a critical error message may appear.

2. Liquidity Commitments: This schedule requires manual input. "Totals" are automatically calculated. Explanations of the columns are:

INVESTMENTS BY SECTORS

Line items 1 through 11— Report for each investment sector, the respective information in the following columns:

- Aggregate Value (AV) – The aggregate value of relevant investments as recorded on the books of the Corporate. This measure includes the value of the investment after accreting or amortizing the investment purchase premium or discount, as applicable. This is typically the “book value” of the investment without regard to its accounting classification. For securities classified as AFS, do not include the mark-to-market adjustment.
- Fair Value (FV),
- Weighted Average Life (WAL), and
- AWAL, and Duration (Effective Duration).

The remaining columns are automatically calculated and no input is necessary. **Note – this schedule scrolls to the right.**

TOTAL Columns are calculated except for the following: WAL, AWAL, and Duration. Input the WAL, AWAL, and Duration results for the combined investments recorded in each of the 11 investment sectors. Do not include cash and Federal Reserve Bank Master Account balances in the investment sector concentrations.

INVESTMENT ISSUER CONCENTRATION LIMITS

This schedule is a matrix of investment issuer concentrations. The matrix contains 8 major columns headings with 15 numbered rows numbers. Each row should be a specific issuing obligator or counterparty. For each obligator or counterparty, populate the following information in each labeled column.

- **Obligors and Counterparties:** Report the corporate's 15 investment obligors and/or counterparties with the highest balance (concentration) at the end of the month. If there are less than 15, list all of the obligors and counterparties. **Whenever possible, use standard abbreviations. For example, abbreviate Fannie Mae as FNMA and Ginnie Mae as GNMA.**
- **Investments Exempt under 704.6(b):** Report the current amount of concentrations the corporate has that are exempt pursuant to 704.6(b).
- **Investments Subject to 704.6(c):** Report the current amount of concentrations the corporate has that are subject to 704.6(c).
- **Total Investments Limited to \$5 Million:** Report the current amount of concentrations the corporate has that are subject to the \$5 million limitation. These individual amounts compared to \$5 million, alert the corporate to how close it is to the regulatory maximum.
- **Total Investments Limited to 25% of Capital:** Report the current amount of concentrations the corporate has that are subject to the 25 percent of capital limitation. These individual amounts compared to the 25 percent of capital alerts the corporate to how close it is to the regulatory maximum.
- **Total Investments Limited to 50% of Capital:** Report the current amount of concentrations the corporate has that are subject to the 50 percent of capital limitation. These individual amounts, compared to the 50 percent of capital alerts the corporate to how close it is to the regulatory maximum.
- **Total Investments Limited to 100% of Capital:** Report the current amount of concentrations the corporate has that are subject to the 100 percent of capital limitation. These individual amounts compared to the 100% of capital alerts the corporate to how close it is to the regulatory maximum.
- **Total Investments Limited to 200% of Capital:** Report the current amount of concentrations the corporate has that are subject to the 200 percent of capital limitation. These individual amounts compared to 200% of capital alerts the corporate to how close it is to the regulatory maximum.

"TOTALS," under each column are auto calculated and locked; therefore, no input is required.

A warning message will occur if the sum of the columns labeled "Limited to \$5 million, Limited to 25% of Capital, Limited to 50% of Capital, Limited to 100% of Capital, and Limited to 200% of Capital" do not agree with the column labeled "Investments Subject to 704.6(c)."

NEV AND CAPITAL MEASURES

1. NEV
 - a) Date of Most Recent NEV Simulation: Date of the most recent NEV Simulation Model run.
 - b) Base Case NEV (\$): Base case NEV amount from the most recent NEV simulation.
 - c) NEV Ratio: NEV ratio resulting from the most recent NEV simulation.
 - d) Percentage NEV Change: Plus (+) 300 bps: Enter the NEV volatility measure in an instantaneous, permanent, and parallel plus (+) 300 bps shock.
 - e) Percentage NEV Change: Minus (-) 300 bps: Enter the NEV volatility measure in an instantaneous, permanent, and parallel minus (-) 300 bps shock.

