National Credit Union Administration

NCUA’s mission is to facilitate available credit union service to all eligible consumers, especially those of modest means, through a regulatory environment that fosters a safe, sound credit union system.

The National Credit Union Administration (NCUA) is the independent federal agency that charters and supervises federal credit unions throughout the United States and its territories.

NCUA administers the 1934 “Federal Credit Union Act” created by Congress to serve, protect and promote a safe, stable national system of cooperative financial institutions that encourage thrift and offer a source of credit for their members.

With the backing of the full faith and credit of the U.S. government, NCUA administers the National Credit Union Share Insurance Fund (NCUSIF), which insures the savings of more than 85 million account holders in all federal credit unions and the substantial majority of state-chartered credit unions.

NCUA is supported by the credit unions it supervises and insures through fees submitted to the NCUA Operating Fund and NCUSIF. NCUA also administers the Central Liquidity Facility (CLF) and the Community Development Revolving Loan Fund (CDRLF). The CLF serves as a back-up lender for member credit unions, while the CDRLF provides loans and grants to enhance low-income credit union operations.

The 2006 NCUA Annual Report is NCUA’s official report to the President and the Congress of the United States. The report contains the financial statements of the NCUA Operating Fund, NCUSIF, CDRLF and CLF.

Message from the Chairman

I am pleased to present the National Credit Union Administration’s (NCUA) 2006 Annual Report. The credit union system continues to demonstrate strength and stability with increased growth in assets, loans and shares and a minimal number of closures taking place in 2006.

Supporting the agency mission of providing a safe and sound credit union system of cooperative financial institutions, NCUA focused on a number of relevant issues in 2006, which included:

- Strengthen the supervision program and problem resolution;
- Address recurring charter and conversion issues;
- Enhance transparency, disclosure and financial literacy for members;
- Enhance data security and BSA compliance;
- Promote inclusion for the underserved; and
- Foster credit union development.

Several emerging issues were brought to the forefront calling upon NCUA to focus on transforming challenges to opportunities and producing change that will better serve the agency and the credit union industry as we move forward.

**Member service evaluation**

Responding to the Government Accountability Office and a Congressional request to measure service to credit union members and senior management compensation and benefits, NCUA’s Member Service Assessment Pilot Program (MSAP) accomplished the major task of collecting and analyzing data from 14 million member account records gathered from 448 randomly selected federal credit unions (FCUs).

The MSAP led to the formation of an NCUA Outreach Task Force directed by Board Member Hyland and organized to evaluate the agency’s current role and efforts in respect to credit unions’ service to members, including financial literacy and alternatives to predatory lending.

**Board actions**

Perhaps the most significant rule change, directly affecting members, increased retirement account insurance protection to $250,000 in federally insured credit unions effective April 1, 2006.
Additional major actions taken by the Board include:

• Enhanced information made available to members and federal credit union boards of directors considering converting a federally insured credit union to a mutual savings bank or mutual savings association;

• Reduced the 2007 National Credit Union Share Insurance Fund overhead transfer rate and the 2007 operating fee scale for federal credit unions, while minimizing the increase to the 2007 NCUA operating budget;

• Expanded federal credit union services affecting loan limits, selling and providing money transfer instruments, and cashing nonmember checks and money orders in compliance with the 2006 Financial Services Regulatory Relief Act; and

• Modified RegFlex expands eligibility by reducing minimum net worth requirements.

In concert with other federal agencies, the Board and NCUA took a number of joint actions and issued various materials, including:

• Consumer brochure explains the pros and cons of nontraditional mortgages;

• Regulatory alert advises credit unions of new minimum thresholds on certain mortgages as required by Truth in Lending, Regulation Z;

• Revised Federal Financial Institutions Examination Council (FFIEC) Information Security Booklet for examiners and financial institutions identifying information security risks and evaluating the adequacy of controls;

• Revised FFIEC Bank Secrecy Act/Anti-Money Laundering Examination Manual; and

• FFIEC disaster preparedness booklet-Lessons Learned from Hurricane Katrina.

**Board outreach**

In addition to many Board actions taken during 2006, NCUA Board Members participated in numerous outreach efforts. Each Board Member serves on various committees and last year orchestrated events and frequently visited and joined other federal agencies enhancing the role of credit unions within the financial services sector. Examples of the Board’s outreach include:

**Chairman JoAnn Johnson**

As a member of the U. S. Treasury Financial Literacy and Education Commission (FLEC) created by Congress in 2003 to establish a national strategy for financial education, I joined the Treasury Secretary and Deputy Assistant Secretary at numerous financial literacy events to raise financial awareness, stress financial education, and improve understanding of financial issues.

As Chair of FLEC’s [www.MyMoney.gov](http://www.MyMoney.gov) Website Subcommittee, I am responsible for coordinating the efforts of 20 federal agencies to provide resources on a wide range of personal finance topics. The website has thus far received approximately 1.5 million visits providing help in both English and Spanish.

I also hosted Access Across America Summits in Dallas and Norfolk. These free, one-day events provide credit union officials and board volunteers the knowledge to apply federal resources and partnerships to best serve members and help them achieve the American dream of financial self-sufficiency.
**Vice Chairman Hood**

During 2006 Vice Chairman Rodney E. Hood traveled extensively. Among the highlights, he joined the Massachusetts Credit Union League launch of a $100 million commitment to the Credit Union Community Hope Initiative; a nationwide effort aimed at providing nearly $1 billion in below-rate mortgage loans to lower-income, first-time homebuyers.

Vice Chairman Hood emphasized the performance of America’s credit unions in helping small businesses prosper visiting two of the largest producers of credit union member business loans in Texas during National Small Business Week. He visited state regulators in Colorado, Kansas and Kentucky discussing issues common to state and federally chartered credit unions—taxation, fields of membership and data collection.

The Vice Chairman held a Risk Mitigation Summit, in early 2007, where natural person and corporate credit unions met and shared current, sophisticated tools to mitigate balance sheet risks for credit unions of all asset levels and explore alternative investment opportunities.

**Board Member Gigi Hyland**

Board Member Hyland was my representative at the first meeting of the President's Identity Theft Task Force designed to strengthen federal efforts to protect against identity theft. Combining the efforts of various executive branch departments, the Federal Trade Commission, and the federal financial agencies, the goal of the Task Force is to deter identity theft and enhance protection of consumers’ personal data.

Board Member Hyland encouraged service to immigrants at the 4th Latino Conference during the 32nd Annual Meeting of The National Federation of Community Development Credit Unions, and she congratulated small and community development credit unions for taking an active role in serving the underserved from the many cultures represented in their communities.

As NCUA’s liaison to the Small Business Administration, Board Member Hyland and SBA officials co-hosted a webinar “All You Ever Wanted to Know About Being an SBA-Certified Lender.” The webinar highlighted SBA lending programs; how credit unions can help their members achieve the dream of owning a business and how NCUA’s business loan rule relates to SBA programs.

**Priorities moving forward**

The NCUA Board’s foremost priority is ensuring the safety and soundness of federally insured credit unions, and it is committed to providing a regulatory regime that allows federally insured credit unions to meet the needs of their members through innovation and flexibility.

The Board is dedicated to keeping credit unions at the forefront of providing financial services to their members as we review regulations and support regulatory improvements in coordination with Capitol Hill. The NCUA Board is united in designing and promoting programs that ensure quality service for members and enhance credit union opportunities to meet the challenges of providing an evolving range of financial services to current members as well as those who lack access to low-cost, quality financial service.

---

NCUA Chairman JoAnn Johnson

Message from the Chairman 7
Management’s Discussion and Analysis

NCUA accomplishes its mission of serving and maintaining a safe, secure credit union community using a dynamic structure.
NCUA Meets Challenges and Opportunities

Operationally, 2006 was a challenging and successful year for NCUA. It will stand out as a year in which NCUA addressed a number of significant issues. NCUA continued to underscore its long standing policy of the importance of full disclosure to credit union members when a corporate structure change is recommended by management. Full and adequate disclosure allows members the opportunity to make informed decisions on whether they prefer a credit union or bank structure. The new conversion rules adopted by the NCUA Board provide greater protection to federal credit union members without restricting the credit union’s ability to convert.

It was also a year in which NCUA issued guidance to credit union management reminding them to conduct proper due diligence on new member programs, particularly those associated with increased levels of risk. This was most evident in out-sourced indirect lending programs. 2006 will also be remembered as a year when NCUA, as a result of the legal challenges to its field of membership policies allowing all charter types to add underserved areas, was forced to limit the addition of underserved access to only multiple group credit unions. This policy change makes it more difficult for federal credit unions to serve lower income individuals and groups outside the traditional fields of membership.

**Risk focused examination improved**

In 2006, NCUA continued to strengthen the risk focused examination, which remains the critical examiner tool for ensuring a safe and sound credit union system. The examination program was updated to include enhanced examination procedures for evaluating credit union disaster preparedness and response. These procedures were developed based on lessons learned from Hurricane Katrina. New examination procedures were also developed for Information Systems & Technology, Consumer Compliance, and the Bank Secrecy Act. It is expected that the risk focused examination will continue to evolve as new challenges emerge.

**Member Service Assessment Pilot Program results**

Congress and the Government Accountability Office raised a number of important questions relative to whether federal credit unions continue to serve their mission and purpose. In response, NCUA designed the Member Service Assessment Pilot Program (MSAP) to collect data on the membership profile of federal credit unions, the types of services federal credit unions provide their membership, and the total compensation of federal credit union executives. This project was completed within the Office of Management Budget’s imposed deadline of August 31, 2006, at a cost of over $1.1 million to NCUA.
Overall, MSAP provides the most conclusive data available on the membership profiles of federal credit unions with over 14 million accounts analyzed. Importantly, MSAP provided data that:

- Demonstrated federal credit unions are serving those they have been chartered to serve—working individuals;

- Confirmed the expectation that federal credit unions designated as low-income, with underserved areas, or with a community base have better opportunities to serve lower income groups and individuals and have more diverse membership profiles as compared to federal credit unions with more restrictive common bonds and fields of membership; and,

- Strengthened NCUA’s previous position that changes in membership profiles do not occur immediately—they take time.

Staff made a number of recommendations in the MSAP report which the NCUA Board will take under advisement and study in 2007.