2. WAL and other Regulatory Data
 - a) Effective WAL of Assets
 - b) Effective WAL of Investments
 - c) Effective WAL of Liabilities
 - d) Effective WAL of Loans

3. Retained Earnings: Calculated field.
 - a) Corporate Reserves: Automatically populates from SFC.
 - b) Undivided Earnings: Automatically populates from SFC.
 - c) Other Reserves: Automatically populates from SFC.
 - d) Accumulated Net Income/Loss not closed to Undivided Earnings

4. Adjusted Retained Earnings Acquired through Business Combination
 - a) Prior Month-End Adjusted Retained Earnings acquired through Business Combinations: Enter total for the month-ended adjusted retained earnings acquired through business combination. The total must be tracked by the corporate since it will not appear directly on the balance sheet.
 - b) Adjustments made to Retained Earnings acquired through Business Combinations: List any applicable adjustments. The total is expected to increase with additional combinations. The only time the amount would be expected to decrease would be due to accounting correction or because amounts were taken to cover losses exceeding the month's retained earnings balance.
 - c) Current Month's Total Adjusted Retained Earnings acquired through Business Combinations: Automatically calculated. This amount should agree to your net amount tracked.

5. Tier 1 Capital: Calculated Field.
 - a) Retained Earnings: Auto-populates from item 3 above.
 - b) Acquired Retained Earnings from Business Combinations: Auto-populates from item 4 above.
 - c) Allowable Perpetual Contributed Capital Accounts: Automatically calculated.
 - d) Minority interest in the equity accounts of CUSOs that are fully consolidated: Enter minority interests.
 - e) Intangible assets that exceed one half percent of MDANA: Amount of intangible assets that exceed one half percent of moving daily average net assets or MDANA.

 - c) Total Risk-Based Capital Ratio. Calculated field.

DANA AND EBA INFORMATION

9. Daily Average Net Assets
 - a) Current Report Period DANA: Report the daily average of net assets calculated for each day during the month. Net assets mean total assets less CLF stock subscriptions, CLF loans guaranteed by the NCUSIF, and member reverse transactions.
 - b) 12-Month Moving DANA: This cell should be inputted pursuant to the July 21, 2011, “Letter to the Corporate Credit Union Addressed,” which incorporates several options of reporting. It is the intent of Part 704 to require the calculation of MDANA using only corporate credit union assets. Therefore, MDANA is to be calculated using unconsolidated assets.
 - c) 12-Month Moving DANA taking into account PCC deduction: Calculated field.
 - d) Moving Monthly average net Risk-Weighted assets (MMANRA): This cell should be inputted pursuant to the July 21, 2011, “Letter to the Corporate Credit Union Addressed,” which incorporates several options of reporting. It is the intent of Part 704 to require the calculation of MMANRA using only corporate credit union assets. Therefore, MMANARA is to be calculated using unconsolidated assets.
10. Average daily balance transfers to the FRB under the EBA program: Enter the amount of the average daily transfers.

PCC CALCULATION

1. Tier 1 Capital Dollars: Auto-populates from NEV and Capital Measures page.
2. Retained Earnings: Auto-populates from NEV and Capital Measures page.
3. PCC: Auto-populates from NEV and Capital Measures page.
4. PCC less Retained Earnings
5. MDANA Dollars: Auto-populates from NEV and Capital Measures page.
6. 2 percent of MDANA: Calculated field.
7. Amount of PCC excluded from regulatory capital after October 2016 Amount of PCC included in Regulatory Capital. Auto-populates from NEV and Capital Measures page.
8. PCC included in regulatory capital: Calculated field.

RISK WEIGHTING

Risk-Weighting worksheet consists of placing asset values in specific cells of a matrix depending on two criteria, namely the type of asset and the asset's risk weighting according to Appendix C of Part 704. For example, under PART II: RISK-WEIGHTINGS, (a) On-Balance Sheet Assets, cash is afforded a risk weighting of zero. Therefore, all cash balances are reflected in the "Cash and Balances Due" row and the column headed by "0%." Likewise, private-issue mortgage-backed securities are afforded a 50 percent risk weighting, and are classified as either held to maturity or available for sale. A held-to-maturity private MBS balance is reflected in the 50 percent column, row labeled "Total Securities Held-to-Maturity." Asset categories are listed below. Totals for each category flow from schedule SFC. Amounts must be entered in the appropriate risk weighting field for each balance sheet category. For each line of the balance sheet categories, the amounts entered in the risk weighting categories should equal the amount from the SFC.

BALANCE SHEET ASSET CATEGORIES

1. Cash and Balances Due
2. Net Loans
3. Securities Held to Maturity
4. Securities Available for Sale
5. Securities in Trading Portfolio
6. Non-SFAS 115 Securities
7. Derivative Contracts
8. Net Fixed Assets
9. Accrued Income and Other Assets
10. Total Balances: Calculated field.

OFF BALANCE SHEET CATEGORIES

This portion of the matrix lists various off balance sheet categories numbered 11 through 18. Columns A and B require manual input. For each item listed in numbers 11 through 18, enter the “face value or notional amount” in column A; and the “Credit Conversion Factor” in column B. When entering the credit conversion factor, enter a decimal point first; for example, 10 percent would be entered as .10.

Column C: This column is shaded, auto calculated, and locked; therefore, no input is necessary. The “Credit Equivalent Amount” column is automatically computed by multiplying the “face value or notional amount” by the “Credit Conversion Factor.”

Columns D through H, line-items numbers 11 through 18: These columns require manual input. Enter the dollar amount or dollar value allocation of the individual off-balance sheet items listed in Column C (credit equivalent amounts) by the appropriate risk-weight category pursuant to Appendix C of NCUA Rules and Regulations, Part 704.

Total Off-Balance Sheet Items: Line item number 19 column totals are auto calculated. An error or warning may appear if the sum of line-item 19 (columns D through H) does not agree with line-item 19, column C.

Off-balance sheet line items 20 – Total assets and off-balance sheet items by risk-weight category, 21 – Risk-weight factor, 22 – Risk-weight assets by risk-weight category, and 23 – Total risk-weight assets are shaded, auto calculated, and locked; therefore, no input is necessary.

Off-Balance Sheet Categories

11. Off-Balance Sheet Derivative Contracts
12. Undrawn Advised Lines of Credit
13. Undrawn Committed Lines of Credit
14. Loan Participations
15. Forward Commitments
16. Irrevocable Stand-By Lines of Credit
17. Indemnification of Members/Securities
18. Other Off Balance Sheet

CUSO AND MISCELLANEOUS

CUSO

1. Net Income attributed to Consolidated CUSO activity: For consolidated CUSO information, list the net income for the period attributed to the consolidated CUSO activity. This amount should be the incremental CUSO addition, which may not necessarily equal the CUSO financial statements due to contractual arrangements between the CUSO and corporate. For example, the CUSO may charge

the corporate for certain fees while the corporate may charge the CUSO for rent. The net income should be without these cross-charges.

2. Net assets attributed to consolidated CUSO activity: Enter the net assets attributed to consolidated CUSO activity.
3. Dollar amount of loans to corporate CUSOs. For consolidated CUSO information, the dollar amount of loans attributed to the USO
4. Investments in CUSOs - Minority interest: Enter the fair value amount of minority interests in the equity accounts of CUSOs that are fully consolidated. Do not include minority interests in consolidated asset backed commercial paper (ABCP) programs of the corporate if you exclude the consolidated assets of such program from the risk-weighted assets pursuant to Appendix C of Part 704.
5. Investment in CUSOs reported under the equity method: Enter the dollar amount of the corporate's investments, both equity and debt, in unconsolidated CUSOs

MISCELLANEOUS

Report the following information:

1. Number of credit union members.
2. Number of non-credit union members.
3. Number of current members.
4. Whether the corporate shares expenses with an affiliated group.
5. Number of full-time employees or full-time equivalents.
6. Number of part-time employees or part-time equivalents.

PAYMENT SYSTEMS INFORMATION

Report payment systems information relevant to the services offered by the corporate.

AUTOMATED CLEARING HOUSE (ACH)

ACH originations, receipts, and returns should be for your corporate's activities only (those transactions processed on your RT Number).

For ACH DEBIT, ACH CREDIT, and ACH TOTALS, (items 1 through 9) report the following information:

Origination: Enter the total number and dollar amount of monthly transactions originated by the corporate. Transactions originated by the corporate are those ACH transactions originated on the corporate's routing and transit (RT) number. Activity of this type is usually for the corporate (payments to vendors, employees, settlement funding, etc.), on behalf of corporate entities such as CUSOs, or for members that cannot originate their own activity on their RT number.

Receipt: Enter the total number and dollar amount of monthly transactions received by the corporate. Transactions received by the corporate are those ACH transactions received on the corporate's RT number. Activity of this type may include incoming dividend or interest payments.