**Efficient operations**

The budget and operating fee for 2007 reflects the agency’s commitment to maintain fiscal responsibility and remain diligent in its spending, while accomplishing its annual goals and objectives. The NCUA Board adopted a 2007 budget of $152 million which represents a $1.2 million, or 0.81 percent increase over the 2006 budget. The Board also approved a 2007 operating fee decrease of 1.54 percent and a reduction in the 2007 overhead transfer rate to 53.3 percent from the 2006 rate of 57 percent. NCUA staffing will remain unchanged at 958 full-time equivalents.
NCUA Structure and Programs

NCUA accomplishes its mission of serving and maintaining a safe, secure credit union community using a dynamic structure. Headquartered in Alexandria, Virginia, NCUA has five regional offices. Assigned to the regions, the bulk of NCUA staff are its 445 examiners who scrutinize the credit unions regularly to ensure safe and sound operations. NCUA’s Board and executive director are located in Alexandria headquarters along with the following major offices that administer the agency’s various programs.

The Office of the Executive Director is responsible for the agency’s daily operation and the executive director reports directly to the NCUA Chairman. All regional and central office directors report to the executive director and NCUA’s Equal Opportunity Program is included in this office.

The Office of Examination and Insurance (E&I) provides national guidance for NCUA’s supervision program ensuring the safety and soundness of federally insured credit unions. Within E&I, the Division of Supervision oversees NCUA’s examination and supervision program. The Division of Risk Management oversees the agency’s credit union problem resolution program and compiles the financial data submitted quarterly by all federally insured credit unions.

The Office of Public & Congressional Affairs (PACA) includes Congressional Affairs, which covers federal legislation and serves as NCUA’s liaison with Capitol Hill and fellow government agencies. Public Affairs is the source of information about NCUA and its functions for the public, credit unions, league and trade organizations, the media and NCUA employees.

The Office of Small Credit Union Initiatives (OSCUI) fosters credit union development, facilitates expansion of credit union services through new charters and field of membership expansions, and coordinates efforts, with third-party organizations, to improve the viability and successful operation of credit unions. OSCUI also administers the Community Development Revolving Loan Fund, which supports low-income designated credit unions serving low-income communities with low-interest loans and grants.

The Office of General Counsel is responsible for legal matters affecting NCUA. This includes representing the agency in litigation, executing administrative actions, interpreting the Federal Credit Union Act and NCUA Rules and Regulations, processing Freedom of Information Act
requests, advising the Board and the agency on general legal matters, and drafting regulations designed to ensure the safety and soundness of credit unions.

The Office of Capital Markets and Planning (OCMP) develops agency policies and procedures related to credit union investments and asset liability management, and the office assists examiners in evaluating investment issues in credit unions. OCMP also provides expert advice to the Board on investment issues. NCUA's strategic planning program directs the agency's long-range and annual planning process, which includes providing Congress with the annual NCUA plan, plus tracking and reporting on goal achievement.

The Office of the Chief Financial Officer is responsible for agency budget preparation and management, ongoing finance and accounting functions, and administration of credit union operating fees and National Credit Union Share Insurance Fund capitalization deposits.

The Office of Corporate Credit Unions (OCCU) supervises the corporate credit union system. Corporate credit unions provide a variety of investment services and payment systems for other credit unions. There are 30 corporate credit unions that range from $6.1 million to $43 billion in assets.

The Asset Management and Assistance Center (AMAC) conducts credit union liquidations and performs management assistance and asset recovery. The office assists NCUA regional offices with the review of large, complex loan portfolios and actual or potential bond claims. Staff also participates extensively in the operational phases of conservatorships and records reconstruction.
Supervision Programs Evolve in 2006

5300 Call Report streamlined
In 2006, NCUA restructured the 5300 Call Report to consolidate information, reduce ancillary schedules and make the form easier to use. Beginning with the June 30, 2006, reporting cycle, all federally insured credit unions began using the same Call Report. The revised form has 16 rather than 19 pages and only the first 10 pages require input by all credit unions. The streamlined form improves the agency’s efficiency, increases the accuracy of the information collected and simplifies the reporting process for all credit unions.

Authentication practices improved
Consistent with the Federal Financial Institutions Examination Council (FFIEC) initiative, NCUA issued guidance in 2006 to strengthen the authentication process credit union members use for accessing Internet-based services. Single factor authentication, such as user name and password or PIN, is inadequate for high-risk transactions via Internet-based services.

Bank Secrecy Act (BSA) compliance vigilance maintained
Part 748 of the NCUA Rules and Regulations was revised to provide greater detail regarding Suspicious Activity Report (SAR) content and filing requirements. NCUA participated in revision of the FFIEC BSA/AML Examination Manual as well as in several BSA outreach webinars, teleconferences and training seminars providing BSA compliance guidance to credit unions.

Disaster recovery preparedness emphasized
In 2006, NCUA increased its focus on disaster preparedness and business continuity utilizing the lessons learned from Hurricane Katrina. NCUA worked with the FFIEC in issuing the booklet Lessons Learned From Hurricane Katrina: Preparing Your Institution for a Catastrophic Event to share these lessons with all federally insured financial institutions. NCUA also updated the examination program to assist examiners in reviewing credit union disaster preparedness efforts.

Earnings evaluation guidance issued
NCUA issued supervisory guidance to examiners, which was shared with credit unions, concerning the evaluation of credit union earnings. In today’s fluctuating financial environment, each credit union’s earnings level must be evaluated relative to net worth needs, financial and operational risk exposure, the current economic climate, and the institution’s strategic plan. The guidance emphasized there is no simple metric for determining an individual credit union’s optimal return on assets (ROA), and NCUA must take a balanced approach when assessing earnings.
The Office of Public & Congressional Affairs (PACA) conveys agency information and activities to the credit union industry, other federal agencies, trade and league organizations and the news media. PACA also works closely with Capitol Hill, informing Congress of relevant agency and credit union issues and assisting legislators develop and modify pertinent statutory provisions affecting NCUA and credit unions. PACA also welcomes visitors to the agency.

Outreach programs
In addition to disseminating agency proceedings via the NCUA NEWS newsletter, Board Action Bulletin, media releases and the annual report, PACA takes an active role in helping orchestrate and highlight numerous Board Member and agency events during the year.

For example, in 2006 PACA worked with the White House, U.S. Treasury, Federal Trade Commission, Justice Department, Department of Housing and Urban Development, Small Business Administration, Department of Agriculture and Operation Restore Hope coordinating events and schedules to ensure NCUA and its Board are active participants in many federal and private outreach programs that support and enhance the lives and financial well-being of current and potential credit union members across the country.

The wide-ranging programs span a myriad of projects and social services such as home ownership fairs, identity theft and personal identity protection, small business lending seminars, financial literacy, and direct deposit via Treasury’s GoDirect program.

On Capitol Hill
NCUA’s Community Development Revolving Loan Fund received $941,000 in 2007 to fund grants that can be disseminated over two years. A $1.5 billion borrowing authority was approved for the NCUA Central Liquidity Facility Fund.

PACA worked closely with Congress to ensure the adopted Financial Services Regulatory Relief Act of 2006 contained provisions beneficial to the credit union industry, such as:

• Check-cashing and money-transfer services are available for nonmembers within a credit union’s field of membership.

• Unsecured federal credit union loan maturity increased from 12 to 15 years;

• Credit unions can utilize the “pooling” method for calculating net worth when two healthy credit unions merge.

• U.S. Military can once again charge a nominal fee, rather than fair market value, to credit unions leasing land on military bases.

• Credit unions, as well as other financial institutions, must disclose when deposits are not federally insured.

PACA worked with financial regulatory agencies and went on record with its concerns about some provisions within the adopted John Warner National Defense Authorization Act, which provides predatory lending protection for the military.
The Financial Netting Improvements Act of 2006 helps all financial institutions deal with the net amount of obligations in multiple financial contracts between two parties. PACA worked to make changes in the initially incorrect bill language.

**NCUA testifies**
- March 1, 2006—Chairman Johnson presented recommendations for regulatory relief for credit unions before the Senate Banking, Housing and Urban Affairs Committee.
- May 11, 2006—Chairman Johnson testified on the H.R. 3206, Credit Union Charter Choice Act before the House Financial Institutions and Consumer Credit Subcommittee.

**Priorities in the 110th Congress**
- Credit Union Regulatory Improvement Act (CURIA)
- Prompt Corrective Action (PCA)
- Field of Membership
- Protecting Americans from predatory lending and payday lenders
- Financial Literacy
- Consumer protection—Financial disclosures, ID thief, etc.

In 2007, NCUA will closely follow debate surrounding updates to the credit union statutory framework as CURIA is introduced in the 110th Congress. The agency supports several salient provisions, particularly those to create a risk-based capital regime coupled with meaningful PCA reform.

**Strategic goals**
PACA strives to enhance the agency’s interaction on Capitol Hill, with other financial regulatory agencies at the federal and state levels, and its commitment to provide our audience with relevant NCUA information, pertinent and useful to the credit union industry.
Enforcement, Litigation and Regulation

Office of General Counsel

Enforcement orders issued
NCUA continues to use its supervisor enforcement tools, in appropriate cases, to deal with abuses in federally insured credit unions. During 2006, the agency issued 32 prohibitions and 22 civil money penalty assessments. The civil money penalty assessments were issued for late submission of data required by the Home Mortgage Disclosure Act. The total amount of civil money penalties assessed was $174,500.

Litigation—One FOM lawsuit
At the close of 2006, one banker lawsuit in Pennsylvania was pending that challenges NCUA field of membership actions.

Regulation changes
In 2006, the Office of General Counsel addressed a broad range of regulatory reforms, including lending requirements, expanded share insurance coverage, chartering issues, and organizational matters, issuing updated Federal Credit Union Bylaws and enhancing procedures and information for members and boards of directors when they consider converting a credit union to a mutual savings bank.

Passage of the Financial Service Regulatory Relief Act of 2006 prompted regulatory changes, which included, among other things, raising the general maturity limit for loans and permitting money transfer services for nonmembers within a field of membership. In addition, NCUA completed a rule on indirect vehicle lending and continued work on interagency regulations implementing the Fair and Accurate Credit Transactions Act.
The mission of the Office of Small Credit Union Initiatives (OSCUI) is to assist in the agency’s risk mitigation program and encourage credit union development, particularly the expansion of services small credit unions provide to eligible consumers.

OSCUI had a tremendously successful year in the areas of Training, Assistance and Partnerships.

**Training**—OSCUI’s nationwide training functions were popular events in 2006. Approximately 1,900 credit union representatives attended the 20 workshops, 22 league meetings, 14 call report clinics, and 10 roundtables held. Attendees were provided information to expand member services, address regulatory and operational issues and network with other credit union officials.

OSCUI plans to conduct 20 workshops and other training events in 2007. Visit the NCUA’s website [http://www.ncua.gov/CreditUnionDevelopment/events/Index.htm](http://www.ncua.gov/CreditUnionDevelopment/events/Index.htm) for locations and dates.

**Assistance**—OSCUI provides credit unions with financial assistance through the Community Development Revolving Loan Fund Program and on-site assistance via the National Small Credit Union Program.