Returns: Enter the total number and dollar amount of monthly transactions returned by the corporate. Transactions frequently returned by the corporate are those ACH transactions received on the corporate's RT number that are actually receipt transactions for their member credit unions. Corporates typically initiate a notification of change identifying the correct RT number and return the transaction.

ACH TOTALS Additional Information

10. *Settlement:* Enter the aggregate of ACH activity settling through the corporate. Reported settlement activity is a total of the corporate's ACH transactions plus its members' transactions (originations, receipt, returns, adjustments, etc.) for which dollar settlement occurs at the corporate. Transactions should be reported as the total number of debits plus credits, as previously instructed. In the "Amount Columns," debits and credits should be netted.

11. *No. of CUs Subscribed to Origination:* Enter the number of members using ACH origination services.

12. *No. of CUs Subscribed to Receipt:* Enter the number of members using ACH receipt services.

13. *No. of CUs Subscribed to Settlement Only:* Enter the number of members only settling their ACH services at the corporate.

FUNDS TRANSFER

Domestic Third-Party: For items 1. & 2. enter the total number and dollar amounts incoming and outgoing domestic, third-party funds transfer orders originated by the corporate on behalf of its

members, CUSO's, or other organizations. This activity can be originated through the Federal Reserve Bank, another financial institution (bank or credit union), or other money transfer service such as Western Union, etc. Do not include funds transfer orders originated for the corporate itself such as settlement, investment, payments, etc. Transactions should be reported as the total number and dollar amount of domestic third-party funds transfer orders successfully processed. Wires cancelled or returned the same day due to incorrect or insufficient information may be omitted or netted out of the total number and dollar amount of transactions processed.

International Third Party: For items 3. & 4. enter the total number and dollar amount of incoming and outgoing international, third-party funds transfer orders originated by the corporate on behalf of its members, CUSO's, or other organizations. This activity may be originated through the Federal Reserve Bank, another financial institution (bank or credit union), or other international money transfer service such as MoneyGram, Western Union, Edge, etc. Transactions should be reported as the total number and dollar amount of international third-party funds transfer orders successfully processed.

Wires cancelled or returned the same day due to incorrect or insufficient information may be omitted or netted out of the total number and dollar amount of transactions processed.

Settlements: For item 5. enter the aggregate of funds transfer orders settling through the corporate. Reported settlement activity is a total of the corporate's transactions such as settlement, funding, investment transfer orders, etc. plus its member transactions. Transactions should be reported as the total number and gross dollar amount (outgoing domestic third-party, outgoing international third party, incoming third-party, incoming corporate wires, plus outgoing corporate wires).

CHECK PROCESSING

Report monthly check processing data (number of transactions and whole dollar totals) by category (paper vs image capture) for the corporate if it offers item processing services in-house or via a third-party service provider for whom the corporate has a direct servicing relationship. For example, if the corporate owns and operates their own in-house item processing service or contracts directly with a third-party service provider, which could be another corporate, report check processing data. If the corporate facilitates item processing for their members via a referral to a preferred third-party provider and does not receive statistical data regarding number and types of transactions processed, report only settlement totals, if available. If multiple services/providers are used for item processing, consolidate information to report one total per category. "Check Processing (Paper & Electronic)" statistics should include both domestic and international transactions, as appropriate.

Share Draft Clearing – Enter the total number of items and dollar amount of corporate and member share drafts presented and processed for payment.

Returns Process – Enter the total number and dollar amount of corporate and member share drafts returns processed.

Deposit Services – Enter the total number of items and dollar amount of check deposits presented for collection and processed by the corporate (or the corporate's service provider) on behalf of the corporate and/or its members.

Settlement Credit & Debit – For lines 4 & 5, enter the total number and dollar amount of settlement activity for those member credit unions that use a third-party processor for check processing (deposit or share draft clearing) but direct the settlement dollars to their corporate account. Report the total number of transactions, dollar amount of transactions, and number of credit unions subscribing to the service.

CARD PROGRAM SERVICES

For items 1 through 4 of this section, for each card program, report the number of transactions and the total dollar value of the transactions on the first line, and a brief description of the program and the number of credit unions participating in that card program on the second line.

SUSPICIOUS ACTIVITY REPORTING (SAR) FILINGS

This section of the call report is confidential and is not released to the public. For each category listed in items 1 through 5, list the total number of SARs filed in the current month and year-to-date.