- Doubled the size of the loan portfolio by approving 23 loans totaling over $4 million; and
- Increased the loan portfolio to $7.4 million.

More Fund activity and accomplishments can be found in the Community Development Revolving Loan Fund section of this report.

**Community Development Revolving Loan Fund Program**

As of December 31, 2006, there are 1,053 low-income designated credit unions (LICUs) eligible to participate in the Community Development Revolving Loan Fund Program (Fund) technical assistance grant and loan programs.

**During 2006, the Fund**

- Received $940,500 in multi-year net appropriations for technical assistance;
- Processed 488 grant applications;
- Processed 24 loan applications;
- Awarded $1,371,130 of $1,583,083 in TAG requests to 289 LICUs from appropriations and earnings;
- Increased the loan portfolio to $7.4 million.

National Small Credit Union Program Economic Development Specialists (EDS) provided over 6,000 hours of expert one-on-one, on-site assistance to small credit unions nationwide. These visits provide an opportunity for small credit unions to address operational issues, reinvigorate management or explore ideas for accelerating growth. Small credit unions are encouraged to participate in either the regional or national Small Credit Union Program. Small credit unions can contact their NCUA regional office to determine eligibility.
Partnerships—Last year OSCUI established a foundation for 2007 and beyond. In recognition of the credit union industry’s passion for building partnerships with their communities, OSCUI has created and will be implementing The Resource Connection, an agency Internet portal site. This site will consist of three major sections:

1. The Credit Union Connection
2. The Partnership Connection
3. The Training Connection

This will streamline the process for credit unions and NCUA to gather information pertaining to partnerships (resources) as well as funding and training opportunities. It will also provide a system for sharing credit union business practice information across the nation. For example, NCUA has been instrumental in sharing partnership information and cultivating two ongoing relationships with both the Internal Revenue Service and the Department of Health and Human Services that have resulted in asset building and financial education services for credit union members.

Priorities going forward
As OSCUI moves ahead in 2007, the office will focus on enhancing existing programs and working to provide the following opportunities for credit unions to:

- Eliminate technology barriers for credit unions that are not computerized;
- Serve as a resource to NCUA’s Outreach Task Force;
- Sponsor “Back to Basics” training nationwide for credit unions; and
- Release The Resource Connection project.
Management’s Discussion and Analysis

Investments, ALM and Planning Move Forward

The Office of Capital Markets and Planning (OCMP) is responsible for the agency’s capital market policy and examiner training as well as strategic and annual performance planning.

**Capital Markets**
Within OCMP, Capital Markets experts provide examiner training in investments and asset liability management, and they are responsible for related policy and examination issues. In addition, staff supplies on-site examination assistance for corporate and natural person credit unions.

In 2006, the Division of Capital Markets completed an 18-month project to revise and update the examiner training courses for investments and asset-liability management. Also, several investment pilot program applications were reviewed and brought to the NCUA Board for action.

OCMP participates in the review, implementation and enforcement of NCUA regulation Part 703, Investment and Deposit Activities. OCMP staff provided policy guidance for the final rule change amending Part 703 issued by the Board in December 2006. The rule permits federal credit unions to engage in repurchase transactions involving mortgage notes (“whole loan repos”).

**Planning, economic analysis and web services**
The Division of Planning facilitated the continued enhancement and integration of Government Performance Results Act (GPRA) performance planning, economic analysis, web services and continuity of operations planning and training into day-to-day NCUA operations.

Among major efforts in 2006, the Division of Planning staff developed the NCUA Annual Performance Budget 2007, NCUA Annual Performance Report 2005, Continuity of Operations Planning for Avian Flu Pandemic and Natural Disasters, and completed the Office of Management and Budget Performance Assessment Rating Tool evaluation for the NCUSIF. Planning staff also assumed responsibility for and focused on enhancing the NCUA website as an effective communication tool.

Additionally the Division of Planning facilitated, on behalf of the NCUA executive director, the agency Strategic Management Council (SMC) and the Information Technology Oversight Committee (ITOC). Staff also served as the NCUA representative on several national contingency exercises concerning avian flu pandemic preparation and readiness.
The assets of the corporate system remained relatively stable in 2006, increasing slightly from 2005. On average, month-end total assets in 2006 were approximately $117 billion compared to $109 billion in 2005. In March 2006, corporate assets reached a high of $128.5 billion and declined toward the average over the next several months. The dollar amount of capital continues to increase. Capital levels are appropriate considering the very low level of risk in corporate credit union investment portfolios.

**About consolidation**

During 2006, two very large corporates (Empire and Mid-States) merged to form Members United Corporate Federal Credit Union. The merger served as a catalyst for merger discussions among other corporate credit unions. At year-end there were several merger proposals in development that will be acted upon in 2007. Each corporate’s...
The assets of the corporate system remained relatively stable in 2006, increasing slightly from 2005.

Capital levels are appropriate considering the very low level of risk in corporate credit union investment portfolios.

board of directors is assessing its own future goals and objectives and determining how best to achieve desired results. Many see consolidation as the most viable means to provide the best products and services to members. Moving forward, market conditions will determine the number of corporate credit unions that remain.

Cooperative efforts prove successful

The Office of Corporate Credit Unions (OCCU) worked closely with corporate credit unions on a number of projects of mutual interest during 2006. Most significantly, numerous meetings were held to review the possibility of adopting a risk-based capital system for corporates. In the end, it was agreed that while the proposal would not be pursued at the present time, it might be revisited in the future. Additionally, OCCU worked with the corporates to develop guidance in the areas of Internet authentication and compliance with Bank Secrecy Act and Office of Foreign Assets Control requirements.

**Total for All Corporates (Excluding U.S. Central)**: $85,204,566,065

| U.S. Central Federal CU        | Lenexa, Kansas       | $43,357,826,896     |

- Many see consolidation as the most viable means to provide the best products and services to members.
- OCCU worked closely with corporate credit unions on a number of projects of mutual interest.
The Asset Management and Assistance Center (AMAC) performs the following services:

- Administers involuntary liquidations;
- Pays insured shares to account holders;
- Manages and disposes of assets acquired by the NCUSIF;
- Prepares and negotiates bond claims on assigned cases; and
- Provides consulting and training services.

**2006 highlights**

AMAC ended the year with 62 open liquidation cases after closing the books on 20 and adding 12 new cases. Of the 12 new liquidations, 6 were fraud related, bringing the total to 26 fraud related cases outstanding at the end of the year. All liquidation payouts for verified share balances were made in three business days or less, while some expedited payouts were made the first business day following liquidation.

AMAC had an active year resolving liquidation issues and providing consulting services. During 2006 AMAC:

- Resolved several liquidation related lawsuits, eliminating any continued exposure to the NCUSIF.
- Finished research work and filed five bond claims, bringing estimated outstanding bond claim recoveries to over $5 million.
- Completed 15 consulting assignment requests related to real estate, commercial lending, recordkeeping, and loan valuation issues. These consulting assignments are designed to mitigate future loss exposure to the NCUSIF.
- Increased training assistance by developing and instructing four different training classes in coordination with the Office of Training and Development.
This excellence in stewardship is only possible through the dedication of many individuals across the agency.
The National Credit Union Administration finished another challenging and successful year. We received unqualified or “clean” opinions from our independent financial auditors. This marks a lengthy period, beginning in the early 1980’s, that the agency’s funds have received consecutive unqualified opinions on their respective financial statements. The report and statements for the National Credit Union Share Insurance Fund, the NCUA Operating Fund, the NCUA Central Liquidity Facility, and the NCUA Community Development Revolving Loan Fund can be found in the section titled Auditors’ Report and Financial Statements.

In today’s environment, federal agencies must also demonstrate their strong internal control and compliance with laws and regulations. Government Auditing Standards, issued by the Comptroller General of the United States, provide the framework by which auditors evaluate these matters. I am also pleased that our independent auditors’ report on internal control over financial reporting and on compliance did not note any material weaknesses or instances of noncompliance.

During 2006, the agency continued its successful efforts to ensure compliance with many applicable federal requirements. The following are examples.

The Prompt Payment Act requires payments be made within 30 days of receipt of an invoice; otherwise, interest is applicable on late payments. For 2006, the agency did not pay any interest penalties for late payments.

The Debt Collection Improvement Act centralizes the government-wide collection of delinquent debt (over 180 days) with the U.S. Treasury and compels the use of electronic funds transfer (EFT) for federal payments. For 2006, all uncollected delinquent debt has been referred to the U.S. Treasury for collection. Additionally, the agency made 99.8 percent of payments by EFT and realized $21,000 in savings delivering employee cash awards by EFT rather than by check.

The Improper Payments Information Act requires agencies to review their programs and activities to identify those susceptible to significant improper payments. Significant improper payments are defined as annual improper payments in a program exceeding both 2.5 percent of program payments and $10 million. An improper payment is any payment that should not have been made or that was made in an incorrect amount under statutory, contractual, and administrative or other legally applicable requirements. NCUA has reviewed our programs and determined that none are susceptible to a high risk of significant improper payments.

This excellence in stewardship is only possible through the dedication of many individuals across the agency. Going forward, we can expect to be held to a higher level of standards as well as added pressure to be more efficient and effective. We remain dedicated to NCUA’s safety and soundness mission and to deliver results.

Sincerely,

Dennis Winans
Chief Financial Officer
The Central Liquidity Facility provides liquidity for all member credit unions and can invest in U.S. government and agency obligations, deposits of federally insured institutions and shares or deposits in credit unions.

The Community Development Revolving Loan Program provides loans and grants to low-income designated credit unions.

The National Credit Union Share Insurance Fund (NCUSIF) is the federal fund created by Congress in 1970 to insure member deposits in credit unions up to $100,000 and retirement IRA and Keogh accounts up to $250,000. Administered by the National Credit Union Administration, the NCUSIF is backed by the “full faith and credit” of the U.S. Government.

The Operating Fund, which is funded by federal credit unions, in conjunction with the National Credit Union Share Insurance Fund finances NCUA operations.

**Fund Messages**

The following pages present a description of individual NCUA fund program operations and related activities that took place during 2006.
The Central Liquidity Facility (CLF) is a “mixed ownership Government corporation” managed by the National Credit Union Administration Board and owned by member credit unions. Created in 1978, CLF serves as a back-up lender to meet the unexpected liquidity needs of its members when funds are unavailable from standard credit sources.

**CLF borrowing cap maintained**
By statute, CLF is authorized to borrow from any source up to 12 times its subscribed capital stock and surplus. Since fiscal year 2001, Congress has approved a $1.5 billion borrowing limit and the same amount was recommended for fiscal year 2007.

**CLF operations**
After funding operating expenses in 2006, CLF paid members dividends of approximately 100 percent of net investment income for the 12th consecutive year. The average member dividend was 5.12 percent.

During 2006, CLF approved two loan requests. While corporate credit unions continue to meet most liquidity needs, the CLF remains ready and able to meet the liquidity needs of the credit union system when unusual, unexpected or extreme events occur.

**CLF receives 26th clean audit opinion**
The CLF received an unqualified audit opinion on its 2006 financial statements from independent auditors Deloitte & Touche LLP.
CDRLF Supports Economic Growth

Objectives
The Community Development Revolving Loan Fund (CDRLF) supports the efforts of low-income designated credit unions (LICUs) through loans and grants to those credit unions by:

- Providing basic financial and related services to residents in their communities; and
- Stimulating economic activities in the communities they serve, which results in:
  - increased income and ownership opportunities;
  - employment opportunities; and
  - other community growth efforts (e.g., asset building initiatives).

Low-income designated credit unions
NCUA has designated 1,053 credit unions as low-income. The number of LICUs has increased from 142 at year-end 1990 to 1,053 at year-end 2006. Interested credit unions can contact their NCUA regional office for designation information.

The year in review
NCUA successfully accomplished the CDRLF objectives. Credit unions receiving financial assistance from the CDRLF in 2006 provided services to approximately 850,000 members.

CDRLF loan program
No additional appropriations were allocated to the loan program in 2006. Previous years’ appropriations were used to fund 2006 loan activities. The CDRLF doubled the size of the loan portfolio by approving 23 loans, at 1 percent interest, totaling over $4 million. Twenty-four credit unions applied for loans. Currently, the CDRLF loan portfolio has 70 outstanding loans totaling approximately $7.4 million. Loan proceeds are used to:

- Expand member services;
- Fund risk based lending programs;
- Construct an office building;
- Provide loans to communities without financial services as an alternative to payday loans; and
- Fund financial education services.

LICUs can visit the NCUA website http://www.ncua.gov/CreditUnionDevelopment/Index.htm to access program information.
Technical assistance grant program

During 2006, $940,500 in multiyear appropriations for technical assistance was received and committed. In 2006, NCUA awarded $1,371,130 of $1,583,083 in technical assistance grant (TAG) requests to 289 LICUs from appropriations and CDRLF earnings. The graph below illustrates how TAGs were used by credit unions.

Credit unions used TAG funding to:

- Overcome language barriers in a multicultural community;
- Infuse funds in the community by providing free tax preparation services;
- Enhance financial literacy communicating the benefits of using a mainstream financial institution as an alternative to predatory lenders;
- Develop partnerships with community based organizations to provide financial education opportunities for the community youth; and
- Strengthen community connections by offering financial services through multilingual radio announcements.

Fiduciary responsibility

The CDRLF received another consecutive unqualified audit opinion on its December 31, 2006, financial statements from independent auditors Deloitte & Touche LLP. The audited financial statements, accompanying footnotes and independent auditors’ report appear later in this report. In addition, the CDRLF is subject to audit by the Government Accountability Office.

Priorities going forward

Low-income designated credit unions have the capacity to touch the lives of the members of their communities. NCUA will continue to support the efforts of credit unions that reach out and make an impact in their communities through an effective, accessible loan and grant program.
The National Credit Unions Share Insurance Fund (NCUSIF) continued its trend of steady growth, favorable earnings and minimal failures in 2006. Insured shares grew 3.6 percent and the year ended with slightly over a 1.30 percent NCUSIF equity ratio. The “normal operating level,” specified by the NCUA Board, shall be not less than 1.2 percent and not more than 1.5 percent. The Board established a 1.3 percent normal operating level for 2006.

Because the equity ratio rose above the 1.3 percent level in 2006, the NCUSIF will issue a dividend to credit unions. This is the seventh cash dividend issued by the NCUSIF. The last dividend was declared in 2000 and issued in early 2001. Similarly, the 2006 dividend will be paid to all federally insured credit unions in early 2007 in compliance with requirements of the Credit Union Membership Access Act (CUMAA).

The dividend calculation is based on certified credit union statements for the final reporting period of the calendar year. The ability to pay a dividend for 2006 is attributed to the overall good health of insured credit unions and the financial soundness of the NCUSIF.

CUMAA requires a dividend distribution be made to insured credit unions after calendar year-end provided:
1. Federal government loans to the fund and any interest on loans have been repaid;
2. Fund equity ratio exceeds the normal operating level; and
3. Fund available asset ratio exceeds 1.0 percent.

The dividend calculation is based on certified credit union statements for the final reporting period of the calendar year. The ability to pay a dividend for 2006 is attributed to the overall good health of insured credit unions and the financial soundness of the NCUSIF.

**Earnings increase**
NCUSIF earnings were $266.2 million before expenses of $84.6 million in 2006. Most earnings were derived from the NCUSIF’s $7.0 billion investment portfolio comprised of U.S. Treasury securities with maturities of five years or less. The increase in investment earnings resulted from a high yield in Treasury overnight securities. The overnight rate averaged 5.24 percent during December. Operating costs of $82.1 million were $1.6 million higher than 2005.

**Reserve level decreased**
The NCUSIF ended 2006 with $70.2 million in reserves set aside to
protect against future or potential losses. NCUSIF reserves decreased a net of $2.8 million over the year, and unallocated NCUSIF reserves were $51.2 million at December 31, 2006.

**Failures remain low**

Sixteen credit unions failed during 2006, resulting in $6.0 million charged to reserves. In accordance with Generally Accepted Accounting Principles (GAAP), insurance losses are incurred when loss reserves are established for institutions considered a possible risk to the NCUSIF. Most of these credit unions are classified CAMEL code 4 or 5 institutions.

Money spent on failed institutions is charged to the NCUSIF reserve account and not reflected as insurance loss expense. The number of problem code credit unions decreased to 240 from 280 during 2006. Insured shares in these credit unions decreased to $5.2 billion from $5.8 billion during 2006 representing approximately 1 percent of total insured shares at year-end.

**Insurance increased on retirement accounts**

Effective April 1, 2006, the Federal Deposit Insurance Reform Act of 2005 increased deposit insurance coverage on certain retirement accounts to $250,000 from $100,000.

**23rd unqualified opinion earned**

The Fund received its 23rd consecutive unqualified audit opinion on December 31, 2006, financial statements from independent auditors Deloitte & Touche LLP. The audited financial statements, accompanying footnotes and independent auditors report appear later in this report.

The National Credit Union Share Insurance Fund continues to be audited by an independent accounting firm, and it is subject to audit by the General Accounting Office.

*This number represents the total number of deferrals processed upon initial receipt of an expansion request. Some of these initial deferrals were subsequently approved or denied.
Operating fee assessment
The operating fee assessment rate charged to individual federal credit unions decreased 1.95 percent primarily due to federal credit union asset growth and the small increase in the agency’s budget in 2006. For federal credit unions affected by Hurricanes Katrina and Rita, hurricane related funds in member accounts were excluded from the operating fee formula, resulting in $167,102 in relief. A total $63.6 million in operating fees was collected.

Overhead transfer rate
The National Credit Union Share Insurance Fund (NCUSIF) reimburses the fund for insurance related expenses through the overhead transfer. The overhead transfer rate, based on the amount of insurance work performed by NCUA staff, is calculated annually and applied to actual expenses incurred. For 2006, $80.6 million was reimbursed based on the 57 percent overhead transfer rate.

Operating expenses
Operating expenses were $4.0 million under the 2006 budget of $64.8 million. The variance is primarily attributed to staff vacancies during the year averaging 2.9 percent below the 957.92 authorized staffing level. This is the lowest percentage of vacancies since 1997.
NCUA Annual Performance Summary

NCUA met all annual performance goals in 2006.
NCUA met all annual performance goals in 2006. By meeting its goals, NCUA accomplished an important step toward its ultimate mission objective to facilitate the availability of credit union services to all eligible consumers, especially those of modest means, through a regulatory environment that fosters a safe and sound credit union system.

Overall, 2006 was marked by favorable financial results for federally insured credit unions. They had another good year with increases in assets, loans, shares and net worth. The National Credit Union Share Insurance Fund (NCUSIF) likewise remained financially strong and well positioned to protect the member accounts of all federally insured credit unions. As an independent federal agency, NCUA objectively carries out its oversight responsibilities. Though independent of credit unions, the performance of NCUA and the health of the insurance fund correlate strongly with the general strength and well being of the credit union movement. This correlation is the basis upon which NCUA defines and measures its operating performance.

The table below presents budgeted and actual agency resources in both dollars and full time equivalent (FTE) staff positions and allocation estimates of these resources to the fulfillment of NCUA’s strategic goals. NCUA accomplished oversight of the credit union system and management of the NCUSIF using fewer resources than budgeted, highlighting one important measure of agency efficiency and effectiveness in 2006.
**Program Evaluations**

The Office of Management and Budget completed a Program Assessment Rating Tool Evaluation (PART) of NCUA’s Regulatory Program in 2006. The PART review did not reveal any material deficiencies requiring corrective action. NCUA received the rating—Moderately Effective—during the PART Evaluation.

In addition to the PART review, NCUA had various independent reviews performed during 2006 including:

- Financial Statement Audits performed by Deloitte & Touche LLP
- Federal Information Security Management Act review
- Various reviews performed by the Government Accountability Office
- Network penetration testing performed by KPMG
- Information technology customer service survey
- Office of Human Resources Audit by the Office of Personnel Management

A clean opinion was received on the audit and no material deficiencies were noted during any of the other reviews noted above.

**Integrity of Data**

NCUA maintains a high degree of confidence in the data it collects. The examination and supervision programs for natural person and corporate credit unions employ multiple checks and balances to evaluate processes and to validate data collected from federally insured credit unions. A few of the processes include:

- Surveillance Systems Working Group
- 5300 Call Report Program (Natural Person)
- 5310 Call Report Program (Corporate)
- Information System and Technology Program

With respect to NCUA’s own financial statements, an outside independent accounting firm conducts annual certified public accountant audits on the National Credit Union Share Insurance Fund, National Credit Union Administration Operating Fund, Community Development Revolving Loan Program and the Central Liquidity Facility to ensure that the financial statements are fairly stated in all material respects.

**NCUA 2006 Performance**

NCUA measures its success of performance in terms of strategic goal achievement. Based on its mission, performance of the credit union system drives NCUA strategic goal achievement. NCUA has only influence, not direct control of credit union performance. The strategic and annual performance goals therefore serve only as proxies of NCUA success. Accordingly, the results of the annual performance goals must be viewed collectively to determine overall strategic goal achievement. The following tables provide an overview of NCUA's annual and strategic goal achievement in 2006.
**STRATEGIC GOAL 1**
A safe, sound and healthy credit union system.

</tbody>
</table>

\(^1\) Market share is based on the percentage of federally insured assets held by credit unions in relation to all federally insured assets—both NCUA and FDIC insured assets.

\(^2\) Consumer credit is based on the percentage of revolving and non-revolving credit held by credit unions in relation to all revolving and non-revolving credit outstanding. Consumer credit includes credit held by the following—commercial banks, finance companies, credit unions, federal government, savings institutions, and pools of securitized assets. This information is released monthly by the Federal Reserve.
We conducted our audits in accordance with auditing standards generally accepted in the United States of America.
INDEPENDENT AUDITORS’ REPORT

To the Inspector General of
National Credit Union Administration

We have audited the financial statements appearing on pages 48-75 of this Annual Report of respectively, the National Credit Union Share Insurance Fund, the National Credit Union Administration Operating Fund, the National Credit Union Administration Central Liquidity Facility, and the National Credit Union Administration Community Development Revolving Loan Fund (collectively, the “NCUA Funds”) as of and for the years ended December 31, 2006 and 2005. These financial statements are the responsibility of the National Credit Union Administration’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the NCUA Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the National Credit Union Share Insurance Fund, of the National Credit Union Administration Operating Fund, of the National Credit Union Administration Central Liquidity Facility, and of the National Credit Union Administration Community Development Revolving Loan Fund as of December 31, 2006 and 2005, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

1. ORGANIZATION AND PURPOSE

The National Credit Union Share Insurance Fund (the “Fund” or “NCUSIF”) was created by the Public Law 91-468 (Title II of the Federal Credit Union Act), which was amended in 1984 by Public Law 98-369. The Fund was established as a revolving fund in the United States Treasury under the management of the National Credit Union Administration (“NCUA”) Board for the purpose of insuring member share deposits in all federal credit unions and in qualifying state credit unions that request insurance. The maximum amount of insurance is $100,000 per shareholder account and $250,000 on certain retirement accounts.

NCUA exercises direct supervisory authority over federal credit unions and coordinates required supervisory involvement with the state chartering authority for state-chartered credit unions insured by the Fund. Insured credit unions are required to report certain financial and statistical information to NCUA on a semiannual or quarterly basis depending on the size of the credit union and are subject to periodic examination by NCUA. Information derived through the supervisory and examination process provides the Fund with the ability to identify credit unions experiencing financial difficulties that may require assistance from the Fund.

Credit unions experiencing financial difficulties may be assisted by the Fund in continuing their operations if these difficulties are considered by the Fund to be temporary or correctable. This special assistance may be in the form of a waiver of statutory reserve requirements, a guarantee account, and/or cash assistance. If continuation of the credit union’s operations with Fund assistance is not feasible, a merger partner may be sought. If the assistance or merger alternatives are not practical, the credit union is liquidated.

The first form of special assistance is waivers of statutory reserve requirements, whereby the credit union is permitted to cease making additions to its regular reserve and, in more severe cases, to commence charging operating losses against its regular reserve. When all reserves have been depleted by the credit union, the Fund may provide a reserve guarantee account in the amount of the reserve deficit. In addition, the Fund may provide cash assistance in the form of share deposits and NCUSIF subordinated notes, or may purchase assets from the credit union.

Mergers of financially troubled credit unions with stronger credit unions may also require Fund assistance. Merger assistance may be in the form of cash assistance, purchase of certain assets by the Fund, and/or guarantees of the values of certain assets (primarily loans).

When a credit union is no longer able to continue operating and the merger and assistance alternatives are not practical, the Fund will liquidate the credit union, dispose of its assets, and pay members’ shares up to the maximum insured amount. The values of certain assets sold (primarily loans) are sometimes guaranteed to third-party purchasers by the Fund.

2. SIGNIFICANT ACCOUNTING POLICIES

Investments—Title II of the Federal Credit Union Act limits the Fund’s investments to United States Government securities or securities guaranteed as to both principal and interest by the United States Government. All investments are classified as held-to-maturity under Statement of Financial Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities. Accordingly, the Fund records investments at amortized cost. Amortized cost is the face value of the securities plus the unamortized premium or less the unamortized discount.

Cash and Cash Equivalents—The Federal Credit Union Act permits the Fund to make investments in United States Government securities or securities guaranteed as to both principal and interest by the United States Government. Cash equivalents are highly liquid investments with original maturities of three months or less.

Assets Acquired in Assistance to Insured Credit Unions—The Fund acquires the assets of liquidating credit unions pending their ultimate disposition. To assist in the merger of credit unions, the Fund may purchase certain credit union assets. In addition, the Fund may provide cash assistance by acquiring non-performing assets of a credit union experiencing financial difficulty. These acquired assets are maintained by the Asset Management and Assistance Center in Austin, Texas, and are recorded by the Fund at their estimated net realizable value.
Advances to Insured Credit Unions—The Fund provides cash assistance in the form of interest and noninterest-bearing NCUSIF (“National Credit Union Share Insurance Fund”) subordinated notes (carried at face value), share deposits, and loans to certain credit unions to assist them in continuing their operations.

Depreciation and Amortization—Furniture and equipment are recorded at cost. Equipment acquired under capital lease agreements is recorded at the present value of the future minimum lease payments. Depreciation and amortization are computed by the straight-line method over the estimated useful lives of the furniture and equipment and the shorter of the estimated useful life or lease term for capital leases. Estimated useful lives are three years for the furniture, equipment and capital leases.

Guarantees—Guarantees are recorded in accordance with FASB Interpretation No. 45, Guarantor’s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, which requires the Fund to recognize, at the inception of a guarantee, a liability for the fair value of obligation undertaken in issuing the guarantee.

Premium Revenue—The Fund may assess each insured credit union a premium charge for insurance in an amount stated as a percentage of insured shares outstanding as of December 31 of the preceding insurance year if the Fund’s equity ratio is less than 1.3% (Note 5).

Income Taxes—The Fund is exempt from Federal income taxes under Section 501(c)(1) of the Internal Revenue Code.

Fair Value of Financial Instruments—The following methods and assumptions were used in estimating the fair value disclosures for financial instruments:

Investments—The fair value for investments is the quoted market value.

Cash and Cash Equivalents—The carrying amounts for cash and cash equivalents approximate fair values.

Loans to Credit Unions—It is not practicable to estimate the fair value of these assets as there is no secondary market. All outstanding loans are secured by a perfected lien against the assets of the credit union and are fully secured.

Other—Accrued interest receivable, due from/to NCUA Operating Fund, note receivable from NCUA Operating Fund, contributions receivable from insured credit unions, due to insured shareholders of liquidated credit unions, accounts payable, and obligations under capital leases are recorded at book values, which approximate the respective fair values.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management’s estimates. The more significant estimates include the estimated losses from supervised credit unions and the allowance for loss on assets acquired in assistance to insured credit unions.

3. FIXED ASSETS

At December 31, 2006 and 2005, fixed assets are comprised of the following (in thousands):

<table>
<thead>
<tr>
<th></th>
<th>2006</th>
<th>2005</th>
</tr>
</thead>
<tbody>
<tr>
<td>Furniture and equipment</td>
<td>$ 501</td>
<td>$ 500</td>

<td>(812)</td>
<td>(1,633)</td>
</tr>
<tr>
<td>Total fixed assets—net</td>
<td>$ 762</td>
<td>$ 104</td>
</tr>
</tbody>
</table>

Accumulated amortization balances for equipment under capital leases as of December 31, 2006 and 2005, totaled (in thousands) $311 and $1,133, respectively.
4. PROVISION FOR INSURANCE LOSSES

Management identifies credit unions experiencing financial difficulty through NCUA’s supervisory and examination process. The estimated losses from these supervised credit unions are determined by management on a specified case basis. Management also evaluates overall economic trends and monitors potential system-wide risk factors such as increasing levels of consumer debt, bankruptcies, and delinquencies. NCUA applies a rating system to assess a credit union’s financial condition and operations in the areas of Capital Adequacy, Asset Quality, Management, Earnings, and Asset/Liability Management (“CAMEL”). The CAMEL Rating System is a tool to measure risk and allocate resources for supervisory purposes. NCUA periodically reviews the CAMEL Rating System to respond to continuing economic and regulatory changes in the credit union industry. For non-specified case reserve requirements, risk profile categories are established based on the CAMEL ratings of problem credit unions, and probable failure and loss rates are applied based on historical data. The anticipated losses are net of estimated recoveries from the disposition of the assets of failed credit unions.

Total estimated insurance in force as of December 31, 2006 and December 31, 2005, is $535.3 billion and $516.6 billion, respectively, which includes natural person and corporate credit unions. The total net reserves for identified and anticipated losses from supervised credit unions’ failures are $70 million and $73 million at December 31, 2006 and 2005, respectively.

In exercising its supervisory function, the Fund will, at times, extend guarantees of assets (primarily loans) to third-party purchasers or to credit unions to facilitate mergers. The Fund would be obligated upon non-performance. No such guarantees were outstanding at December 31, 2006 and 2005. The estimated losses from asset and merger guarantees are determined by management on a case-by-case evaluation.

In addition, the Fund may grant a guaranteed line-of-credit to a third party credit provider, such as a corporate credit union or bank, if a credit union has a current or immediate liquidity concern and the credit provider has refused to extend credit without a guarantee. The Fund would be obligated if the credit union failed to perform. Total line-of-credit guarantees of credit unions at December 31, 2006 and 2005, are approximately $20 million and $2.2 million, respectively. The total balances outstanding under these line-of-credit guarantees at December 31, 2006 and 2005 are approximately $0 and $2.1 million, respectively. The carrying amount of the liability as of December 31, 2006, for the outstanding NCUSIF guarantee is $422,876. All guarantees outstanding at December 31, 2006 expire on March 31, 2007.

From time to time, the Fund provides indemnifications in merger assistance agreements to acquiring credit unions. Such indemnifications make the Fund contingently liable based on the outcome of legal actions. No such indemnification contingencies existed at December 31, 2006.

The activity in the reserves for estimated losses from supervised credit unions for the periods ended December 31, 2006 and 2005, was as follows (in thousands):

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

5. FUND CAPITALIZATION

The Credit Union Membership Access Act of 1998 (“CUMAA”) mandated changes to the Fund’s capitalization provisions effective January 1, 2000. Each insured credit union shall pay to and maintain with the Fund a deposit in an amount equaling 1% of the credit union’s insured shares. The amount of each insured credit union’s deposit shall be adjusted as follows, in accordance with procedures determined by the NCUA Board, to reflect changes in the credit union’s insured shares: (i) annually, in the case of an insured credit union with total assets of not more than $50 million; and (ii) semiannually, in the case of an insured credit union with total assets of $50 million or more. The annual and semiannual adjustments are based on member share deposits outstanding as of December 31 of the preceding year and June 30 of the current year, respectively. The 1% contribution will be returned to the insured credit union in the event that its insurance coverage is terminated, or is obtained from another source, or the operations of the Fund are transferred from the NCUA Board.
The CUMAA mandates certain premium charges from insured credit unions and distributions from the Fund under certain circumstances. A premium charge to insured credit unions is required if the Fund’s equity ratio (as defined in the CUMAA) falls below 1.2% of insured shares. Also, pro rata distributions to insured credit unions after each calendar year are required if, as of year-end:

(i) Any loans to the Fund from the Federal Government, and any interest on those loans, have been repaid;

(ii) The Fund’s equity ratio exceeds the normal operating level (as defined in the CUMAA, an equity ratio specified by the NCUA Board, which shall be not less than 1.2% and not more than 1.5%);

(iii) The Fund’s available assets ratio, as defined in the CUMAA, exceeds 1.0%.

The NCUA Board set the normal operating level for 2007 and 2006 at 1.30%. The calculated equity ratios at December 31, 2006 and December 31, 2005, were 1.304% and 1.28%, respectively.

Beginning in 2000, the CUMAA mandates that dividends are determined from specific ratios, which are based upon year-end reports of insured shares. Accordingly, dividends associated with insured shares at year-end are declared and paid in the subsequent year.

The NCUA Board will convene early in 2007 to declare dividends payable on insured shares as of December 31, 2006, because the equity ratio of 1.304% is above the normal operating level of 1.30%. Total insured shares as of December 31, 2006 and December 31, 2005, were estimated to be $535.3 billion and $516.6 billion, respectively.

6. INVESTMENTS

All cash received by the Fund that is not used for outlays related to assistance to insured credit unions and liquidation activities is invested in U.S. Treasury securities.

At December 31, 2006 and 2005, investments consist of the following (in thousands):

| Maturities after     | 3.26              | 2,499,383            | -                    | (35,367)             |
| one year through     |                   |                      |                      | 2,464,016            |
| five years           |                   |                      |                      |                      |
| Total                | $4,808,210        | $ -                  | $(56,632)            | $4,751,578           |

Total investment purchases during 2006 and 2005 were approximately $2.6 billion and $2.3 billion, respectively. Investment maturities during 2006 and 2005 were approximately $2.1 billion and $1.9 billion, respectively. The Fund has the capability and management has the intention to hold all investments held at December 31, 2006 and 2005 to maturity. There were no investment sales during 2006 and 2005.

7. AVAILABLE BORROWINGS

The Fund is authorized by the Federal Credit Union Act to borrow from the Treasury of the United States, upon authorization by the NCUA Board, up to a maximum of $100,000,000. The NCUA Central Liquidity Facility (“CLF”) is authorized to make advances to the Fund under terms and conditions.
established by the NCUA Board. No borrowings were obtained from these sources during 2006 and 2005.

8. TRANSACTIONS WITH NCUA OPERATING FUND

Substantial administrative services are provided to the Fund by the NCUA Operating Fund. The NCUA Operating Fund charges the Fund for these services based on an annual allocation factor approved by the NCUA Board and derived from a study of actual usage conducted by the management of these Funds. The allocation factor was 57% to the Fund for both 2006 and 2005. The cost of services provided by the NCUA Operating Fund was approximately $80,642,000 and $78,832,000 for 2006 and 2005, respectively, and includes pension contributions of approximately $6,629,000 and $6,304,000 to the Civil Service Retirement System and Federal Employees Retirement System defined benefit retirement plans for 2006 and 2005, respectively.

In 1992, the Fund entered into a commitment to fund up to $41,975,000 through a thirty-year secured term note with the NCUA Operating Fund. The monies were advanced to the NCUA Operating Fund as needed to fund the costs of constructing a building. Interest income was approximately $873,000 and $626,000 for 2006 and 2005, respectively. The note receivable balances at December 31, 2006 and 2005 were approximately $22,461,000 and $23,802,000, respectively.

The above note matures as follows (in thousands):

<table>
<thead>
<tr>
<th>Year</th>
<th>Secured Term Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>2007</td>
<td>$ 1,341</td>
</tr>
<tr>
<td>2008</td>

<tr>
<td>2011</td>
<td>1,341</td>
</tr>
<tr>
<td>Thereafter</td>
<td>15,756</td>
</tr>
<tr>
<td>Total</td>
<td>$22,461</td>
</tr>
</tbody>
</table>

The variable rate on the term note is equal to the Fund’s prior-month yield on investments. The average interest rates during 2006 and 2005 were approximately 3.79% and 2.57%, respectively. At December 31, 2006 and 2005, the rates were 4.29% and 3.19%, respectively.

The NCUA Operating Fund leases certain office space and equipment under operating lease agreements that expire through 2014. Based on the allocation factor determined by the NCUA’s Board, the Fund reimbursed the NCUA Operating Fund approximately 57% of the total lease payments. The cost of services provided by the NCUA Operating Fund includes rental charges of approximately $422,700 and $452,300 for December 31, 2006 and 2005, respectively.

Based on the allocation factor approved by the NCUA Board for 2007, NCUSIF will reimburse the Fund for approximately 53.3% of the future operating lease payments. The Fund’s allocation of the NCUA Operating Fund’s total future minimum lease payments on operating leases as of December 31, 2006, is expected to be as follows (in thousands):

<table>
<thead>
<tr>

11. CONCENTRATIONS

There are no significant concentrations of member share deposits within any region of the United States. Concentrations of member shares do exist within the manufacturing, governmental, and educational industries.

12. CONTINGENCIES

The Fund is currently a party to a number of disputes that involve or may involve litigation. In the opinion of management, the ultimate liability with respect to any other disputes, if any, will not be material to the Fund’s financial position.

See notes to financial statements.
1. ORGANIZATION AND PURPOSE

The National Credit Union Administration Operating Fund (the “Fund”) was created by the Federal Credit Union Act of 1934. The Fund was established as a revolving fund in the United States Treasury under the management of the National Credit Union Administration (“NCUA”) Board for the purpose of providing administration and service to the Federal Credit Union System.

2. SIGNIFICANT ACCOUNTING POLICIES

Cash Equivalents—The Federal Credit Union Act permits the Fund to make investments in United States Government securities or securities guaranteed as to both principal and interest by the United States Government. Cash equivalents are highly liquid investments with original maturities of three months or less. All investments in 2006 and 2005 were cash equivalents and are stated at cost, which approximates fair value.

Depreciation and Amortization—Building, furniture, equipment and leasehold improvements are recorded at cost. Capital leases are recorded at the present value of the future minimum lease payments. Depreciation and amortization are computed by the straight-line method over the estimated useful lives of the building, furniture, and equipment, and the shorter of the estimated useful life or lease term for leasehold improvements and capital leases. Estimated useful lives are forty years for the building and three to ten years for the furniture, equipment, and leasehold improvements.

Operating Fees—The Fund assesses each federally chartered credit union an annual fee based on the credit union’s asset base as of the preceding December 31. The fee is designed to cover the costs of providing administration and service to the Federal Credit Union System. The Fund recognizes this operating fee revenue ratably over the year.

Income Taxes—The Fund is exempt from Federal income taxes under Section 501(c) (1) of the Internal Revenue Code.

Fair Value of Financial Instruments—The following methods and assumptions were used in estimating the fair value disclosures for financial instruments:

Cash and cash equivalents, receivables from National Credit Union Share Insurance Fund (“NCUSIF”) and National Credit Union Administration Central Liquidity Facility (“NCUA CLF”), employee advances, other accounts receivable, accounts and notes payable to NCUSIF, and other accounts payable are recorded at book values, which approximate the respective fair values.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management’s estimates.

3. FIXED ASSETS

Fixed assets are comprised of the following at December 31, 2006 and 2005 (in thousands):

<table>
<thead>
<tr>
<th></th>
<th>2006</th>
<th>2005</th>
</tr>
</thead>
<tbody>
<tr>
<td>Office building and land</td>
<td>$42,651</td>
<td>$42,626</td>
</tr>
<tr>
<td>Furniture and equipment</td>
<td>11,900</td>
<td>13,338</td>
</tr>
<tr>
<td>Equipment under capital leases</td>
<td>2,983</td>
<td>3,243</td>
</tr>
<tr>
<td>Assets under construction</td>
<td>139</td>
<td>-</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>57,673</td>
<td>59,207</td>
</tr>
</tbody>
</table>

Less accumulated depreciation and amortization | (22,364) | (24,008) |

**Fixed assets—net** | $35,309  | $35,199  |
4. TRANSACTIONS WITH NCUSIF

Certain administrative services are provided by the Fund to NCUSIF. The Fund charges NCUSIF for these services based upon an annual allocation factor approved by the NCUA Board and derived from a study of actual usage. The allocation factor was 57% to NCUSIF for both 2006 and 2005. The cost of the services allocated to NCUSIF, which totaled approximately $80,642,000 and $78,832,000 for 2006 and 2005, respectively, is reflected as a reduction of the corresponding expenses in the accompanying financial statements.

In 1992, the Fund entered into a commitment to borrow up to $41,975,000 in a thirty-year secured term note with NCUSIF. The monies were drawn as needed to fund the costs of constructing a building in 1993. Interest costs incurred were approximately $873,000 and $626,000 for 2006 and 2005, respectively. The note payable balances at December 31, 2006 and 2005, were approximately $22,461,000 and $23,802,000, respectively.

The above note requires principal repayments at December 31, 2006 as follows (in thousands):

<table>
<thead>
<tr>
<th>Year</th>
<th>Secured Term Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>2007</td>
<td>$1,341</td>
</tr>
<tr>
<td>2008</td>
<td>1,341</td>
</tr>
<tr>
<td>2009</td>
<td>1,341</td>
</tr>
<tr>
<td>2010</td>
<td>1,341</td>
</tr>
<tr>
<td>2011</td>
<td>1,341</td>
</tr>
<tr>
<td>Thereafter</td>
<td>15,756</td>
</tr>
<tr>
<td>Total</td>
<td>22,461</td>
</tr>
</tbody>
</table>

The variable rate on the note is equal to NCUSIF’s prior-month yield on investments. The average interest rates during 2006 and 2005 were 3.79% and 2.57%, respectively. The interest rates at December 31, 2006 and 2005, were 4.29% and 3.19%, respectively.

5. TRANSACTIONS WITH NCUA CLF

Certain administrative services are provided by the Fund to NCUA CLF. The Fund charges NCUA CLF for these services based upon rates approved by the NCUA Board. The costs of the services provided to NCUA CLF were $253,000 and $220,000 for 2006 and 2005, respectively, and are reflected as a reduction of the corresponding expenses in the accompanying financial statements.

Other accounts receivable include approximately $95,000 and $91,000 of amounts due from NCUA CLF as of December 31, 2006 and 2005, respectively.

6. LEASE COMMITMENTS

Description of Leasing Agreements—The Fund has entered into a number of lease agreements with vendors for the rental of office space, as well as the lease of office equipment that includes laptops, printers, monitors, and copiers.

Operating Leases—The Fund leases office space under lease agreements that expire through 2014. Office rental charges amounted to approximately $741,600 and $793,600 of which approximately $422,700 and $452,300 was reimbursed by NCUSIF for 2006 and 2005, respectively. In addition, the Fund leases office equipment under operating leases with lease terms of less than one year.

Capital Leases—The Fund leases equipment under lease agreements that expire through 2009.
The future minimum lease payments as of December 31, 2006, are as follows (in thousands):

<table>
<thead>
<tr>
<th>Year</th>
<th>Operating Leases</th>
<th>Capital Leases</th>
</tr>
</thead>
<tbody>
<tr>
<td>2007</td>
<td>$ 663</td>
<td>$ 960</td>
</tr>
<tr>
<td>2008</td>
<td>561</td>
<td>954</td>
</tr>
<tr>
<td>2009</td>
<td>575</td>
<td>240</td>
</tr>
<tr>
<td>2010</td>
<td>297</td>
<td>-</td>
</tr>
<tr>
<td>2011</td>
<td>303</td>
<td>-</td>
</tr>
<tr>
<td>Thereafter</td>
<td>704</td>
<td>-</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$3,103</strong></td>
<td>2,154</td>
</tr>
<tr>
<td>Less imputed interest</td>
<td></td>
<td><strong>(16)</strong></td>
</tr>
</tbody>
</table>

Present value of net minimum lease payments $2,138

Based on the allocation factor approved by the NCUA Board for 2007, NCUSIF will reimburse the Fund for approximately 53.3% of the future operating lease payments.

7. **RETIEMENT PLANS**

The employees of the Fund are participants in the Civil Service Retirement and Disability Fund, which includes the Federal Employees’ Retirement System (“FERS”). Both plans are defined benefit retirement plans covering all of the employees of the Fund. FERS is comprised of a Social Security Benefits Plan, a Basic Benefits Plan, and a Savings Plan. Contributions to the plans are based on a percentage of employees’ gross pay. Under the Savings Plan, employees can also elect additional contributions between 1% and 15% of their gross pay, up to $15,000 in 2006, and the Fund will match up to 5% of the employees’ gross pay. In 2006 and 2005, the Fund’s contributions to the plans were approximately $11,630,000 and $11,060,000, respectively, of which approximately $6,629,000 and $6,304,000, respectively, were reimbursed by NCUSIF.

The Fund does not account for the assets of the above plans and does not have actuarial data with respect to accumulated plan benefits or the unfunded liability relative to eligible employees. These amounts are reported by the U.S. Office of Personnel Management for the Civil Service Retirement and Disability Fund and are not allocated to individual employers.

8. **DISCLOSURES OF FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying amount and the estimated fair value of the Fund’s financial instruments are as follows (in thousands):

<table>
<thead>
<tr>
<th></th>
<th>December 31, 2006</th>
<th>December 31, 2005</th>
</tr>
</thead>
<tbody>
<tr>

<td>2,138</td>
</tr>
<tr>
<td>Note payable to NCUSIF</td>
<td>22,461</td>
<td>22,461</td>
</tr>
</tbody>
</table>

9. **CONTINGENCIES**

The Fund is currently a party to a number of disputes that involve or may involve litigation. In the opinion of management, the ultimate liability with respect to any other disputes, if any, will not be material to the Fund’s financial position.

10. **HURRICANE RELATED MATTERS**

As part of its regulatory relief and forbearance efforts for credit unions and their members impacted by hurricanes, the NCUA Board allowed credit unions that are located in hurricane-affected areas to pay an operating fee that was based on assets that excluded hurricane-related Federal Emergency Management Agency and insurance payouts. This resulted in a reduction in operating fee collections in the amount of $167,000 during 2006.
Once again in 2007, the NCUA Board will again allow credit unions that are still affected by the hurricanes to pay a reduced operating fee. In the opinion of management, this will not have a material impact on operating fee collections.

11. RETAINED EARNINGS APPROPRIATION

In 2006, the NCUA Board established an appropriation of the Fund’s fund balance in an effort to more transparently disclose and communicate to stakeholders earnings that are needed for major projects that cannot be accrued or that do not warrant inclusion in the annual operating expense budget. The initial appropriation of $1,000,000 is for repairs and maintenance on NCUA’s Alexandria headquarters building.

12. COMMITMENTS

NCUA shares a common plaza and parking garage with owners of real estate adjacent to their headquarters office building. In 2006, NCUA, along with the other owners, entered into contracts for the restoration and preservation of the Alexandria, Virginia King Street Station complex’s plaza and garage. The value of the contracts totals $3,465,624 with $721,028 for NCUA’s share. As of December 31, 2006, the Fund has advanced $237,939 towards the project and has recorded $139,000 as construction in progress and the remainder as a prepaid expense. The Fund is expected to pay an additional $483,089 for this work in 2007. The project is expected to be completed in 2007.

1. ORGANIZATION AND PURPOSE

The National Credit Union Administration Central Liquidity Facility (“CLF”) was created by the National Credit Union Central Liquidity Facility Act (the “Act”). CLF is designated as a mixed-ownership government corporation under the Government Corporation Control Act. CLF exists within the National Credit Union Administration (“NCUA”) and is managed by the National Credit Union Administration Board. CLF became operational on October 1, 1979.

The purpose of CLF is to improve general financial stability by meeting the liquidity needs of credit unions. CLF is a tax-exempt organization under Section 501(c)(1) of the Internal Revenue Code.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—CLF maintains its accounting records on the accrual basis of accounting.

Loans and Allowance for Loan Losses—Loans, when made to members, are on a short-term or long-term basis. For all loans, CLF may obtain a security interest in the assets of the borrower. In determining the allowance for loan losses, when applicable, CLF evaluates the collectibility of its loans to members through examination of the financial condition of the individual borrowing credit unions and the credit union industry in general.

Funds on Deposit with U.S. Central Federal Credit Union—CLF invests in redeposits and share accounts at U.S. Central Federal Credit Union (see Notes 5 and 9). These are non-transferable, non-negotiable instruments that are acquired at face value and carried at cost.

Fair Value of Financial Instruments—The following methods and assumptions were used in estimating the fair value disclosures for financial instruments:

Cash—The carrying amounts for cash approximate fair value.

Investments—Fair values of financial instruments with maturities over one year are computed using the market rate of interest at year-end. For financial instruments with maturities of one year or less, the carrying amounts approximate fair value.

Loans—For loans advanced to member credit unions, the carrying amounts approximate fair value.

Member Deposits—Funds maintained with the CLF in excess of required capital amounts are recorded as member deposits. These deposits are due upon demand and the carrying amounts approximate the fair value.

FFB Notes Payable—For notes issued to the Federal Financing Bank, when applicable, the carrying amounts approximate fair value.

Other—Accrued interest receivable, accounts payable and other liabilities are recorded at book values, which approximate the respective fair values.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management’s estimates.

3. GOVERNMENT REGULATIONS

CLF is subject to various Federal laws and regulations. CLF’s operating budget requires Congressional approval, and CLF may not make loans to members for the purpose of expanding credit union loan portfolios. CLF’s investments are restricted to obligations of the United States Government and its agencies, deposits in Federally insured financial institutions, and shares and deposits in credit unions. Borrowing is limited by statute to twelve times the subscribed capital stock and surplus. However, there is a Congressional limitation of $1.5 billion on funds that are borrowed and then loaned out to credit unions at any one point in time.
At December 31, 2006 and 2005, CLF was in compliance with its borrowing authority. Borrowings would be from the Federal Financing Bank with interest generally payable upon maturity (see Notes 6 and 12).

4. LOANS TO MEMBERS

There were no loans or loan commitments outstanding at December 31, 2006 and 2005. CLF can provide members with extended loan commitments.

5. FUNDS ON DEPOSIT WITH U.S. CENTRAL FEDERAL CREDIT UNION

Funds not currently required for operations are invested as follows (in thousands):

<table>

</tbody>
</table>

A Memorandum of Understanding (“MOU”), effective July 1, 2005, sets forth the understanding of CLF and the U.S. Central Federal Credit Union (“USC”) concerning the investments by CLF in USC Share Accounts and Certificates.

As provided in the MOU, all investments by CLF in shares of USC will be in either the Share Account or Share Certificates. The Share Account is a three-month, fixed rate account that provides for automatic re-investment at maturity and daily availability of funds with no penalty for early withdrawal. The Share Account is only available to CLF. In the event of liquidation of the USC, shares in the account will be redeemable in full, prior to the redemption of any other shares of USC.

The Share Certificates are fixed rate, with a maturity fixed upon issuance (three or five years under the current MOU). Redemption prior to maturity is permitted, in whole or in part, if the CLF requests early redemption and if the USC and the CLF agree on an “early redemption value”. The Share Certificates are neither negotiable nor assignable.

6. BORROWING AUTHORITY

CLF is authorized by statute to borrow, from any source, an amount not to exceed twelve times its subscribed capital stock and surplus.

On July 15, 1999, the National Credit Union Administration signed a note purchase agreement with the Federal Financing Bank on behalf of CLF. The first promissory note under that note purchase agreement originally provided for a commitment amount of $20.7 billion. Subsequently, the note purchase agreement expired on September 30, 2000, and was extended through amendments annually. The amount of each promissory note was reduced to $5 billion and expires yearly on the 31st of March. The current promissory note expires March 31, 2007. Congress, however, has restricted CLF’s borrowing authority to $1.5 billion for the fiscal years 2005, 2006 and 2007, for the principal amount of new direct loans to member credit unions. Borrowings would be from the Federal Financing Bank with interest generally payable upon maturity. During 2006, CLF borrowed amounts totaling $6,210,600 from the Federal Financing Bank under two separate loan agreements, which it, in turn, loaned to a member credit union. All amounts borrowed during 2006 were repaid by December 31, 2006.

The Secretary of the Treasury is authorized by the Act to lend up to $500 million to CLF in the event that the Board certifies to the Secretary that CLF does not have sufficient funds to meet the liquidity needs of credit unions. This authority to lend is limited to such extent and in such amounts as are provided in advance by Congressional Appropriation Acts. On December 23, 1981, the President signed PL 97-101, which provided $100 million of permanent indefinite borrowing authority that may be provided by the Secretary of the Treasury to CLF to meet emergency liquidity needs of credit unions.

7. CAPITAL STOCK AND MEMBER DEPOSITS

The required capital stock account represents subscriptions remitted to CLF by member credit unions. Regular members’ required subscription amounts equal one-half of one percent of their paid-in and unimpaired capital and surplus, one-half of which is required to be remitted to CLF. Agent members’ required subscription amounts equal one-half of one percent of the paid-in and unimpaired capital and surplus of all of the credit unions served by the agent member, one-half of which is required to be remitted to CLF. In both cases, the remaining one-half of the subscription is required to be held in liquid assets by the member credit unions subject to call by the National Credit Union Administration Board. These
unremitted subscriptions are not reflected in CLF’s financial statements. Subscriptions are adjusted annually to reflect changes in the member credit unions’ paid-in and unimpaired capital and surplus. Dividends are declared and paid on required capital stock.

Member deposits represent amounts remitted by members over and above the amount required for membership. Interest is paid on member deposits at a rate equivalent to the dividend rate paid on required capital stock.

Dividends payable represents dividends declared in 2006 to be paid in 2007.

8. U.S. CENTRAL FEDERAL CREDIT UNION MEMBERSHIP

During fiscal year 1984, CLF accepted a membership request from U.S. Central Federal Credit Union (“USC”) on behalf of its corporate credit union members. At December 31, 2006 and 2005, $1,479,256,000 and $1,401,373,000, respectively, of the required portion of subscribed capital stock were purchased from CLF by USC on behalf of member credit unions of its corporate credit union members. The USC has 28 and 29 corporate credit union members as of December 31, 2006 and 2005, respectively.

CLF reinvests all of its agent member share capital in USC at market rates of interest. At December 31, 2006 and 2005, approximately $1,549,678,000 and $1,470,390,000, respectively, were invested in USC accounts at 5.46% and 3.92%, respective yields.

9. CONCENTRATION OF CREDIT RISK

At December 31, 2006 and 2005, CLF has a concentration of credit risk for its investments on deposit with USC of approximately $1,549,678,000 and $1,470,390,000, respectively (Notes 5 and 8).

10. SERVICES PROVIDED BY THE NATIONAL CREDIT UNION ADMINISTRATION

The National Credit Union Administration provides CLF with data processing and other miscellaneous services and supplies. In addition, the National Credit Union Administration pays CLF’s employees’ salaries and benefits as well as CLF’s portion of monthly building operating costs. CLF reimburses the National Credit Union Administration on a monthly basis for these items. The total amounts charged by the National Credit Union Administration were approximately $253,000 and $220,000 for the years ended December 31, 2006 and 2005, respectively. As of December 31, 2006 and 2005, accounts payable and other liabilities include approximately $95,000 and $91,000, respectively due to the National Credit Union Administration Operating Fund for services provided.

11. DISCLOSURE OF FAIR VALUE OF FINANCIAL INSTRUMENTS

See notes to financial statements.
1. NATURE OF ORGANIZATION

The Community Development Revolving Loan Fund for Credit Unions ("CDRLF") was established by an act of Congress (Public Law 96-123, November 20, 1979) to stimulate economic development in low-income communities. The National Credit Union Administration ("NCUA") and the Community Services Association ("CSA") jointly adopted Part 705 of NCUA Rules and Regulations, governing administration of the Fund, on February 28, 1980.

Upon the dissolution of CSA in 1983, administration of CDRLF was transferred to the Department of Health and Human Services ("HHS"). Because HHS never promulgated final regulations governing the administration of CDRLF, the Fund was dormant.

The Community Development Credit Union Transfer Act (Public Law 99-604, November 6, 1986) transferred CDRLF administration back to NCUA. The NCUA Board adopted amendments to Part 705 of NCUA Rules and Regulations on September 16, 1987, and began making loans/deposits to participating credit unions in 1990.

The purpose of CDRLF is to stimulate economic activities in the communities served by low-income credit unions which will result in increased income, ownership, and employment opportunities for low-wealth residents, and other economic growth. The policy of NCUA is to revolve the loans to qualifying credit unions as often as practical in order to gain maximum impact on as many participating credit unions as possible.

2. SIGNIFICANT ACCOUNTING AND OPERATIONAL POLICIES

Basis of Accounting—CDRLF reports its financial statements on the accrual basis of accounting.

Cash Equivalents—The Federal Credit Union Act permits CDRLF to make investments in United States Government Treasury securities. All investments in 2006 and 2005 were cash equivalents and are stated at cost which approximates fair value. Cash equivalents are highly liquid investments with original maturities of three months or less.

Allowance for Loan Losses—CDRLF records a provision for estimated loan losses. Loans considered to be uncollectible are charged to the allowance for loan losses. Management continually evaluates the adequacy of the allowance for loan losses based upon prevailing circumstances and an assessment of collectibility risk of the total loan portfolio. Accrual of interest is discontinued on non-performing loans when management believes collectibility is doubtful. At December 31, 2006 and 2005, there were no nonaccrual loans.

Salary and Operating Expenses—NCUA provides certain general and administrative support to the CDRLF, including office space, salaries, and certain supplies. The value of these contributed services is not charged to CDRLF.

Revenue Recognition—Appropriation revenue is recognized as the related technical assistance expense is recognized. Total appropriation revenues will differ from total technical assistance expenses because not all technical assistance is funded by appropriations.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management’s estimates.

3. GOVERNMENT REGULATIONS

CDRLF is subject to various Federal laws and regulations. Assistance, which includes lending and technical assistance, is limited by Congress to a total of the $18,660,515 appropriated for CDRLF, plus accumulated earnings. Federally chartered and state-chartered credit unions may participate in CDRLF’s Community Loan Fund. Loans may only be made to low-income credit unions as defined by NCUA.
NCUA Rules and Regulations Section 705.7 permit the classification of the loan in the participating credit union’s accounting records as either a note payable or a nonmember deposit. As a nonmember deposit, an amount not to exceed $100,000 per credit union is insured by the National Credit Union Share Insurance Fund (“NCUSIF”). The covered amount of loans recorded as nonmember deposits by participating credit unions insured by the NCUSIF totaled approximately $4,553,000 and $3,034,000 at December 31, 2006 and 2005, respectively. Under the CDRLF Loan Program, loans recorded in the credit union’s accounting records as notes payable may be collateralized.

Loans are limited to a maximum amount of $300,000 per credit union. Loans issued after January 1, 2002, carry a fixed rate of 1%. Interest and principal are repaid on a semiannual basis beginning six months and one year, respectively, after the initial distribution of the loan. The maximum term of each loan is five years. Participating credit unions are required to match the value of the loan within one year of the date of approval of the loan.

During the year ended December 31, 2005, appropriations for loans and technical assistance in the amount of $1,942,000 were received, of which $950,000 was for fiscal years 2006–2007. Of this amount, $1,743,600 was designated to be used as operating appropriations for technical assistance and $198,400 was designated to be used as revolving fund capital.

In January 2006, $9,500 of the fiscal 2006–2007 appropriation was rescinded, making a net appropriation of $940,500 for technical assistance for fiscal years 2006–2007.

For the appropriations received for technical assistance for fiscal 2006–2007, $940,500 expires on September 30, 2007. Appropriations of $941,000 for technical assistance grants are proposed for fiscal 2007–2008.

</tbody>
</table>

5. CONCENTRATION OF CREDIT RISK

At December 31, 2006 and 2005, there are no significant concentrations of credit risk in the loan portfolio. As discussed in Note 1, CDRLF provides loans to credit unions that serve predominantly low-income communities.

6. ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS

The following disclosures of the estimated fair value of financial instruments are made in accordance with the requirements of Statement of Financial Accounting Standards No. 107, Disclosures about Fair Value of Financial Instruments. The methods and assumptions used in estimating the fair value disclosures for financial instruments are as follows:

**Cash and Cash Equivalents**—The carrying amounts for cash and cash equivalents approximate fair values.

**Interest Receivable and Accrued Technical Assistance**—Such items are recorded at book values, which approximate the respective fair values.

**Loans**—The fair value is estimated by discounting projected future cash flows using current market interest rates. For purposes of this calculation, the discount rate used was the prime interest rate plus two percent (6.76% and 6.37% at December 31, 2006 and 2005, respectively).

The carrying amount and the estimated fair value of the CDRLF’s financial instruments are as follows:

<table>
<thead>
<tr>
<th></th>
<th>December 31, 2006</th>
<th>December 31, 2005</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>Assets:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Cash and cash equivalents</td>
<td>$8,668,980</td>
<td>$8,668,980</td>
</tr>
<tr>
<td>Interest receivable</td>
<td>$17,703</td>
<td>$17,703</td>
</tr>
<tr>
<td>Loans</td>
<td>$7,386,864</td>
<td>$6,358,776</td>
</tr>
<tr>
<td>Allowance for loan losses</td>
<td>-</td>
<td>-</td>
</tr>
<tr>
<td>Loans—net of allowance</td>
<td>$7,386,864</td>
<td>$6,358,776</td>
</tr>
<tr>
<td>Liabilities—</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Accrued technical assistance</td>
<td>$1,091,418</td>
<td>$1,091,418</td>
</tr>
</tbody>
</table>
It is the intent of CDRLF to hold its loans to maturity. CDRLF anticipates realizing the carrying amount in full. Fair value is less than the carrying amount because loans are made at less than market interest rates.

NCUA has a three-member board appointed by the President of the United States and confirmed by the Senate. No more than two board members are from the same political party, and members serve staggered six-year terms. The NCUA board normally meets monthly, except August, in open session in Alexandria, Virginia.

**Chairman JoAnn Johnson** was nominated by President George W. Bush and confirmed by the U.S. Senate March 22, 2002, to a Republican seat on the NCUA Board. Iowa State Senator Johnson is a former educator, athletic coach and community activist. She was elected to office in 1994 and chaired both the Iowa Senate Commerce Committee and Ways and Means Committee before resigning to join NCUA. Mrs. Johnson was designated NCUA chairman May 3, 2004. Her term expires August 2, 2007.

**Vice Chairman Rodney E. Hood** was appointed by President George W. Bush to a seat on the NCUA Board November 15, 2005. His term expires April 10, 2009. Mr. Hood joins the NCUA Board after serving the Department of Agriculture as USDA Associate Administrator for Rural Development’s Housing Program since September 2004, addressing the housing needs of rural America. Vice Chairman Hood has nearly two decades of experience in affordable housing and community development.

**Board Member Christiane Gigi Hyland** was appointed by President George W. Bush to a seat on the National Credit Union (NCUA) Board effective November 18, 2005. Her term expires August 2, 2011. When nominated to the NCUA Board, she served as Senior Vice President, General Counsel for Empire Corporate Federal Credit Union in Albany, New York. She previously served concurrently as Vice President, Corporate Credit Union Relations of the Credit Union National Association, Inc. and Executive Director for the Association of Corporate Credit Unions.
